THE CARY PUBLIC HIGH SCHOOL

AND

FARM LIFE SCHOOL

History

The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the Legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

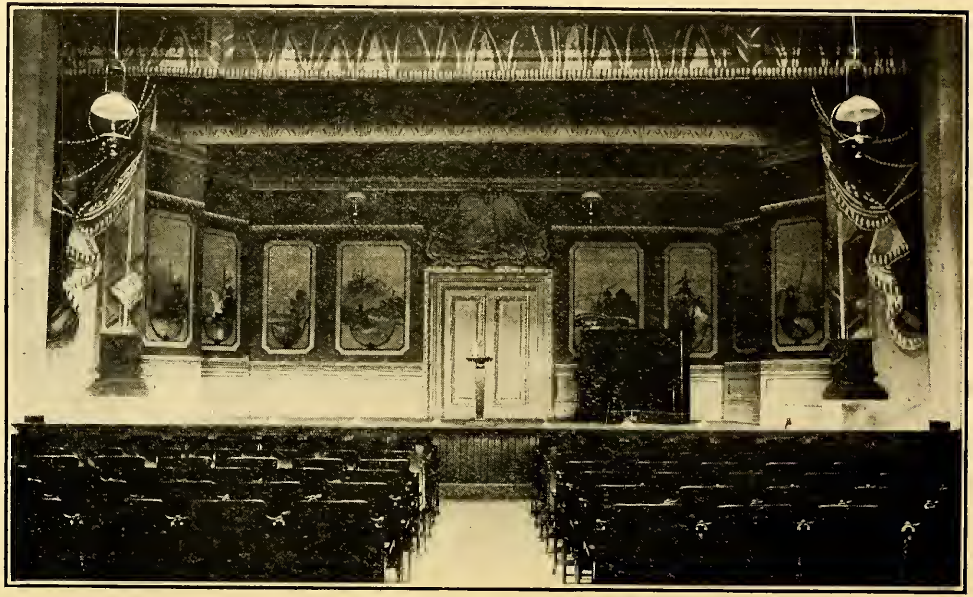
The old Cary High School ranked as one of the leading high schools of the State in its day. With a large and well equipped two-story wooden building, with ample boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew partonage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the wise management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and M. B. Dry was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

The old two-story wooden building which the school had outgrown was replaced in 1913 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000.00. The old dormitory building for boys which was burned in the spring of 1916 is now being replaced by a $10,000.00 brick structure which will be completed by the opening of the fall term. This building will be equipped with steam heat, baths, lavatories and toilets. It is located near the main school building and will be occupied by the girls.

The present girls' dormitory, located a few hundred yards from the campus, will, in the future, be occupied by the boys. Sufficient boarding accommodations can be provided for as many students, either boys or girls, as may desire to attend.



Stage and Scenery of Auditorium

Courses of Study

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Science, Latin, French, Agriculture, Home Economics, Music. To receive a certificate of graduation, a pupil must have completed one of the following courses:

Latin—*Virgil's Aeneid*, six books (Bennett); New Latin Composition, Part III (Bennett); Sight Reader (Howe).

French—Grammar (Fraser and Squair).

Science—Chemistry of Common Things (Brownlee and others).

Agriculture—

Home Economics—

The course of study for the Elementary School is not outlined here since it is identical with that outlined by the State Department of Education.

Music is one of the culture subjects and ought to be in every home. It adds charm to the home life, turning many a dull hour into one of real enjoyment.

It is elective in all the courses. We endeavor to give a course in Music that is thorough. Only teachers of recognized musical ability and skill are employed. The school owns four pianos and a grafanola.

For session 1916-1917, both instrumental and vocal music will be offered.

WHAT WE ARE DOING FOR OUR BOYS AND GIRLS

The school is endeavoring to put itself in line with the demands of the times for practical education. The demand for vocational training, especially the training needed by the boys and girls who are to live in the country, is becoming more and more insistent. The whole course of study at Cary has been planned with this in view.

Home Economics Class

The so-called cultural subjects have not been discarded, but emphasis is placed on shop work and field work for the boys, and cooking and sewing for the girls.

OUR EQUIPMENT FOR VOCATIONAL TRAINING

In the school basement are two large, well-lighted rooms one of which serves as a kitchen and the other as a dining and sewing room. The kitchen is provided with running water, hot and cold, sinks, laundry tub, domestic science desks, oil and wood ranges, cupboards, refrigerator, bins, oil stoves, and the most approved cooking utensils. The sewing and dining room contains dining tables and sewing tables with chairs, sewing machines, sewing lockers, china and linen closets, dressing mirror, and a substantial and attractive set of china and silver ware. The equipment of this department has been pronounced by experts to be as good as can be found in any school of the same grade in the State at present.

For the boys a room in the basement has been fitted up with work benches, tools, etc., and here all sorts of useful articles about the home and farm are made under the direction of the teacher of the farm life department. Another room in the basement serves as a dairy laboratory. The equipment consists of two cream separators, the De Laval and the Sharples, a Babcock milk tester, a sterilizer, a canning outfit and running water. The milk will be brought from the school farm to the dairy room where the milk and cream will be separated by the students and delivered to the dormitories.

There are also laboratories where systematic work is done in illustrating the principles of Physics, Chemistry, Botany and Agriculture. Recently a canning outfit was donated to the school and will be in active operation during the summer and fall months, the fruit and vegetables being canned on the school farm for use in the boarding department.

The school owns a farm of sixteen acres on which a model barn and farm cottage have been built. The school also owns two fine Jersey cows and a Percheron mare, besides a lot of farm machinery. On this farm, as well as on the other farms in the neighborhood, the pupils learn how to set and to prune and spray fruit trees, to terrace hill sides, to select and test seed, to grow vegetables for market and for home use, and to experiment with cover crops, fertilizers, etc. It will be the earnest effort of the school to make the farm a practical demonstration of the best methods of farming, dairying, and pig and poultry raising.

LITERARY SOCIETIES

Cary is fortunate in having four well organized, wide awake, and enthusiastic literary societies, two for boys and two for girls. The girls meet Thursday afternoon and the boys on Thursday nights.

Carpenter Shop

Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former graduate of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement.

The literary societies are the school's strong right arm. Here the pupils of the high school meet once a week and declaim or recite, report on current events, and discuss the great questions that agitate the country. In the debates, not only do the members acquire skill in handling an opponent, but the knowledge of parliamentary practice which is so essential to success in handling large groups of men, is acquired in these societies.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus, one for the larger boys and another for the children and girls are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

ENTRANCE REQUIREMENTS.

Pupils must bring certificates from former teacher showing that the work of the Seventh Grade has been satisfactorily completed. Pupils unprepared for high school work are assigned to work in the grades. Credit is given for work done in other schools of the same standing.

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

EXPENSES

TUITION PER TERM

Primary Grades	$ 8.00
Grammar Grades	12.00
Freshman and Sophomore Years	16.00

Base-Ball Team

Junior and Senior Years	18.00
Music—half-hour lessons alternate days	12.00
Music Practice—an hour daily	2.40
Voice	12.00

BOARD PER MONTH

Boys' Dormitory	9.50
Girls' Dormitory	9.50

ROOM RENT PER MONTH

Boys' Dormitory	2.00
Girls' Dormitory—Single Beds	2.50
Girls' Dormitory—Double Beds	2.00

TERMS

Tuition is payable quarterly in advance. No deduction is made for absence except in cases of protracted illness of one week or more.

Board is payable at the end of each school month of 28 days with no deduction for less than nine meals missed in succession.

Pupils from Wake County, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Pupils rooming in the dormitory must furnish the following: A pair of sheets, a pair of blankets or quilts, a pillow and pillow cases, towels, and toilet articles such as comb, brush, soap, and matches.

The rates for room include fuel and lights.

Table board from Monday to Friday is $6.50 per month, or from Sunday afternoon to Friday $7.00. There is no deduction in room rent.

Board and room can be secured in private families for $12.00 a month for full time, or $8.50 a month from Monday to Friday.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal.

Parents who find their children spending more money at Cary than is necessary should notify the Principal.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or the town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

GIRLS' BASKET-BALL TEAM

SPECIAL NOTES

Last session 148 high school pupils were enrolled. There were 106 boarders from 14 counties. The graduating class numbered 32. the largest class in the history of the school.

An experiment in students' government was tried in the boys' dormitory last session with most gratifying results. Under this plan, the students elect their own officers and formulate the rules by which they are governed under the Principal's direction.

During the vacation shower baths for the boys will be installed in the basement of the main building. Dressing rooms and lockers will also be provided for their use.

The new dormitory for girls will be furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, a white enameled wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on the campus. (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage. (8) A gymnasium room, society halls, laboratories, etc. (9) Dormitories both for boys and girls—one of these a handsome brick structure just built, with steam heat, baths, etc. (10) A school farm with buildings and equipment for demonstrating the principles of agriculture, dairying, stock raising, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students.

DONATIONS TO THE SCHOOL

The following have made donations to the school during the past session:

The De Laval Cream Separator Co., 165 Broadway, New York City, one cream separator valued at $75.00.

The Ringen Stove Co., St. Louis. Mo., one oil range valued at $18.00.

The Sharples Separator Company, West Chester, Pa., one cream separator valued at $70.00.

The Southern Canner and Evaporator Co., Chattanooga. Tenn., one canning outfit valued at $10.00.

The Junior Order, Cary, N. C., one flag pole valued at $10.00.

The Junior Order and Patrotic Sons of Cary jointly, six brick piers and a brick wall in front of school building valued at $80.00.

Boys' Basket-Ball Team

The Woman's Betterment Association of Cary, a concrete walk and gravel driveway in front of the main building valued at $150.00.

Girls' Dormitory

The Cary Public High School
and Farm Life School

History

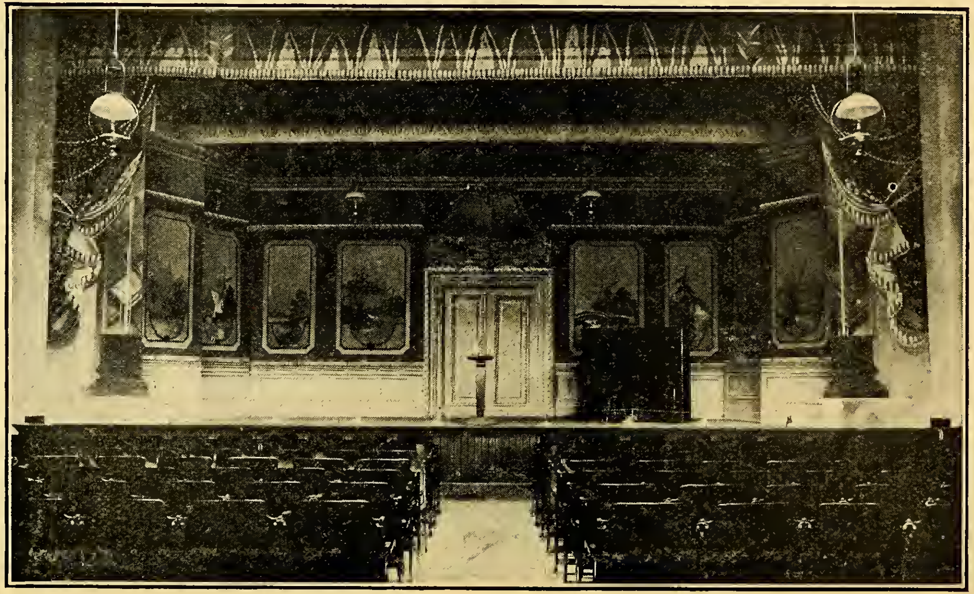
The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the Legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large and well equipped two-story wooden building, with ample boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the wise management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and M. B. Dry was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

The old two-story wooden building which the school had outgrown was replaced in 1913 by a new and thoroughly modern



STAGE AND SCENERY OF AUDITORIUM

brick structure with thirty-three rooms, costing $33,000.00. The old dormitory building for boys which was burned in the spring of 1916 has been replaced by a $10,000.00 brick structure. This building is equipped with steam heat, baths, lavatories and toilets. It is located near the main school building and is occupied by the girls and the lady teachers.

The old dormitory for girls, located a few hundred yards from the campus, will be occupied by the boys until a new dormitory can be built. Sufficient boarding accommodations can be provided for as many students, either boys or girls, as may desire to attend.

Courses of Study

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Science, Latin, French, Agriculture, Home Economics, Music. To receive a certificate of graduation, a pupil must have completed one of the following courses:

Academic Course

FIRST YEAR	SECOND YEAR
English	English
Arithmetic	Algebra

French—Grammar (Fraser and Squair).

Library and Reading Room

Science—First Course in Physics (Milliken and Gale).
Agriculture—See page 15.

Outline of Course of Study in Home Economics Department

The school offers a three-year course in Domestic Art and Science, for which high school credit is given. A special Home Economics diploma is granted students who complete the course.

We correlate the work of the course with other educational subjects. In general, our aim is to help to prepare the student for more efficient living.

TIME GIVEN TO WORK

Domestic Art—One forty-five minute period to recitation and two double periods to laboratory practice each week.

Domestic Science—Same as Domestic Art.

Text Books—First and second years: Shelter and Clothing (Kinne and Cooley); Foods and Household Management (Kinne and Cooley). Third year: Clothing for Women (Laura Boldt); Laboratory Manual of Dietetics (D. M. Rose). Text supplemented by lectures and reference reading. Note books required.

DOMESTIC ART COURSE

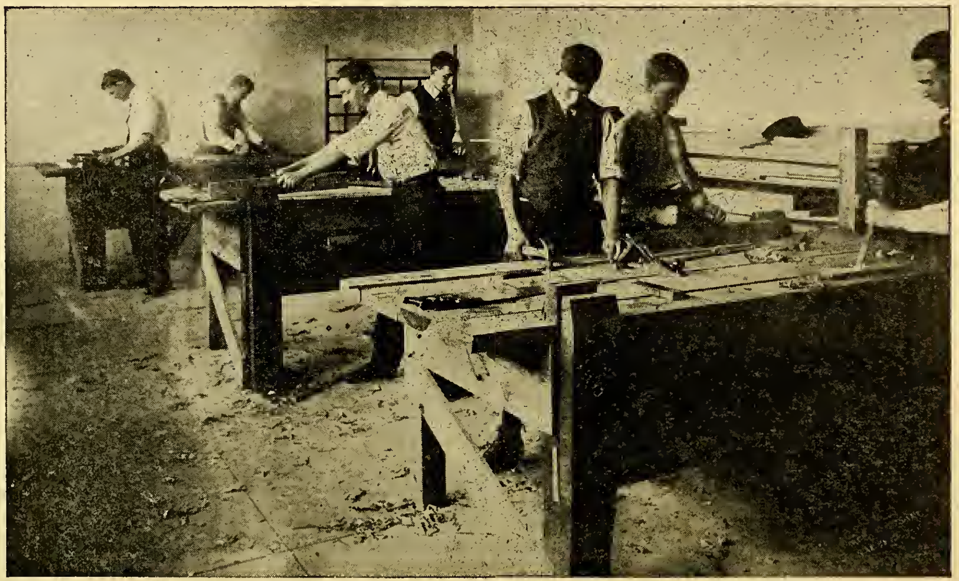
First Year—(*a*) Elementary Sewing. Course involves the use and care of sewing machines, the making of a cookery apron, a set of underwear and a ginghams dress. (*b*) Textiles. (With excursion lessons).

Second Year—(*a*) Intermediate Sewing. Course involves the making of a regulation middy blouse, a wollen skirt and a lingerie dress. (*b*) Drawing. (*c*) Textile study continued during first and second quarters. History of Costumes substituted in third quarter. Costume Design in the fourth.

Third Year—(*a*) Dressmaking. Course includes the making of a wollen or silk dress. (*b*) Drawing and color work. (*c*) Millinery. Involves the making of wire frames, stretching the foundation and completing a silk hat and straw hat. (*d*) Interior Decoration. Study of problems involving practical applications.

DOMESTIC SCIENCE COURSE

First Year—(*a*) Technology of Cookery. Course includes a study of the food principles, with practical applications. It



Carpenter Shop

also includes the care of the laboratory; use of utensils; weights and measures; sanitation; care and use of milk, meat, etc. Excursion lessons and candy factory.

Second Year—(*a*) General Cookery, involving canning; preserving; making of breads, cakes, soups, salads, etc. (*b*) 1. Infant feeding. Study of dairies. Emphasis placed on the economical, sociological and ethical aspects of the subject. 2. Invalid cookery and service. 3. Budget and menu making.

Third Year—(*a*) Home Cookery and Table Service. The course aims to give theory and practice in preparation and service of the different ways of serving formal and informal meals. Fancy cookery. (*b*) Nutrition. (*c*) Home Sanitation. Discussion of social and economical problems which confront the housewives.

The course of study for the Elementary School is not outlined here since it is identical with that outlined by the State Department of Education.

Music is one of the culture subjects and ought to be in every home. It adds charm to the home life, turning many a dull hour into one of real enjoyment.

It is elective in all the courses. We endeavor to give a course in Music that is thorough. Only teachers of recognized musical ability and skill are employed. The school owns four pianos and a grafanola.

For session 1917-1918, both instrumental and vocal music will be offered.

What We Are Doing For Our Boys and Girls

The school is endeavoring to put itself in line with the demands of the times for practical education. The demand for vocational training, especially the training needed by the boys and girls who are to live in the country, is becoming more and more insistent. The whole course of study at Cary has been planned with this in view. The so-called cultural subjects have not been discarded, but emphasis is placed on shop work and field work for the boys, and cooking and sewing for the girls.

Our Equipment For Vocational Training

In the school basement are two large, well-lighted rooms, one of which serves as a kitchen and the other as a dining and sewing room. The kitchen is provided with running water, hot

Home Economics Class

and cold, sinks, laundry tub, domestic science desks, oil and wood ranges, cupboards, refrigerator, bins, oil stoves, and the most approved cooking utensils. The sewing and dining room contains dining tables and sewing tables with chairs, sewing machines, sewing lockers, china and linen closets, dressing mirror, and a substantial and attractive set of china and silver ware. The equipment of this department has been pronounced by experts to be as good as can be found in any school of the same grade in the State at present.

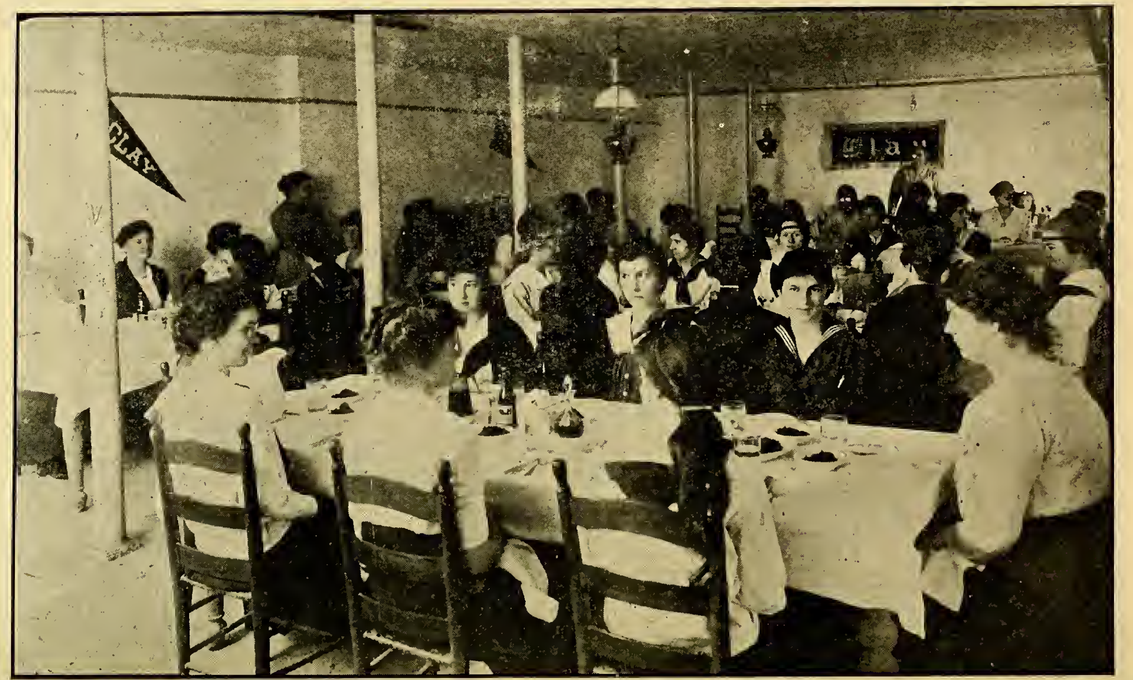
For the boys a room in the basement has been fitted up with work benches, tools, etc., and here all sorts of useful articles about the home and farm are made under the direction of the teacher of the farm life department. Another room in the basement serves as a dairy laboratory. The equipment consists of two cream separators, the De Laval and the Sharples, a Babcock milk tester, a sterilizer, a canning outfit and running water.

There are also laboratories where systematic work is done in illustrating the principles of Physics, Chemistry, Botany and Agriculture. Recently a large cannery was built by the school and the Cary Junior Order jointly, which will be in active operation during the summer and fall months, canning the fruits and vegetables on the school farm for use in the boarding department as well as the fruits and vegetables grown in the community.

The school owns a farm of sixteen acres on which a model barn and farm cottage have been built. The school also owns two fine Jersey cows besides a lot of farm machinery. On this farm, as well as on the other farms in the neighborhood, the pupils learn how to set and prune and spray fruit trees, to terrace hill sides, to select and test seed, to grow vegetables for market and for home use, and to experiment with cover crops, fertilizers, etc. It will be the earnest effort of the school to make the farm a practical demonstration of the best methods of farming, dairying, and pig and poultry raising.

Literary Societies

Cary is fortunate in having four well organized, wide awake, and enthusiastic literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Thursday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly



Girls' Dining Hall

a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former graduate of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement.

The literary socities are the school's strong right arm. Here the pupils of the high school meet once a week and declaim or recite, report on current events, and discuss the great questions that agitate the country. In the debates, not only do the members acquire skill in handling an opponent, but the knowledge of parliamentary practice which is so essential to success in handling large groups of men, is acquired in these societies.

Athletics

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus, one for the larger boys and another for the children and girls are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

Entrance Requirements

Pupils must bring certificates from former teacher showing that the work of the Seventh Grade has been satisfactorily completed. Pupils unprepared for high school work are assigned to work in the grades. Credit is given for work done in other schools of the same standing.

Examinations and Reports

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

Music Studio

Expenses

TUITION PER TERM

Primary Grades	$ 8.00
Grammar Grades	12.00
Freshman and Sophomore Years	16.00
Junior and Senior Years	18.00
Music—half-hour lessons alternate days	12.00
Music Practice—an hour daily	2.40
Voice	12.00

BOARD PER MONTH

Boys' Dormitory	10.50
Girls' Dormitory	10.50

ROOM RENT PER MONTH

Boys' Dormitory	2.00
Girls' Dormitory—Single Beds	2.50
Girls' Dormitory—Double Beds	2.00

Terms

Tuition is payable quaterly in advance. No deduction is made for absence except in cases of protracted illness of one week or more.

Board is payable at the end of each school month of 28 days with no deduction for less than twelve meals missed in succession.

Pupils from Wake County, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Pupils rooming in the dormitory must furnish the following: A pair of sheets, a pair of blankets or quilts, pillow cases, towels, and toilet articles such as comb, brush, soap, and matches. Boys furnish pillows also.

The rates for room include fuel and lights.

Those desiring rooms reserved in the dormitories must deposit with the Principal $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 5.

Table board from Monday to Friday is $7.50 per month, or from Sunday afternoon to Friday $7.00. There is no deduction in room rent.

Board and room can be secured in private families for $13.00 a month for full time, or $9.50 a month from Monday to Friday.

Class in Agriculture

All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

Miscellaneous

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal.

Parents who find their children spending more money at Cary than is necessary should notify the Principal.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or the town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Special Notes

Last session 164 high school pupils were enrolled. There were 115 boarders from 15 counties. The graduating class numbered 27.

The new dormitory for girls is furnished with neat and attractive furniture, each room being provided with a closet and containing and oak dresser, an oak wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs. One of the rooms is used as an infirmary.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on the campus. (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage. (8) A gymnasium room, laboratories, etc. (9) Dormitories both for boys and girls—one of these a handsome brick structure with steam heat, baths, etc. (10) A school farm with buildings and equipment for demonstrating the principles of agriculture, dairying, stock raising, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students.

Main Building

The Cary Public High School
and
Farm Life School

History

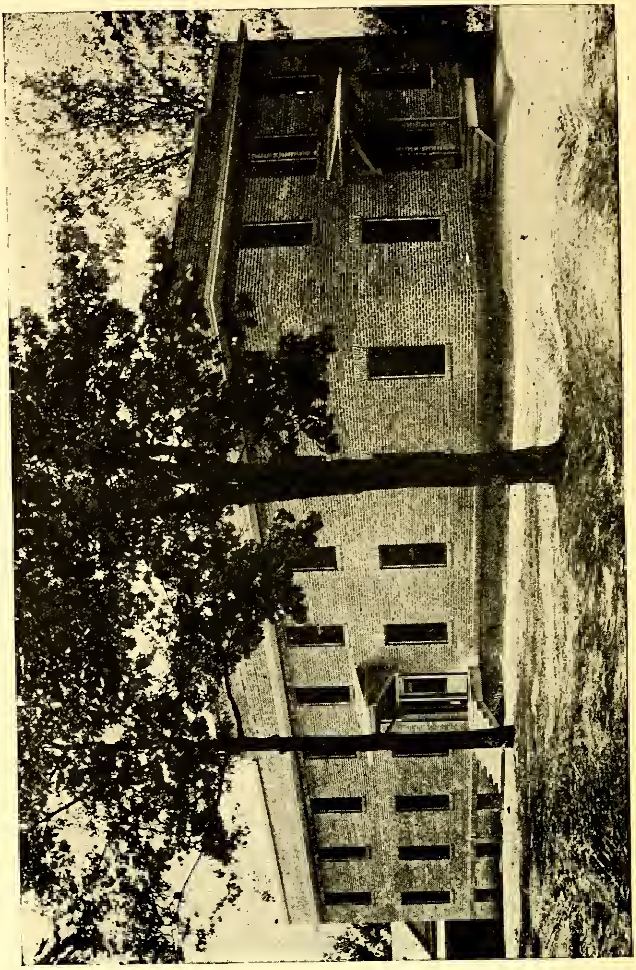
The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. Theofficial name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the Legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with ample boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the wise management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and M. B. Dry, the present Principal, was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

The old two-story wooden building which the school had out-



Girls' Dormitory

grown was replaced in 1913 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $11,000. The building is provided with steam heat, electric lights, baths, lavatories and toilets, and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which has been occupied by the boys since 1916, was burned in the fall of 1918. The school is now erecting on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $25,000.

Courses of Study

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression and Art. To receive a diploma of graduation one must have completed one of the following courses:

History—High School History of United States (Adams and Trent); *Civics* (Magruder).

Latin—Virgil's Aeneid, four books (Bennett); *New Latin Composition, Part III* (Bennett).

French—Grammar (Fraser and Squair).

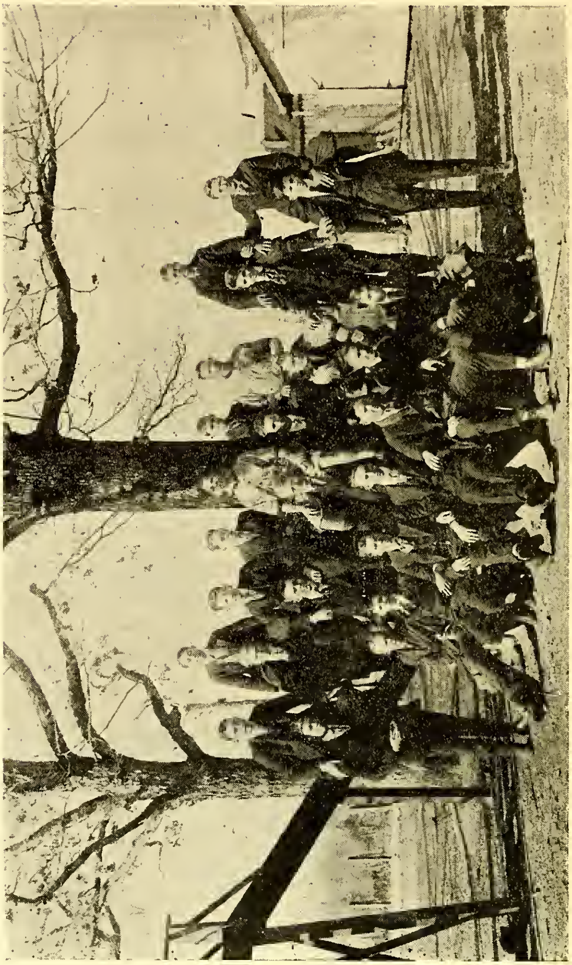
Science—First Course in Physics (Milliken and Gale).

The school offers a three-year course in Domestic Art and Science, for which high school credit is given. A special Home Economics diploma is granted students who complete the course.

The course in Agriculture covers four years, and prepares the student to enter the A. and E. College. A special diploma in Agriculture is given to students completing this course.

The outline of courses in Home Economics and Agriculture may be had on application.

The course of study for the Elementary School is not outlined here since it is identical with that outlined by the State Department of Education.



Farm Life Class

Music is one of the culture subjects and ought to be in every home. It adds charm to the home life, turning many a dull hour into one of real enjoyment.

Elocution and Art, like Music, are special subjects mainly cultural, but may be made of much utilitarian value. It is hoped that many, both boys and girls, will avail themselves of the opportunities offered in these special departments.

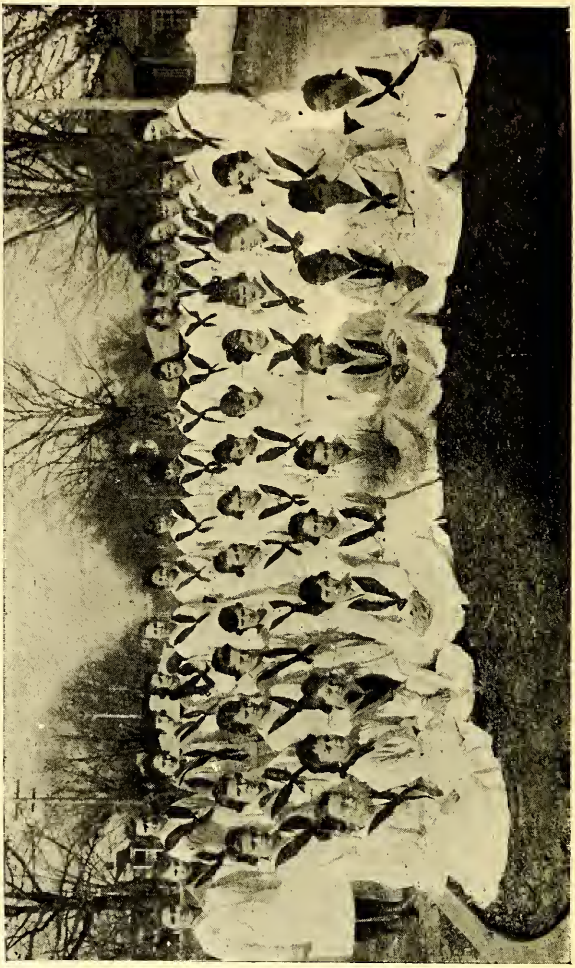
What We Are Doing for Our Boys and Girls.

The school is endeavoring to put itself in line with the demands of the times for practical education. The demand for vocational training especially the training needed by the boys and girls who are to live in the country, is becoming more and more insistent. The whole course of study at Cary has been planned with this in view. The so-called cultural subjects have not been discarded, but emphasis is placed on shop work and field work for the boys, and cooking and sewing for the girls.

Our Equipment for Vocational Training

In the school basement are two large, well-lighted rooms, one of which serves as a kitchen and the other as a dining and serving room. The kitchen is provided with running water, hot and cold, sinks, laundry tub, domestic science desks, oil and wood ranges, cupboards, refrigerator, bins, oil stoves, and the most approved cooking utensils. The dining room contains dining tables with chairs, china and linen closets, and a substantial and attractive set of china and silver ware. The sewing room is on the first floor and is provided with sewing tables with chairs, sewing machines, sewing lockers, dressing mirror, etc. The equipment has been pronounced by experts to be as good as can be found in any school of the same grade in the State at present.

For the boys, there is a room in the basement fitted up with work benches and tools for use of the Agricultural students, and another room contains a cream separator, Babcock milk tester and a sterilizer for use of classes in dairying.



Home Economics Class

There are also laboratories with individual desks, running water, etc., where systematic work is done in illustrating the principles of Physics, Chemistry, Botany and Agriculture. A large cannery is located on the school grounds and is operated during summer and fall months, canning the fruits and vegetables on the school farm for use in the boarding department as well as the fruits and vegetables grown in the community.

The school owns a farm of twenty-one acres on which a barn and farm cottage have been built. The school also owns a Percheron mare, two Jersey cows, some pigs and chickens, besides a lot of farm machinery. On this farm, as well as on the other farms in the neighborhood, the pupils learn how to set and prune and spray fruit trees, to terrace hill sides, to select and test seed, to grow vegetables for market and for home use, and to experiment with cover crops, fertilizers, etc.

At present the school receives an appropriation from the Federal Government under the Smith-Hughes Act of Congress, which requires that each pupil taking the Agricultural course shall have a "project" either on the school farm or preferably at his home, this "project" to be closely supervised by the Agricultural teacher.

Literary Societies

Cary is fortunate in having four well organized literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former graduate of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement.

Athletics

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already

Expression Class

passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus, one for the larger boys and another for the children and girls, are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

Entrance Requirements

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teacher showing work that has been done. Blanks for this purpose will be furnished on application. Entrance examinations will be held on at least two subjects, English and Mathematics, for those wishing to enter classes above the Freshman.

Examinations and Reports

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

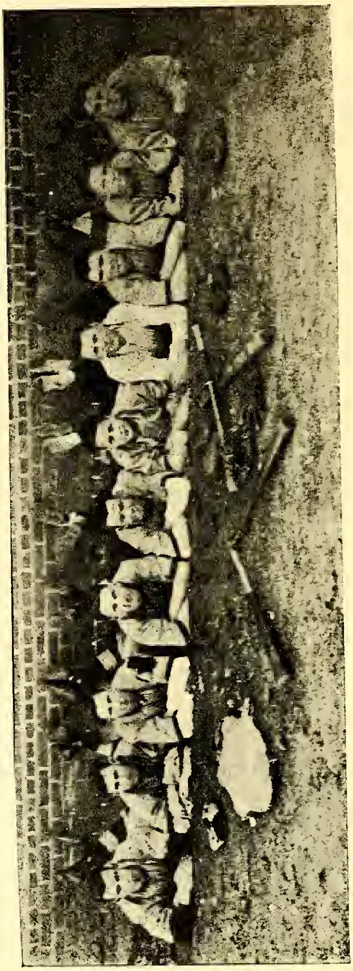
Expenses

TUITION PER TERM

Primary Grades	$10.00
Grammar Grades	14.00
Freshman and Sophomore Years	20.00
Junior and Senior Years	22.00
Music—half-hour lessons alternate days	15.00
Music Practice—an hour daily	3.60
Elocution	16.00
Art	16.00

BOARD PER MONTH (CLUB PLAN)

Dormitories, all time boarders (estimated)	14.00
Dormitories, five-day boarders (estimated)	12.00



Baseball Team

ROOM RENT PER MONTH

Boys' Dormitory	$ 4.00
Girls' Dormitory—Single Beds	4.00
Girls' Dormitory—Double Beds	3.50

Terms

Tuition is payable quarterly in advance. No deduction is made for absence except in cases of protracted illness or other providential hindrance.

Board is payable at the beginning of each school month of 28 days with no deduction for less than twelve meals missed in succession.

Pupils from Wake County, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Pupils rooming in the dormitory must furnish the following: A pair of sheets, a pair of blankets or quilts, pillow cases, towels, and toilet articles such as comb, brush, soap, and matches. Boys furnish pillows also.

The rates for room include fuel and lights.

Those desiring rooms reserved in the dormitories must deposit with the Principal $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 3, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

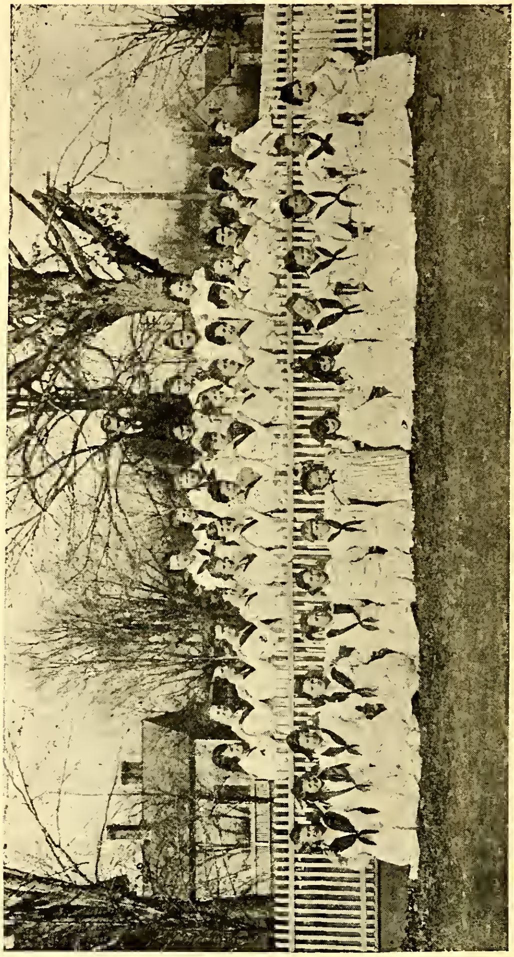
All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

Miscellaneous

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal.

Parents who find their children spending more money at Cary than is necessary should notify the Principal.



Music Class

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Special Notes

Last session 179 high school pupils were enrolled. There were 137 boarders from 14 counties. The graduating class numbered 26.

The dormitory for girls is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs. One of the rooms is used as an infirmary.

The new brick dormitory for boys will have the same conveniences as the girls' dormitory.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on the campus. (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage and scenery. (8) Laboratories with individual desks, running water, etc. (9) Dormitories both for boys and girls—both handsome brick structures, with steam heat, baths, etc. (10) A school farm with buildings and equipment for demonstrating the principles of agriculture, dairying, stock raising, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students. (13) An ample force of trained teachers to do the work of the school.

The High School Annual

Each year the Senior Class publishes a book, the title of which is the "C. H. Chsite," which contains the individual pictures of the class, group pictures of the lower classes, the faculty, the societies and various other organizations of the school. Besides these there are pictures of the buildings and grounds, various and sundry school activities, cartoons, etc. It also contains the class will, the class prophecy, history, poem and many original jokes, puns, etc. It is a publication usually well edited, and beautifully printed and bound, and is highly prized by the pupils, teachers and patrons. The 1919 Annual is especially attractive, being bound in black leather with title on cover in gold letters and the whole printed on the finest quality of paper. The price is $2.00. A few copies are still on hand and can be had at this price.

The school owns a few copies of the 1918 Annual which it is loaning to those investigating the merits of the school, with the understanding that they be returned after they are examined.

Since the names of the high school pupils by classes are printed in the Annual they are omitted from this catalogue.

The graduating class and winners of medals for 1918 are printed in this catalogue, as no catalogue was issued least year owing to war conditions.

Our patrons and friends are urged to patronize our advertisers, both those who advertise in the catalogue and those who advertise in the Annual.

Cary Public High School
and
Farm Life School

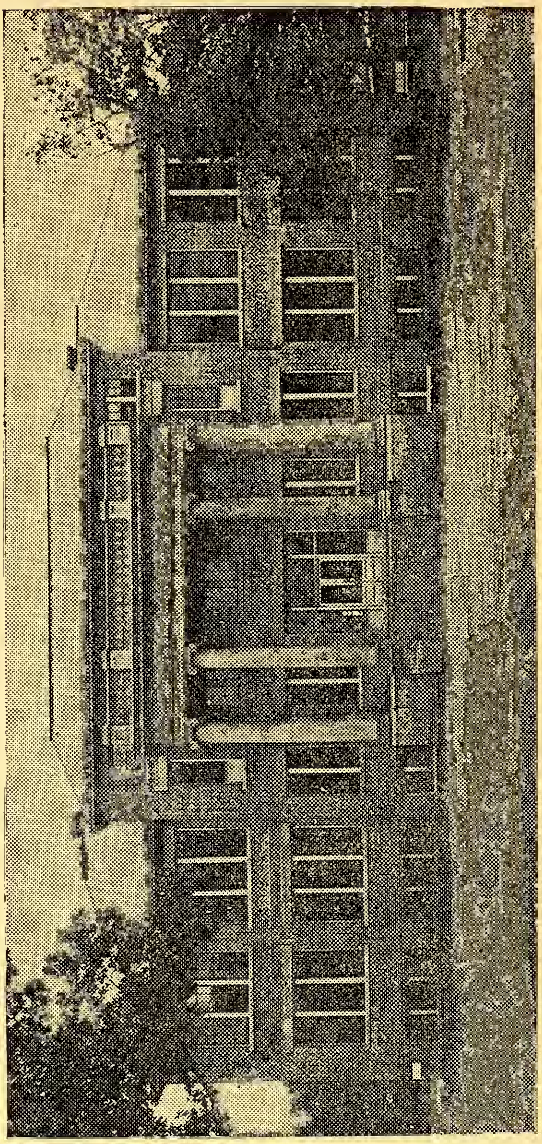
History

The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the Legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the wise management of E. L. Middleton. In 1980, Mr. Middleton resigned to enter a different field of work, and the present Superintendent, was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments con-



Main Building

stantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

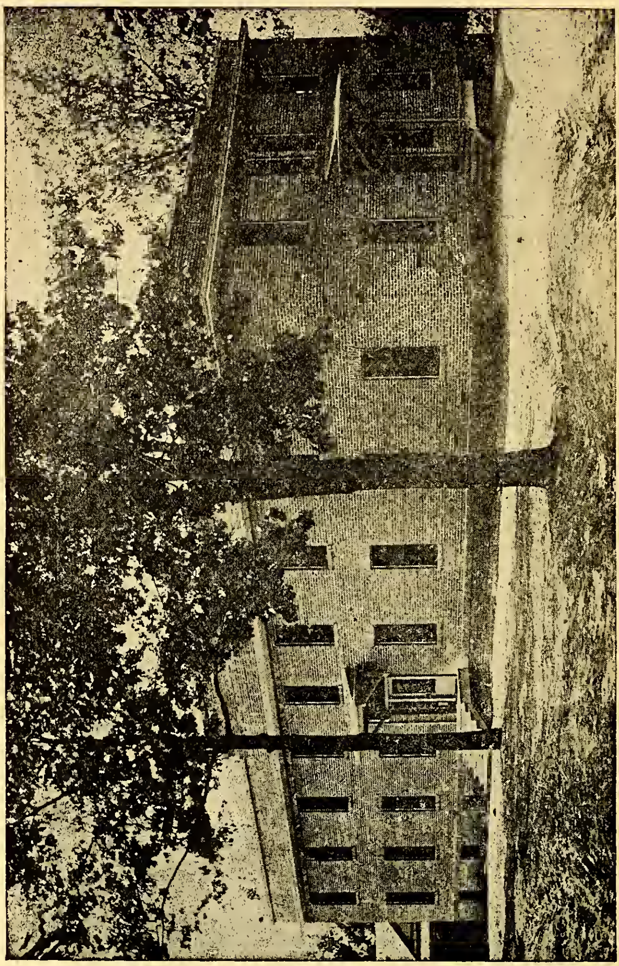
The old two-story wooden building which the school had outgrown was replaced in 1913 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $11,000. The building is povided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. The school has just erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $25,000.

Entrance Requirements

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teacher showing work that has been done. Blanks for this purpose will be furnished on application. Entrance examinations will be held on at least two subjects, English and Mathematics, fo rthose wishing to enter classes above the Freshman.

Courses of Study

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression and Art. To receive a diploma of graduation one must have completed one of the following courses:



Girl's Dormitory

N. B. Credit will be given for all reading over and above the minimum in each class.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—Virgil (Bennett), Four books.

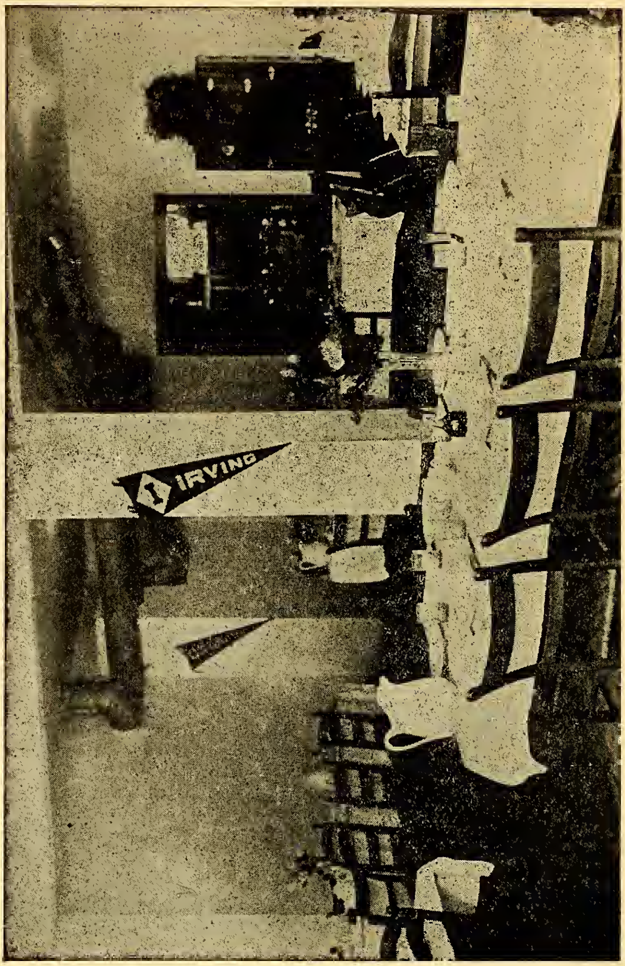
History—American History (Muzzey).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks).

The school offers a three-year course in Domestic Art and Science, for which high school credit is given. A special **Home**



Dining Hall

Economics diploma is granted students who complete the course.

The course in Agriculture covers four years, and prepares the student to enter the A. and E. College. A special diploma in Agriculture is given to students completing this course.

The outline of courses in Home Economics and Agriculture may be had on application.

The course of study for the Elementary School is not outlined here since it is identical with that outlined by the State Department of Education and can be had in bulletin form.

Our Equipment for Vocational Training

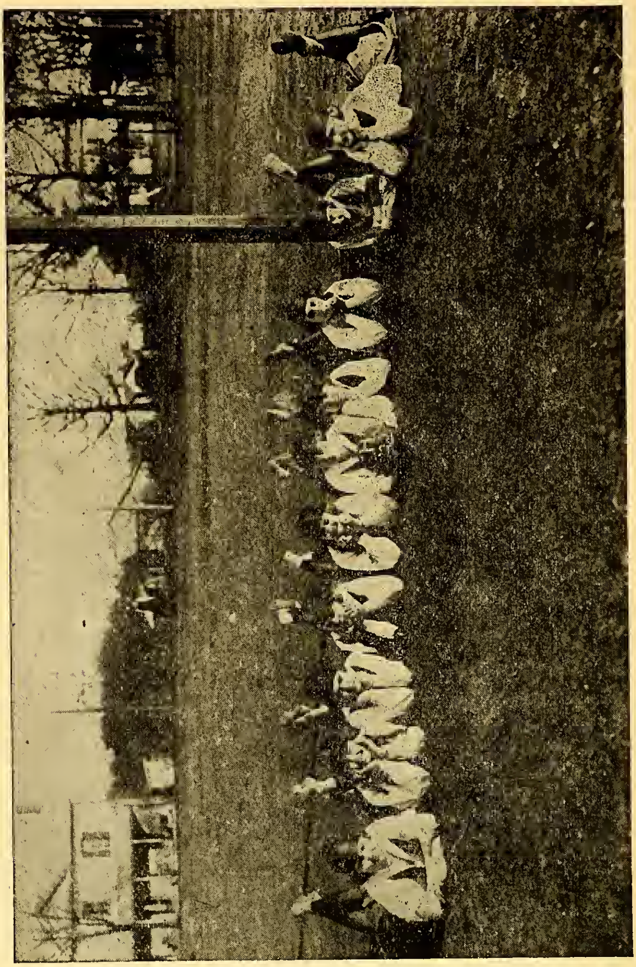
In the basement of the Girl's Dormitory are two rooms, a dinning room and kitchen used at present for the cooking department of the school. This department is provided with running water, sinks, domestic science desks, oil and wood rages, oil stoves and the most approved cooking utensils.

The sewing room is on the first floor of the main building and is provided with sewing tables, chairs, sewing machines, dressing mirror, etc.

For the boys, rooms in the main building are equipped with individual desks of special design, cream separator, Babcock testers, incubators, etc.

Besides these there are also laboratories with individual desks, running water, etc., where systematic work is done in illustrating the principles of Physics, Chemistry, Botany and Agriculture. A large cannery is located on the school grounds and is operated during summer and fall months, canning the fruits and vegetables on the school farm for use in the boarding department as well as the fruits and vegetables grown in the community.

At present the school receives an appropriation from the Federal Government under the Smith-Hughes Act of Congress, which requires that each pupil taking the Agricultural course



GIRL'S BASKET BALL TEAM

shall have a "project" either on the school farm or preferably at his home, this "project" to be closely supervised by the Agricul-rural teachers.

New Vocational Building

Recently the Cary School District voted a bond issue for the erection of a building to be used chiefly by the departments of Agriculture and Home Economics. The building will be of brick and will contain a gymnasium, science laboratories, agricultural rooms, shop and forge, and rooms for cooking and sewing.

Literary Societies

Cary is fortunate in having four well organized literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former graduate of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best depater in the girls' societies on the occasion of Commencement.

The boys' societies also give a debaters' medal for the best debater at Commencement.

Medals and Prizes

The following medals are offered annually: Best debater in Clay and Calhoun Societies, best debater in Irving and Lowell Societies, most improvement in each of the societies, highest

scholarship, best oration, best declamation, best recitation. The scholarship medal is given by the Superintendent the orator's medal by Mr. H. P. Smith, a former graduate of the school and the medal for best debater in Irving and Lowell Societies by Miss Lillian Killingsworth, former Lady Principal of the school. Miss Killingsworth will also give annually hereafter a prize in books for the library to the class doing best work in English. The conditions will be announced later.

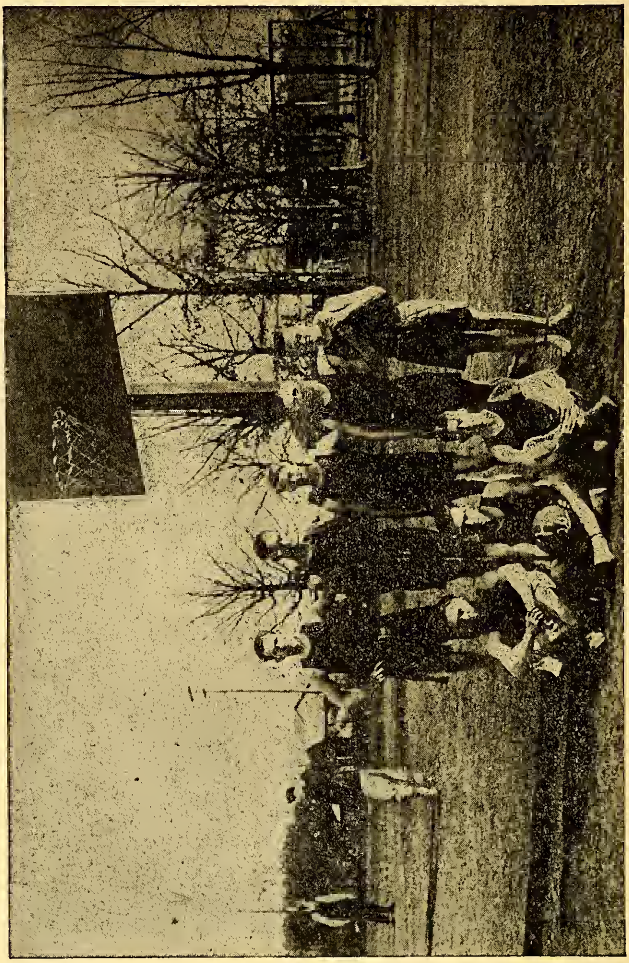
Athletics

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus one for the larger boys and another for the children and girls, are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various form of athletics, providing the teams with uniforms and other equipment, these being the property of the schol.

Examinations and Reports

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.



Basket Ball Team

Expenses

TUITION PER MONTH

Primary Grades	$ 3.00
Grammar Grades	4.00
Freshman and Sophomore Years	5.00
Junior and Senior Years	6.00
Music—half-hour lessons alternate days	4.50
Music Practice—an hour daily	1.00
Elocution	4.50
Art	4.50

BOARD PER MONTH (CLUB PLAN)

Dormitories, all time boarders (estimated)	15.00
Dormitories, five-day boarders (estimated)	13.00

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

Terms

Tuition is payable monthly in advance. No deduction is made for absence except in cases of protracted illness or other providential hindrance.

Board is payable at the beginning of each school month of 28 days with no deduction for less than twelve meals missed in succession.

Pupils from Wake County, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Base Ball Team

Pupils rooming in the dormitory must furnish the following: A pair of sheets, a pair of blankets or quilts, pillow cases, towels and toilet articles such as comb, brush, soap, and matches. Boys furnish pillows also.

The rates for room include fuel and lights.

Those desiring rooms reserved in the dormitories must deposit with the Superintendent $1.00 to show good faith. This amount will be deducted from first month's rent. Rooms, however, will not be held longer than September 2, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

Miscellaneous

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principals in charge of the dormitories.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

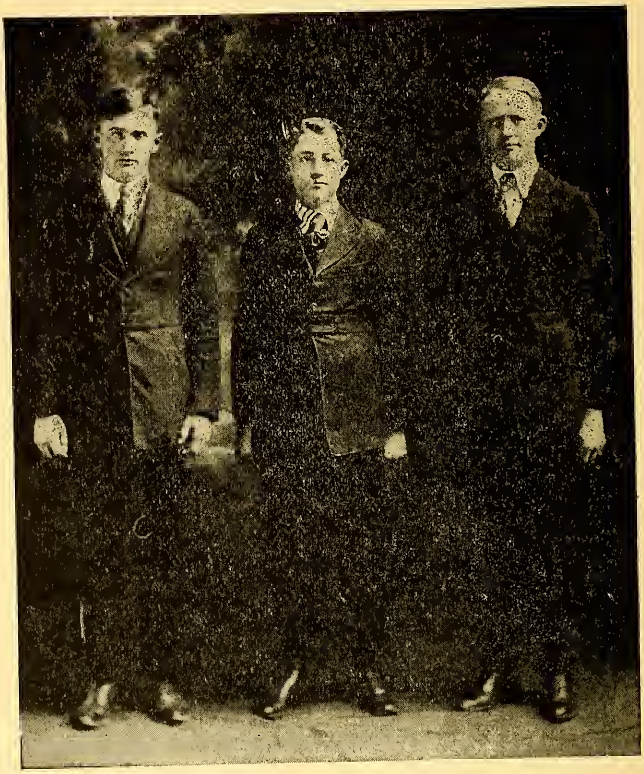
No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Do not request that books be charged, but furnish pupils with about $6.00 to cover cost of books.

Special Notes

Last session 230 high school pupils were enrolled. There were 185 boarders from 14 counties. The graduating class numbered 34.



Judging Team

The dormitory for girls is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs. One of the rooms is used as an infirmary.

The new brick dormitory for boys will have the same conveniences as the girls' dormitory.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on the campus (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage and scenery. (8) Laboratories with individual desks, running water, etc. (9) Dormitories both for boys and girls—both handsome brick structures, with steam heat, baths, etc. (10) A school farm with buildings and equipment for demonstrating the principles of agriculture, dairying, stock raising, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students. (13) An ample force of trained teachers to do the work of the school.

Student Government

The school took an advanced step last year, under the leadership of Miss Killingsworth, the Lady Principal, by organizing the students in the high school into a self-governing body with its four units corresponding to the states in our federal system, each electing a council quarterly with a member of the faculty as adviser, and all the officers of the four units together constituting a general council with a president and other officers elected by the members of the general council.

The school was also organized in a somewhat similar manner into a general athletic association, the units of division in this case being the four classes or grades in the high school, whereas in the organization for pupil self-government the uniits were the local boys, local girls, boarding boys and boarding girls.

These plans of organization were so effective last session in developing and maintaining school spirit and discipline that they will be continued for next session.

Cary High School Creed or Code of Honor

(*Adopted from the laws of the Boy Scouts of America.*)

1. The Cary High School students are Trustworthy. Their honor is to be trusted. If they were to violate their honor by telling a lie, or by cheating, or not doing exactly a task given, when trusted on their honor, they are not C. H. S. students.

2. The Cary students are Loyal. They are loyal to all to whom loyalty is due—their teachers, their home, their parents, their country.

3. The Cary students are Helpful. They are ready to help persons in need at any time; to share duties of home and school. Each one does good turn to somebody every day.

4. The Cary students are Friendly. Each is a friend to all.

5. The Cary students are Courteous and Respectful. They are always polite to women, children, older people, and the weak. They are obedient to parents, teachers, and all other duly constituted authorities.

6. The Cary students are cheerful. They smile whenever they can. They enjoy fun and play. Their obedience to orders is prompt and cheerful. The harder the task the gladder their hearts!

7. The Cary students are Thrifty. They do not destroy property. They work faithfully, waste nothing. They make the best use of opportunities. They do not spend their money foolishly.

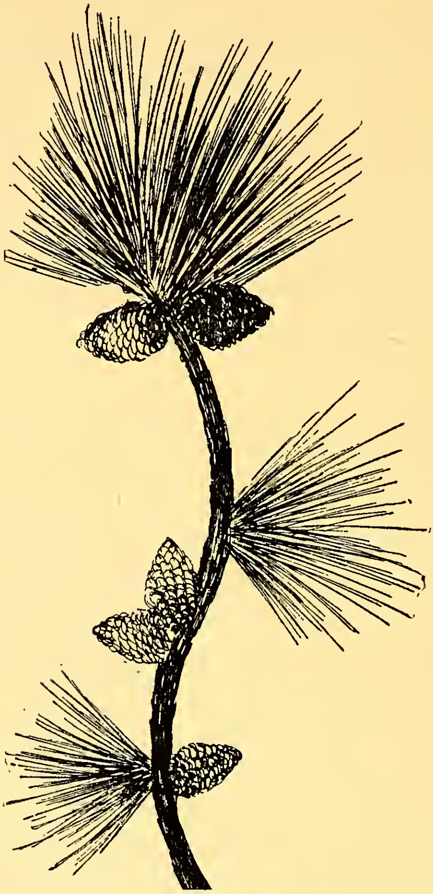
8. The Cary students are Brave. They have the courage to face danger in spite of fear. They stand up for what is right even if coaxed by friends or jeered at by opponents. Defeat does not down any student.

9. The Cary students are Clean. Each keeps clean in body and thought, stands for clean speech, clean sport, clean habits, and goes with a clean crowd.

Order of The Long-Leaf Pine

The Order of the Long-Leaf Pine is the honor roll of the Cary High School in conduct. The order sets a high standard of excellence in posture, self-control, courtesy, order in the study hall, quiet voices, personal cleanliness. One hundred and seventy-five points are required before one is qualified for the order. The record is taken by quarters. The following is the score card:

	Points
1. Triangular debater	20
2. Y. W. C. A. president	25
3. Y. W. C. A. vice-pres., sec. or treasurer	10
4. Y. M. C. A. president	25
5. Y. M. C. A. vice-pres., sec. or treasurer	10
6. Making one or more class teams	20
7. Making one or more school teams	25
8. Being elected proctor	50
9. Being elected officer of literary society	15
10. Being elected commencement debater	25
11. Commencement declaimer or reciter	20
12. Getting exempt from one examination	10



13. Getting exempt from all examinations	50
14. Composing a school song or cheer which is adopted by the school	20
15. General good behavior	50
16. An average grade of not less than 80 on the health score card	50
17. Being prompt at all meals	15
18. Offering the best suggestion which is adopted by the school	20

The High School Annual

Each year the Senior Class publishes a book, the title of which is the "Chiste," which contains the individual pictures of the class, group pictures of the lower classes, the faculty, the societies and various other organizations of the school. Besides these there are pictures of the buildings and grounds, various and sundry school activities, cartoons, etc. It also contains the class will, the class prophecy, history, poem and many original jokes, puns, etc. It is a publication usually well edited, and beautifully printed and bound, and is highly prized by the pupils teachers and patrons. This publication costs $2.50 per copy.

Since the names of the high school pupils by classes are printed in the Annual they are omitted from this catalogue.

C. H. S. Echoes

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 40c. a year or 10c. a copy. The title of the paper is "C. H. S. Echoes." The present catalogue is the free midsummer number of "C. H. S. Echoes." Hereafter the Apriil number will be a special edition of "C. H. S. Echoes" in book form, and will sell for a reasonable price.

Cary Public High School
and
Farm Life School

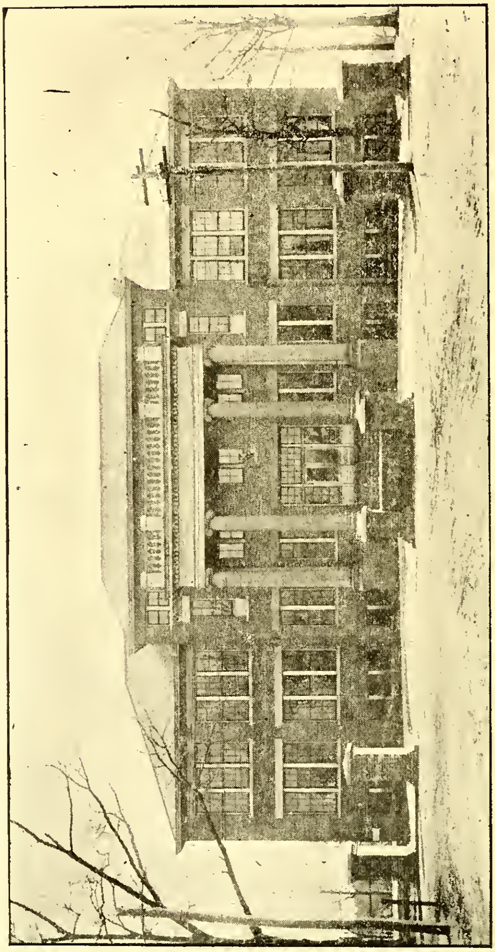
History

The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the wise management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent, was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments con-



Main Builliding

stantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

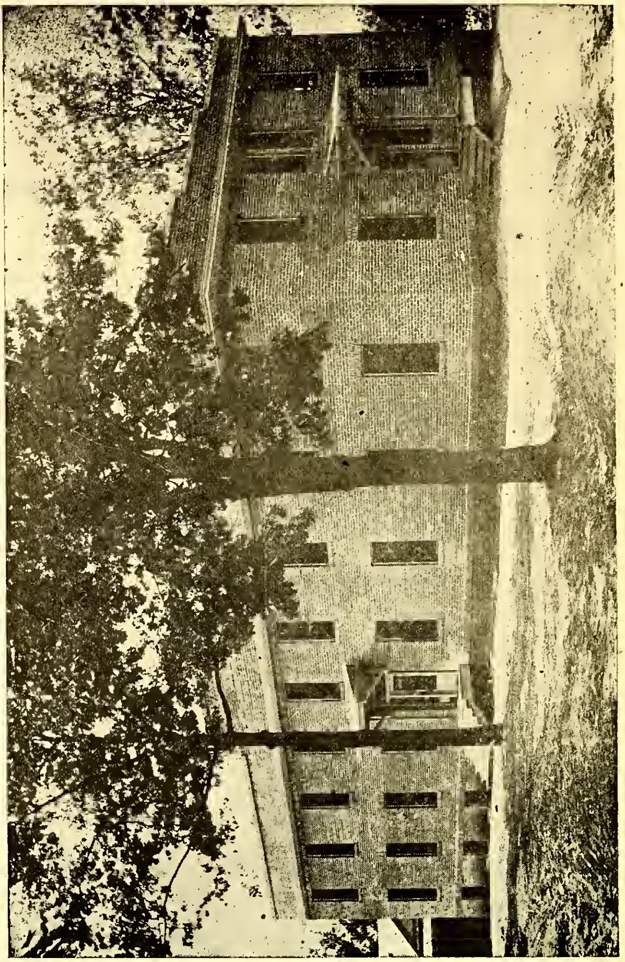
The old two-story wooden building which the school had outgrown was replaced in 1913 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $11,000. The building is provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a mordern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building is provided with steam heat, electric lights, single beds, shower baths, etc.

Entrance Requirements

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teacher showing work that has been done. Blanks for this purpose will be furnished on application. Entrance examinations will be held on at least two subjects, English and Mathematics, for those wishing to enter classes above the Freshman.

Courses of Study

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French Agriculture, Home Economics, Music, Expression, Art, Typewriting and Stenography. To receive a diploma of graduation one must have completed one of the following courses:



Girls Dormitory

History—American History (Muzzey).

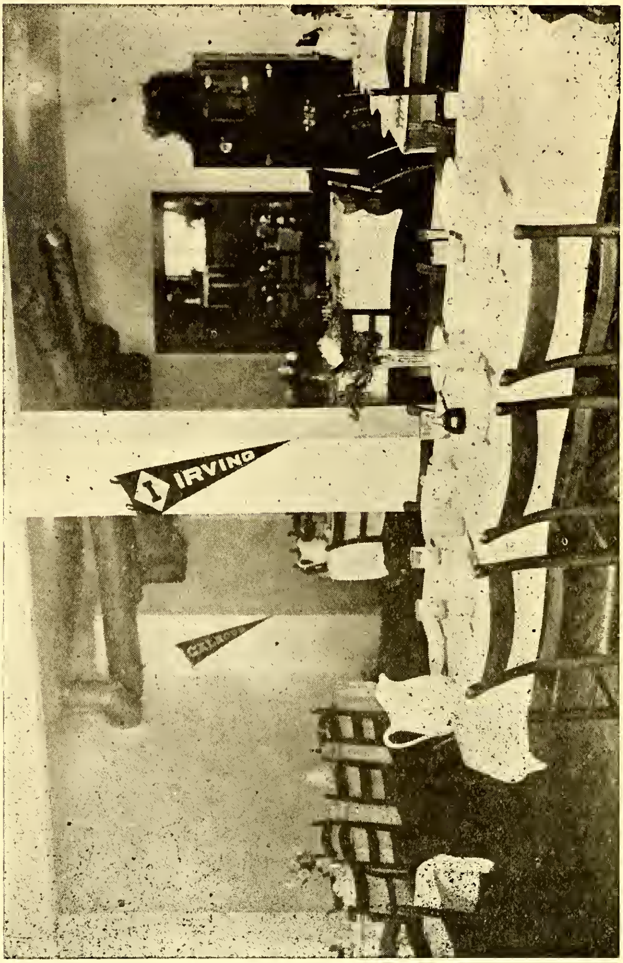
Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks).

The school offers a two year course in Domestic Art and Science, for which high school credit is given. A special Home Economics diploma is granted students who complete the course.

The course in Agriculture covers four years, and prepares the



East Dining Room

student to enter the A. and E. College. A special diploma in Agriculture is given to students completing this course.

The outline of courses in Home Economics and Agriculture may be had on application.

The course of study for the Elementary School is not outlined here since it is identical with that outlined by the State Department of Education and can be had in bulletin form.

Our Equipment for Vocational Training

In the basement of the Girl's Dormitory are two rooms, a dinning room and kitchen used at present as a laboratory for the cooking department ofthe school. This department is provided with running water, sinks, domestic science desks, oil and wood ranges, oil stoves and the most approved cooking utensils.

The sewing room at present is on the first floor of the main building and is provided with sewing tables, chairs, sewing machines, dressing mirror, etc.

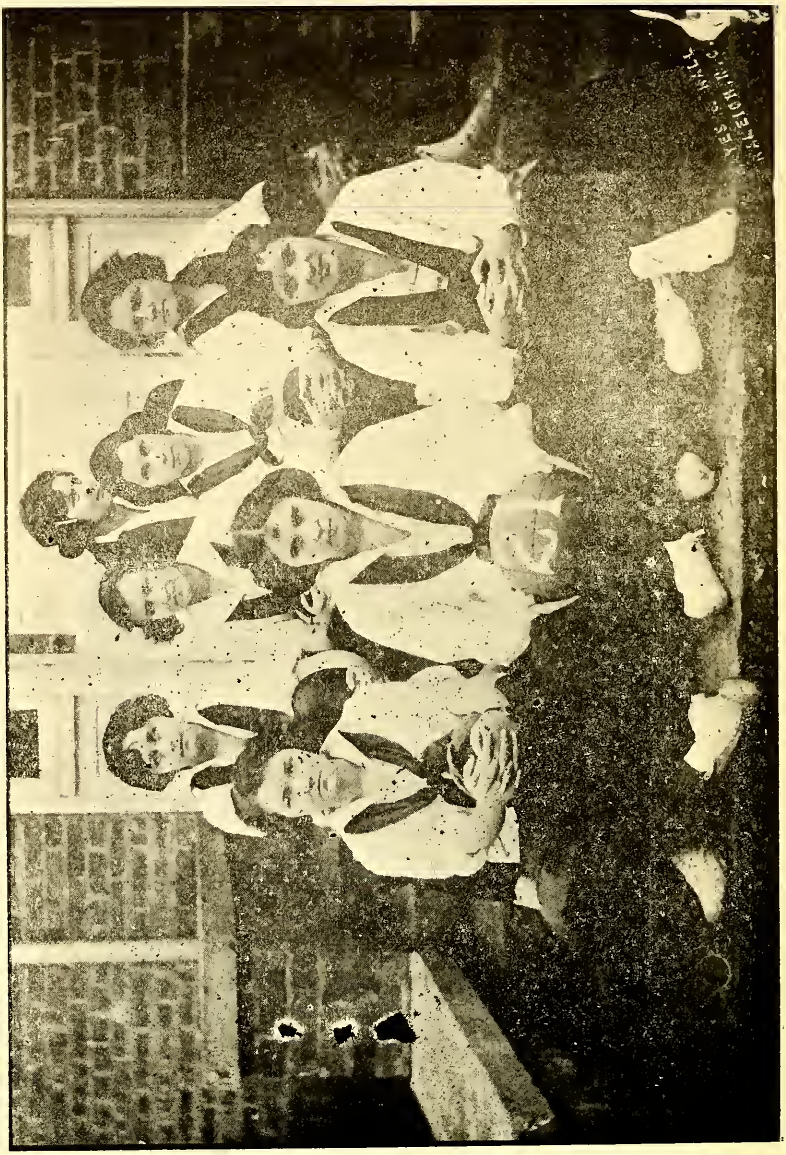
For the boys, rooms in the main building are equipped with individual desks of special design, cream separator, Babcock testers, incubators, etc.

Besides these there are also laboratories with individual desks, running water, etc., where systematic work is done in illustrating the principals of Physics, Chemistry, Botany and Agriculture. A large cannery is located on the school grounds and is operated during the summer and fall months, canning the fruits and vegetables grown in the community.

At present the school receives an appropriation from the Federal Government under the Smith-Hughes Act of Congress, which requires that each pupil taking the Agricultural course shall have a "project" either on the school farm or preferably at his home, this "project" to be closely supervised by the Agricultural teachers.

New Vocational Building

In May, 1920, the Cary School District voted a bond issue for the erection of a building to be used chiefly by the departments



Girls' Basket Ball Team

of Agriculture and Home Economics. The building will be of brick and will contain a gymnasium, science laboratories, agricultural rooms, and rooms for cooking and sewing. A separate building will be erected for a wood shop and forge. These buildings will probably be completed by the opening of the spring term.

Literary Societies

The school has four well organized literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former member of the school gives annually a medal to the member of the boy's societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best debater in the girls' societies on the occasion of Commencement.

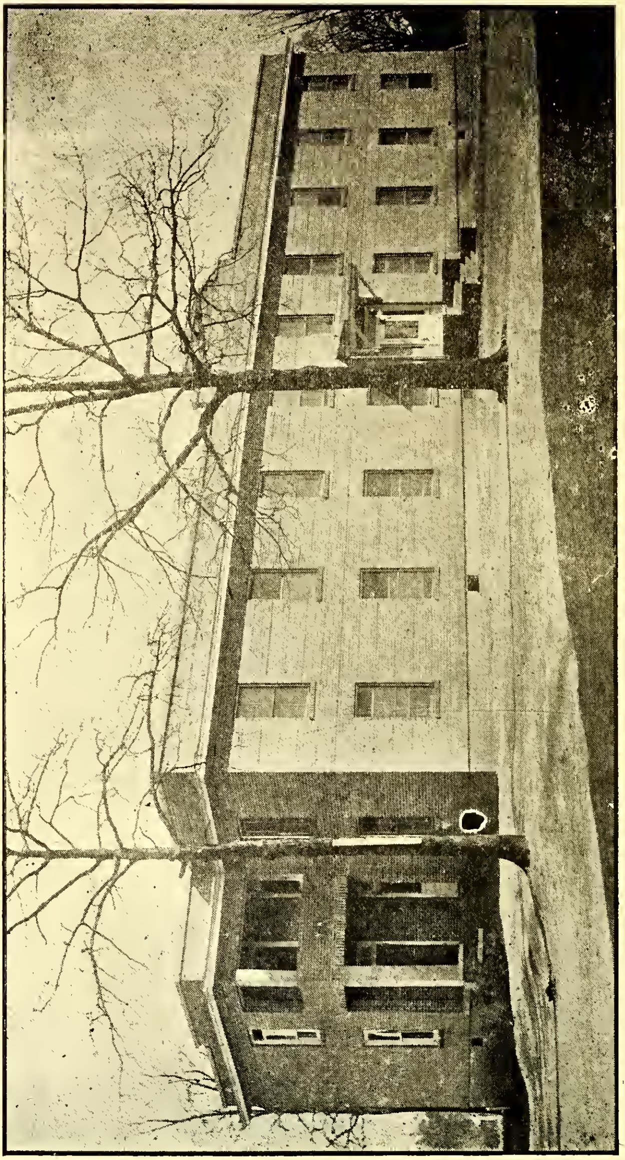
The boy's societies also give a debater's medal for the best debater at Commencement.

Medals and Prizes

The following medals are offered annually: Best debater in Clay and Calhoun Societies, best debater in Irving and Lowell Societies, most improvement in each of the societies, highest scholarship, best oration, best declamation, best recitation. The scholarship medal is given by the Superintendent the orator's medal by Mr. H. P. Smith, a former graduate of the school, and the medal for best debater in Irving and Lowell Societies by Miss Lillian Killingsworth, former Lady Principal of the school.

Atheletics

Beleiving strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the



Boys' Dormitory

school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus one for the larger boys and another for the children and girls, are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

Examinations and Reports

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

Expenses

Tuition per Month

Primary Grades	$ 3.00
Grammar Grades	4.00

Stenography	4.00

BOARD PER MONTH

Dormitories, all time boarders	14.00
Dormitories, five-day boarders	12.00

HAYES & WALL
RALEIGH, N.C.

Boys' Base Ball Team

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

Terms

Tuition is payable monthly in advance. No deduction is made for absence except in cases of protracted illness or other providential hindrance.

Board is payable at the beginning of each school month of 28 days with no deduction for less than a week's absence.

Pupils from Wake County outside of Raleigh township, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Society Fee	Per Month	25c.
Athletic Fee for Boys	Per Month	25c.
Athletic Fee for Girls	Per Month	15c.
Medicine Fee for Girls	Per Term	25c.
Current Events	Per Term	20c.

Each pupil in the dormitory should bring the following: two white counterpanes,(4) sheets, (3) pillow cases, blankets or quilts, (1) glass, (1) knife, fork and spoon, covers for dresser, washstand and table, curtains for windows (if desired), towels, comb, brush, soap. Boys will bring pillows also.

The rates for room include fuel and lights.

Those desiring rooms reserved in the dormitories must deposit with the Superintendent $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 2, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

Make all checks to Cary High School, or W. B. Womble, Treasurer.

Boys' Basket Ball Team

Miscellaneous

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Do not request that books be charged, but furnish pupils with about $6.00 to cover cost of books.

Special Notes

Last session 302 high school pupils and 235 in the elemetary school making a total enrollment of 537. There were 212 boarders from 19 counties. The graduating class numbered 39.

The dormitory for girls is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs.

The new brick dormitory for boys has practically the same conveniences as the girls' dormitory.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on campus (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets,etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage and scenery. (8) Laboratories with individual desks, runnig water, etc. (9) Dormitories both for boys and girls—both handsome brick structures, with steam heat, baths, etc. (10) A school farm with buildings and equipment for demonstrating the priciples of Agriculture, dairying, stock raising, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students. (13) An ample force of trained teachers to do the work of the school.

C. H. S. Echoes

The Senior Class publishes monthly during the school year a school paper of enterest to the former pupils, and to the patrons and friends of the school. The subscription price is 40c. a year or 10c. a copy. The title of the paper is "C. H. S. Echoes." Thepresent catalogue is the free midsummer number of "C. H. S. Echoes." The April number is a special edition of "C. H. S. Echoes" in book form, and sells for $1.00.

CARY PUBLIC HIGH SCHOOL
—*and*—
FARM LIFE SCHOOL

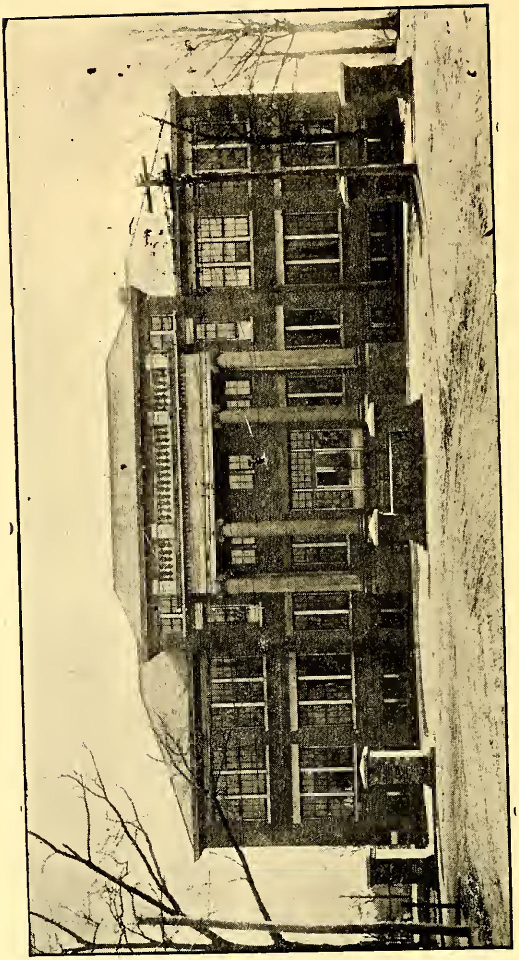
HISTORY

The Cary Public High School and Farm Life School is an outgrowth of the old Cary High School which had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the legislature, providing for farm life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent, was elected as his successor.



MAIN BUILDING

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

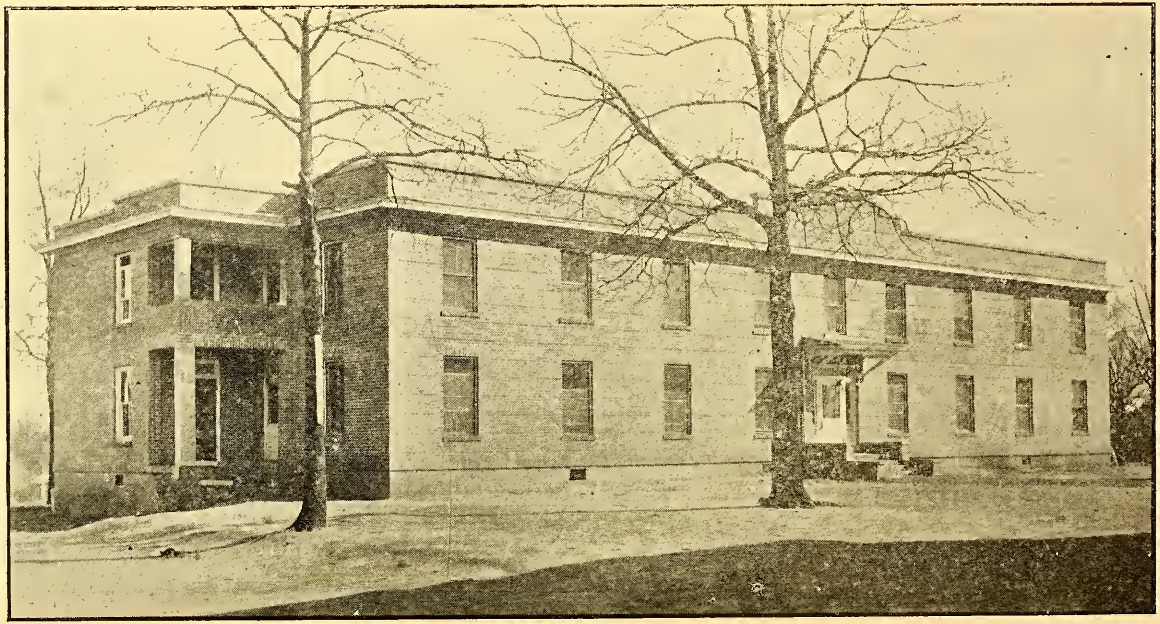
The old two-story wooden building which the school had outgrown was replaced in 1913 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $11,000. The building is provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building is provided with steam heat, electric lights, single beds, shower baths, etc.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done. Blanks for this purpose will be furnished upon application. Entrance examinations will be held on at least two subjects, English and Mathematics, for those wishing to enter classes above the Freshman.

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression, Art, Typewriting and Stenography.



BOYS' DORMITORY

DIPLOMAS OF GRADUATION

To receive a diploma of graduation in the academic department, a pupil must have completed the following work:

ACADEMIC COURSE

(15½ units)

FIRST YEAR
- English
- Arithmetic
- Algebra
- Latin
- Civics
- General Science

SECOND YEAR
- English
- Arithmetic
- Algebra
- Latin
- History
- Biology

THIRD YEAR
- English
- Algebra
- Latin
- French
- History
- Chemistry

FOURTH YEAR
- English
- Geometry
- History
- Physics
- Civics
- French or Latin

To receive a diploma in Agriculture, a pupil must have completed the following:

AGRICULTURAL COURSE

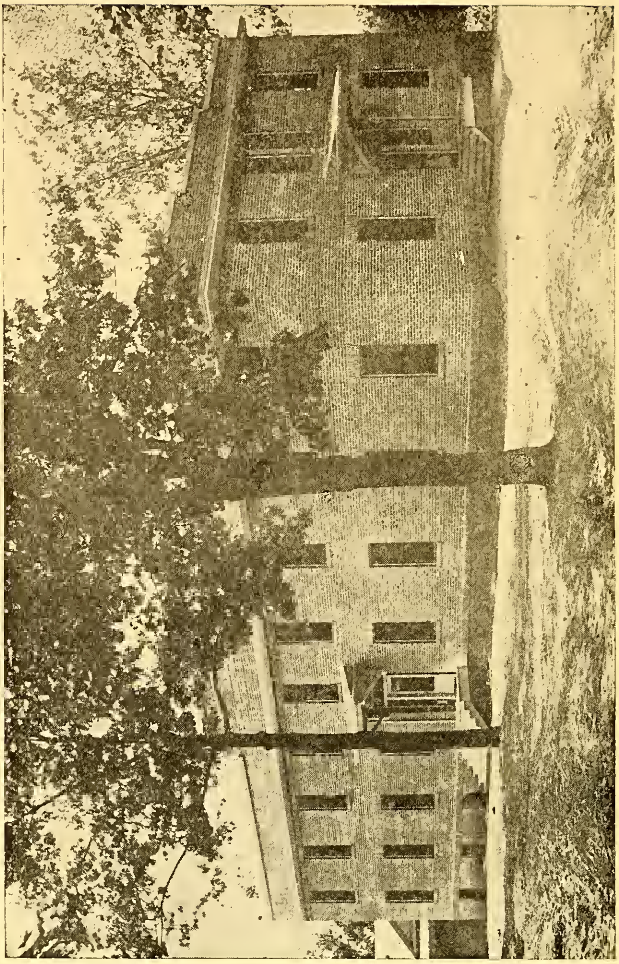
(15 units)

FIRST YEAR
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Crops and Soils

SECOND YEAR
- English
- Arithmetic
- Algebra
- Biology
- History
- Animal Husbandry

THIRD YEAR
- English
- History
- Chemistry
- Algebra
- Horticulture
- Farm Mechanics

FOURTH YEAR
- English
- Economics
- Physics
- Geometry
- Civics
- Farm Management
- Farm Engineering
- Farm Accounting



GIRLS' DORMITORY

To receive a diploma in Home Economics, one must have completed the following:

Home Economics Course

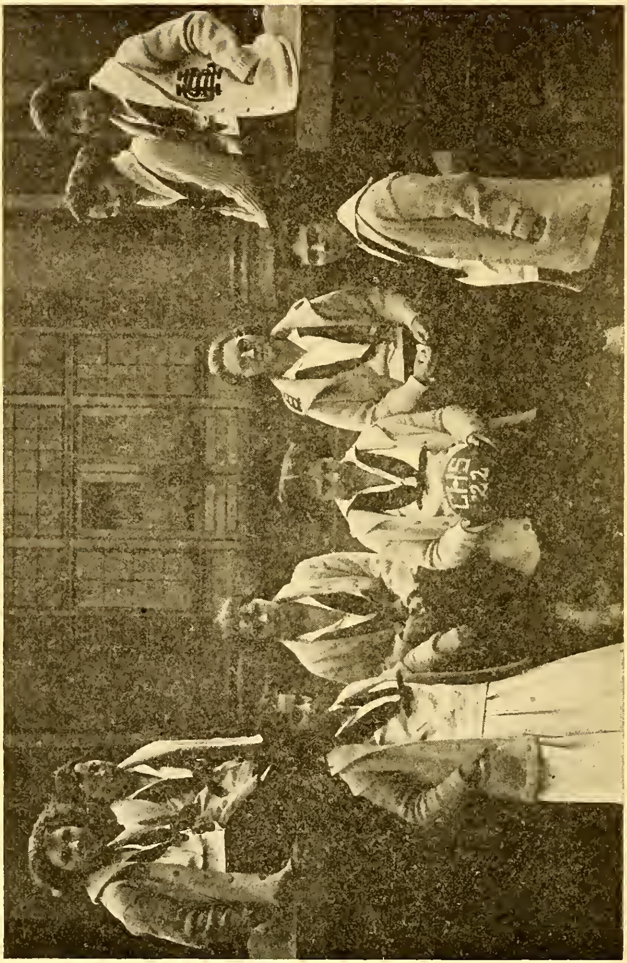
(15 units)

First Year
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Home Economics

Second Year
- English
- Arithmetic
- Algebra
- Biology
- History
- Home Economics

Third Year
- English
- History
- Chemistry
- Algebra
- Latin
- French

Fourth Year
- English
- Civics
- Physics
- French
- Geometry
- Latin



GIRLS' BASKETBALL TEAM

CERTIFICATES OF GRADUATION

To receive a certificate of graduation in the agricultural department a pupil may make the following eliminations from the agricultural course outlined above: Geometry, third year algebra, and one year of history.

To receive a certificate of graduation in home economics, one may eliminate the following from the home economics course: Latin, French, Geometry, third year algebra.

To receive a certificate of graduation in the academic department, a pupil may substitute a year in music or typewriting and stenography, or expression for a year in Latin, mathematics, History or Science.

As all standard colleges now require fifteen units of high school work for entrance, only pupils who do not expect to go to college or who contemplate entering non-standard institutions should take courses leading to certificates of graduation. All are urged to take one of the complete courses leading to diplomas.

BASKETBALL TEAM

OUTLINE COURSE OF STUDY

First Year

English—Spelling (Williams, Griffin and Chase).

English Texts—Ward's Sentence and Theme. Selections to be studied in class: *As You Like It* (Shakespeare); *A Christmas Carol* (Dickens); *Treasure Island* (Stevenson); *Short Stories* (Smith).

Parallel Reading—10 credits required: *The Lay of the Last Minstrel,* 1; *The Talisman,* 2 (Scott); *Lays of Ancient Rome,* 2 (Macaulay); *Rebecca of Sunnybrook Farm,* 1 (Wiggin); *The Call of the Wild* 1, (London); *Robinson Crusoe,* 2 (DeFoe); *Uncle Remus Stories,* 1 (Harris); *Little Men* or *Little Women,* 2 (Alcott); *The Story of the Other Wise Man,* 2 (Van Dyke); *Kidnapped,* 2 (Stevenson); *The Old Curiosity Shop,* 3 (Dickens).

Mathematics—*New High School Arithmetic* (Wells and Hart) Through chapter VI; *Complete Algebra* (Slaught and Lennes) Through chapter XI.

Latin—*First Year Latin* (Collar and Daniell) through chapter XLIX.

Science—*General Science* (Caldwell and Eikenberry).

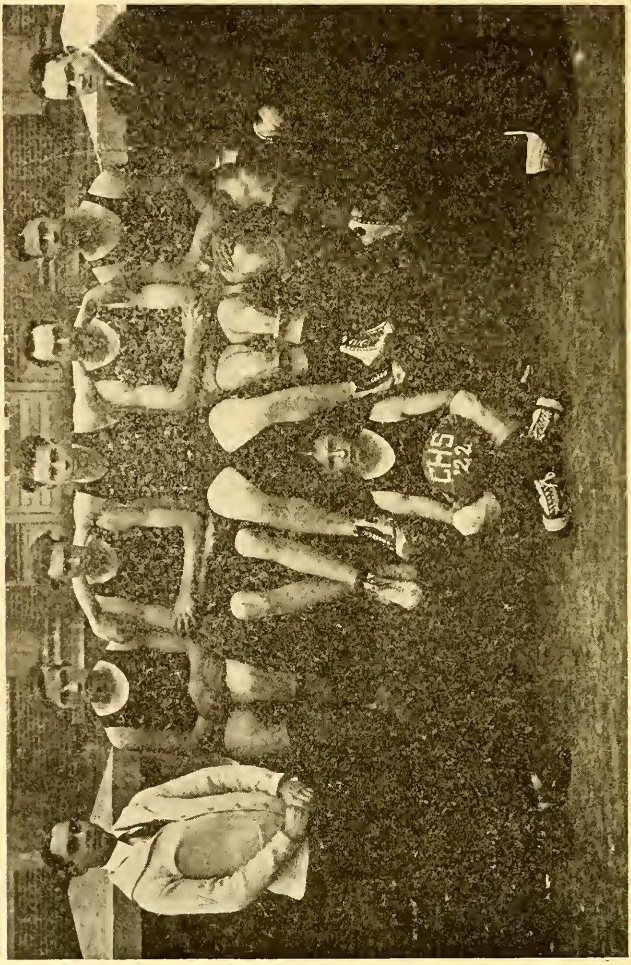
Civics—*Community Civics* (Hughes).

Second Year

English—*Spelling* (Williams, Griffin and Chase).

English Texts—*Practical English* (Lewis and Hosic). Selections to be studied in class: *The Merchant of Venice* (Shakespeare); *Ivanhoe,* (Scott); *Snowbound* and other Poems, (Whittier); *Selected stories from magazines; Sohrab and Rustum* (Arnold).

Parallel Reading—12 credits required: *The Lady of the Lake,* 2 (Scott); *Herve Reil and John Gilpin,* 1 (Browning,



BOYS' BASKETBALL TEAM

Cowper); *The Last of Mohicans,* 2 (Cooper); Tom Brown's *School Days,* 3 (Hughes); *Iliad of Homer,* 3 (Pope); *The Cloister and the Hearth,* 2 (Reade) *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale) *The DeCoverley Papers,* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *One of Shakespeare's Plays not Previously read,* 2.

Mathematics—New High School Arithmetic (Wells and Hart) Completed.

Complete Algebra, (Slaught and Lennes) Through chapter XXII.

Latin—First Year Latin (Collar and Daniell) Completed; *Caesar, Book II,* (D'Ooge and Eastman).

History—History of Europe, Ancient and Mediaeval (Robinson and Breasted).

Science—Civic Biology (Hunter).

Third Year

English—Spelling (Sandwick and Bacon).

English Texts—Written and Spoken English (Clippinger); *American Literature* (Long). Selections to be studied in class: *Julius Caesar* (Shakespeare); *The Vision of Sir Launfal* (Lowell); *Idylls of the King* (Tennyson); or *Silas Marner* (Eliot). Selections from *Poe, Irving, Hawthorne, Emerson* and *O. Henry.*

Parallel Reading: 15 credits required: *The Marble Faun,* 3 (Hawthorne), one Play of Shakespeare's not previously read, 2; *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2 *Surry of Eagle's Nest,* 2 (Cooke); *Aeneid,* 2 (Harrison); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Rock* or *In Ole Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *The Lady or the Tiger,* 1 (Stockton); *Poems and Tales,* 3 (Poe).

Mathematics—Complete Algebra (Slaught and Lennes), Completed.

CARPENTER SHOP

Latin—Caesar in Gaul (D'Ooge and Eastman), Four Books. *Cicero's Orations* (Gunnison and Harley), *Four orations against Catiline.*

History—Outlines of European History (Robinson and Beard), Part II.

Science—Chemistry of Common Things (Brownlee and others).

FOURTH YEAR

English—Spelling (Sandwick and Bacon).

English Texts—Handbook of Composition (Woolley); *English Literature* (Long). Selections to be studied in class: *Macbeth* (Shakespeare); *Essay on Burns* (Carlyle); *the Conciliation* (Burke); *Milton's Minor Poems and other Selections from Golden Treasury* (Palgrave); *Review of Grammar.*

Parallel Reading—20 credits required: *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); *Pride and Prejudice,* 3 (Austen); *Sesame and Lilies,* 3 (Ruskin); *Essays of Elia,* 2 (Lamb); *A play of Shakespeare not previously read, 2. Selections from Browning, Thomas, Shelley, Keats, and Whitman,* 1 each. *Selections from Modern Drama, Poetry, and Essays,* 1 each. *Term Essay,* 3.

N. B. Credit will be given for all reading over and above the minimum in each class.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—Virgil (Bennett), Four Books.

History—American History (Muzzey).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks).

The courses of study for the Elementary School and Farm Life School are not outlined here since they are issued by the State Department of Education and can be had in bulletin form.

SEWING ROOM

OUR EQUIPMENT FOR VOCATIONAL TRAINING

In the basement of the Girls' Dormitory are two rooms, a dining room and kitchen used at present as a laboratory for the cooking department of the school This department is provided with running water, sinks, domestic science desks, oil and wood ranges, oil stoves and the most approved cooking utensils.

The sewing room at present is on the first floor of the main building and is provided with sewing tables, chairs, sewing machines, dressing mirror, etc.

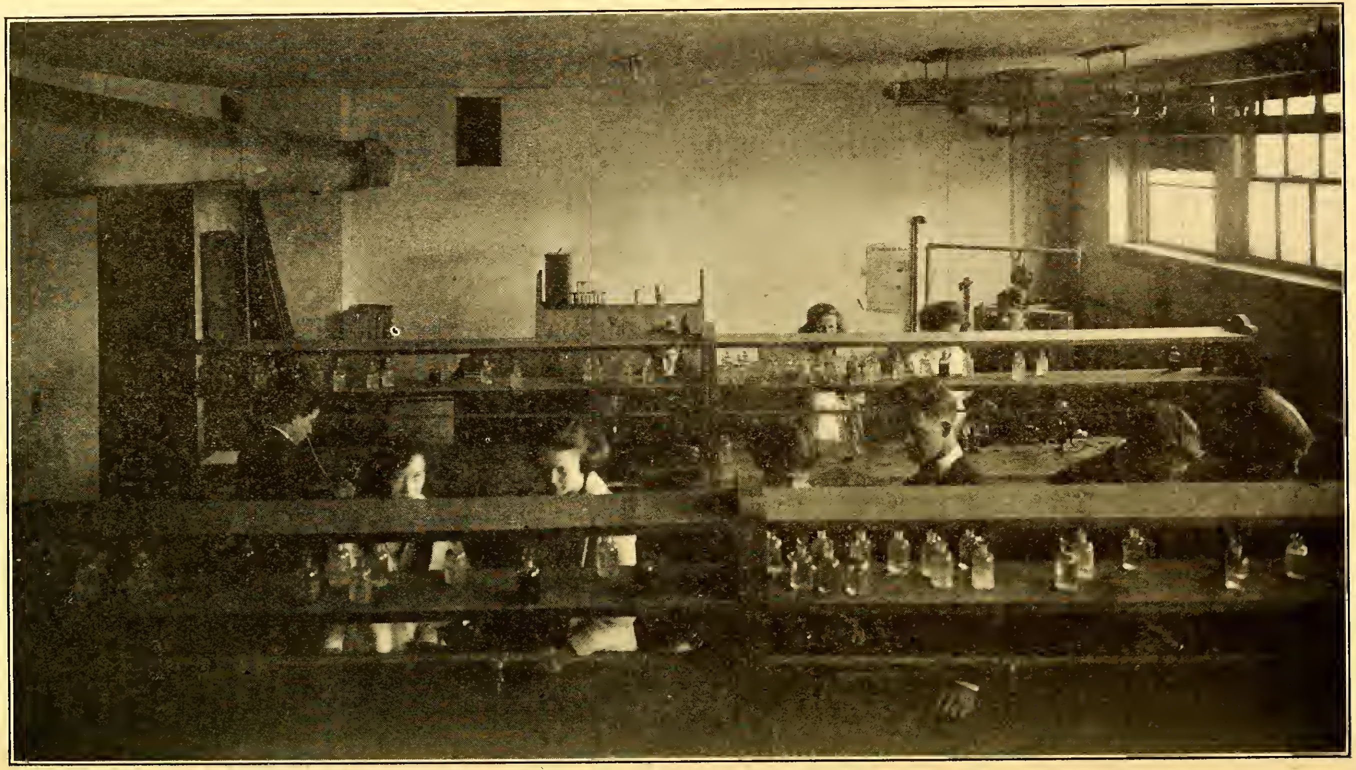
For the boys, rooms in the main building are equipped with individual desks of special design, cream separator, Babcock testers, incubators, etc.

Besides these there are also laboratories with individual desks, running water, etc., where systematic work is done in illustrating the principles of Physics, Chemistry, Botany and Agriculture.

At present the school receives an appropriation from the Federal Government under the Smith-Hughes Act of Congress, which requires that each pupil taking the Agricultural course shall have a "project" either on the school farm or preferably at his home, this "project" to be closely supervised by the Agricultural teachers.

NEW VOCATIONAL BUILDING

In May, 1920, the Cary School District voted a bond issue for the erection of a building to be used chiefly by the departments of Agriculture and Home Economics, but owing to unavoidable circumstances the work has been delayed. It is hoped that the building will be under way before the session opens. The building will be of brick and will contain a gymnasium, science laboratories, agricultural rooms and rooms for cooking and sewing. A separate building has been erected for a wood shop and forge.



PHYSICAL AND CHEMICAL LABORATORY

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former member of the school gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best debater in the girls' societies on the occasion of Commencement. The boys' societies also give a debater's medal to the best debater at Commencement.

SCHOLARSHIP MEDAL

Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to compete for this medal.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports for every sort of child from the little tot up to those who have already passed out of their teens. A baseball diamond, two basketball courts, one for boys and one for girls, three tennis courts, two groups of playground apparatus, one for the larger boys and another for the children and girls, are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

CUP WON AT STATE FAIR

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

EXPENSES

TUITION PER MONTH

Primary Grades	$ 3.00
Grammar Grades	4.00
Freshman and Sophomore Years	5.00
Junior and Senior Years	6.00
Piano—half-hour lessons alternate days	4.00
Piano Practice—an hour daily	1.00
Violin—half-hour lessons alternate days	5.00
Elocution	4.00
Art	4.00
Typewriting	4.00
Stenography and Typewriting	6.00
Band Music	3.00

BOARD PER MONTH

Dormitories, all time boarders	15.00
Dormitories, five-day boarders	13.00

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

TERMS

Tuition is payable monthly in advance. No deduction is made for absence except in cases of protracted illness or other providential hindrance.

Board is payable at the beginning of each school month of 28 days with no deduction for less than a week's absence.

Pupils from Wake County outside of Raleigh township, ministerial students, and teachers in the public schools are allowed free tuition in the high school department.

Society Fee	Per Month 25c.
Athletic Fee for Boys	Per Month 25c.
Athletic Fee for Girls	Per Month 15c.
Medicine Fee for Girls	Per Term 25c.
Current Events	Per Term 15c.

Each pupil in the dormitory should bring the following: two white counterpanes, (4) sheets, (3) pillow cases, blankets or quilts, (1) glass, (1) knife, fork and spoon, covers for dresser, washstand and table, curtains for windows (if desired), towels, comb, brush, soap. Boys will bring pillows also.

The rates for room include fuel and lights.

Those desiring rooms reserved in the dormitories must deposit with the Business Manager $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 2, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

THE BOARDING DEPARTMENT

The school is fortunate in having ample boarding facilities for all the boarding pupils and teachers. In the basement of the main building is a large dining hall capable of seating over two hundred people. Here the pupils are seated in groups of ten at each table with a hostess in charge who sees to it that the rules of table etiquette are observed. From time to time the teacher of domestic science gives a demonstration on table manners. The management of the school believes this to be an important part of an education. Table board is given at actual cost. By buying groceries in large quantities, the price of board has been kept at a very low rate, usually about $15.00 a month.

TEACHER TRAINING DEPARTMENT

Plans are under way for the establishment of a department of teacher training in the school whereby a pupil can get the equivalent of a year of college work toward securing a certificate to teach. According to this plan a pupil who has completed the Junior year of high school work can by taking this course secure an elementary certificate class B without attending summer school or college. A high school graduate by taking the same course can secure an elementary certificate class A. Teachers holding elementary certificates class B can raise them to class A. An outstanding teacher of experience will have charge of this department.

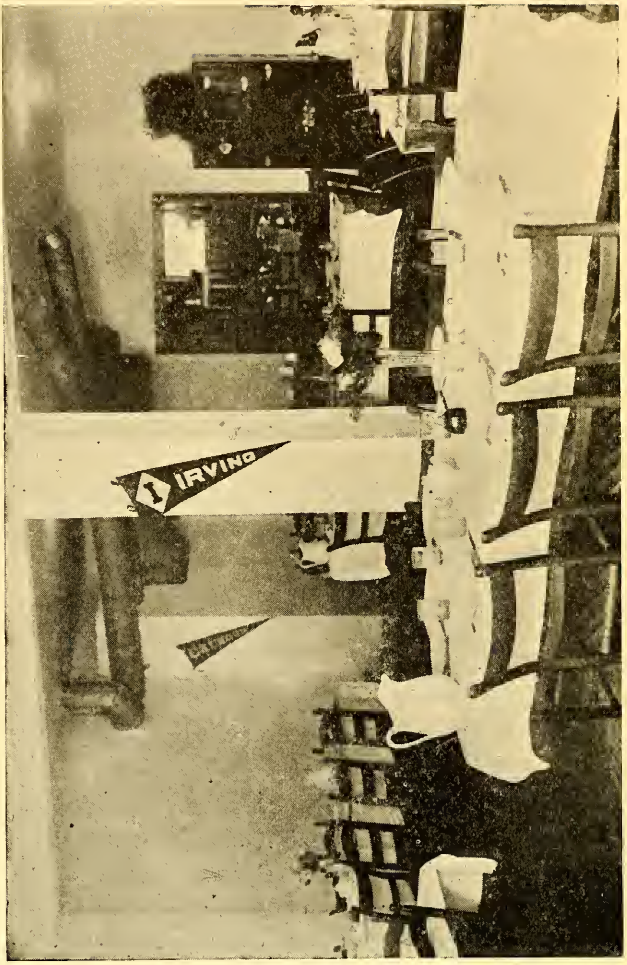
SPECIAL DEPARTMENTS

Last year violin was offered in the school for the first time and about a dozen pupils were enrolled. We are glad to announce that this department will be continued.

The piano department will be under the direction of Miss Elizabeth Lindsay, a graduate in Music of N. C. College for Women and is highly endorsed by Professor Wade R. Brown, Director of Music in that institution. She will be assisted by Mrs. E. N. Meekins, an experienced teacher of piano.

The Cary Band which was organized last year by Mr. R. G. Prince, will be continued this year and Mr. Prince will remain in charge.

Arrangements have been made to have public school music, or sight singing, taught to all the school. Miss Jeannette



SECTION OF DINING HALL

Cox, a graduate of N. C. College for Women, has been employed for this work and she will give her whole time to it. It will be free to all the pupils.

The school last year bought six new Remington typewriters and arrangements will be made whereby pupils can take typewriting and stenography and get credit for these subjects in at least one course offered in the school. Provision will also be made for giving instruction in art and expression, credit for which will also be allowed.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. To be able to use a typewriter or to play in a band is frequently the means of a student's paying his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Do not request that books be charged, but furnish pupils with about $6.00 to cover cost of books.

SPECIAL NOTES

Last session 237 high school pupils were enrolled and 296 in the elementary school making a total enrollment of 533. There were 186 boarders from 14 counties. The graduating class numbered 50. Twenty-four teachers were employed to do the work of the school, of whom seven were men.

The dormitory for girls is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak wash stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs.

The new brick dormitory for boys has practically the same conveniences as the girls' dormitory.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) One of the most substantial high school buildings in the State. (2) An admirable heating and ventilating system. (3) Running water in the buildings. (4) Bored well on campus. (5) Spacious class rooms lighted on one side and provided with cabinets built into the walls. (6) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (7) An auditorium that will seat eight hundred or more, with a gallery and a splendid stage and scenery. (8) Laboratories with individual desks, gas, running water, etc. (9) Dormitories both for boys and girls—both handsome brick structures, with steam heat, baths, etc. (10) A complete playground equipment for the whole school. (11) An unsurpassed domestic science equipment for high school students. (12) An ample force of trained teachers to do the work of the school.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 40c. a year or 10c. a copy. The title of the paper is "C. H. S. Echoes."

GIRLS' DORMITORY

CARY HIGH SCHOOL

FOREWORD

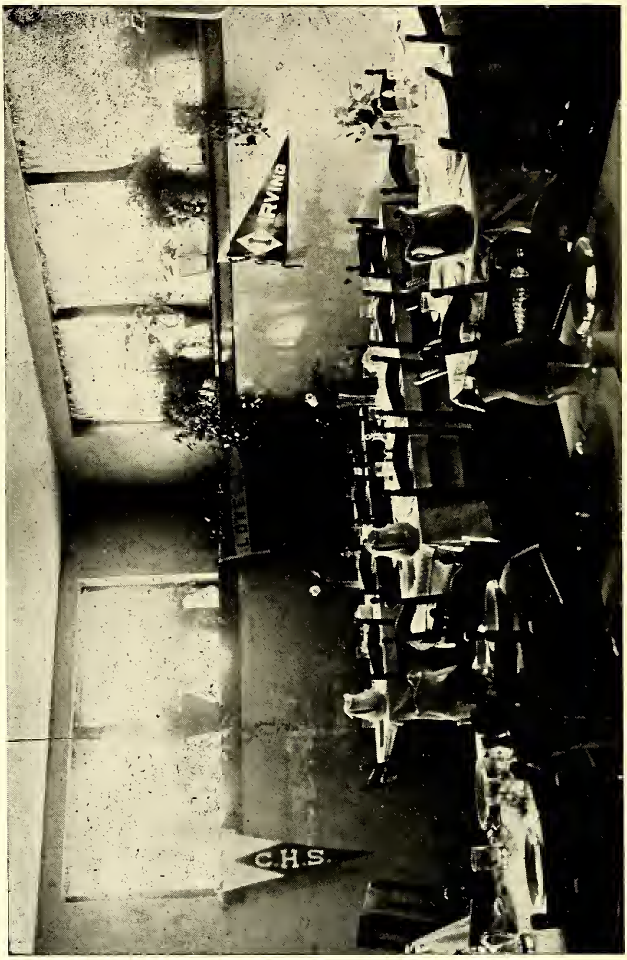
For the twenty-eighth time the Cary High School comes before the public in its annual printed message bidding for a continuance of the patronage which has been so abundantly bestowed upon it in the past.

In all its history the prospects of the school have never been quite so encouraging as now. With another handsome new brick building, costing $45,000, nearing completion; with two large brick dormitories in use, equipped with every modern convenience; with the thirty-three room administration building, also of brick, completed in 1914 and improved from time to time; with a strong faculty of men and women, numbering twenty-five, and each highly trained for his particular work; with new departments added, bringing the school abreast with the best equipped institutions of the country, there is every reason to believe that the coming year will be the best in the school's history.

This catalogue sets forth, as briefly as possible, the entrance requirements, the course of study, the expenses, the special departments, the general features, some miscellaneous matters, and at the back a brief history of the growth and development of the school. Scattered through the book are pictures of the buildings, departments, etc., which speak for themselves.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done. Blanks for this purpose will be furnished upon application.



Corner of Dining Hall

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression, Art, Typewriting, Stenography, Bookkeeping, Teacher-training.

To receive a diploma of graduation in the academic department, a pupil must have completed the following work:

ACADEMIC COURSE

First Year
- English
- Arithmetic
- Algebra
- Latin
- Civics
- General Science

Second Year
- English
- Arithmetic
- Algebra
- Latin
- History
- Biology

Third Year
- English
- Algebra
- Latin
- French
- History
- Chemistry

Fourth Year
- English
- Geometry
- History
- Physics
- Civics
- French or Latin

To receive a diploma in Agriculture, a pupil must have completed the following:

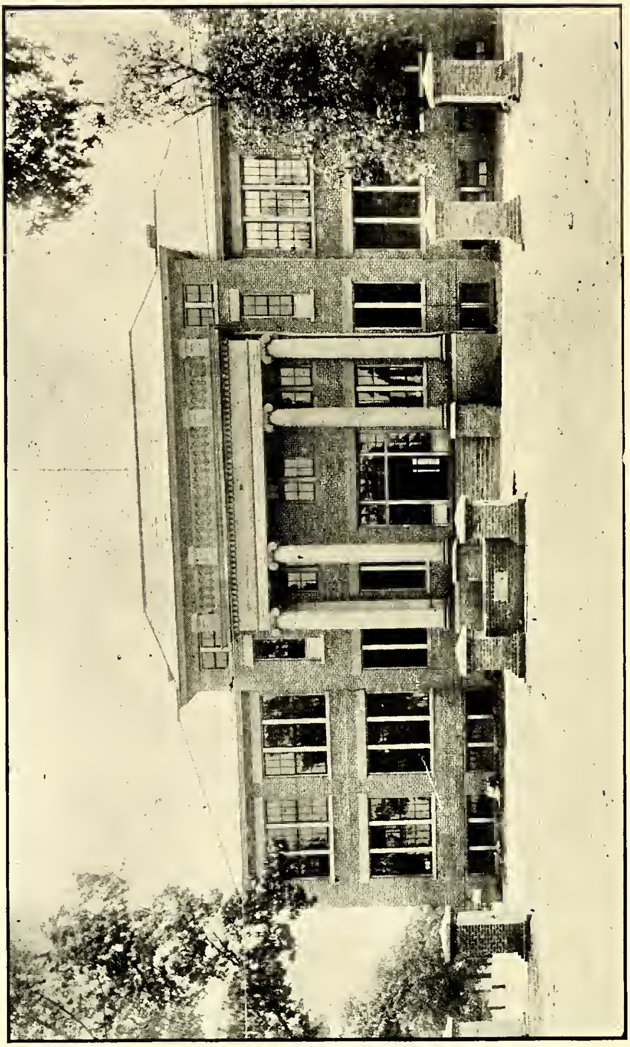
AGRICULTURAL COURSE

First Year
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Crops and Soils

Second Year
- English
- Arithmetic
- Algebra
- Biology
- History
- Animal Husbandry

Third Year
- English
- History
- Chemistry
- Algebra
- Horticulture
- Farm Mechanics

Fourth Year
- English
- Physics
- Geometry
- Civics
- Farm Management
- Farm Engineering



Administration Building

To receive a diploma in Home Economics, one must have completed the following:

HOME ECONOMICS COURSE

First Year
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Home Economics

Second Year
- English
- Arithmetic
- Algebra
- Biology
- History
- Home Economics

Third Year
- English
- History
- Chemistry
- Algebra
- Latin
- French

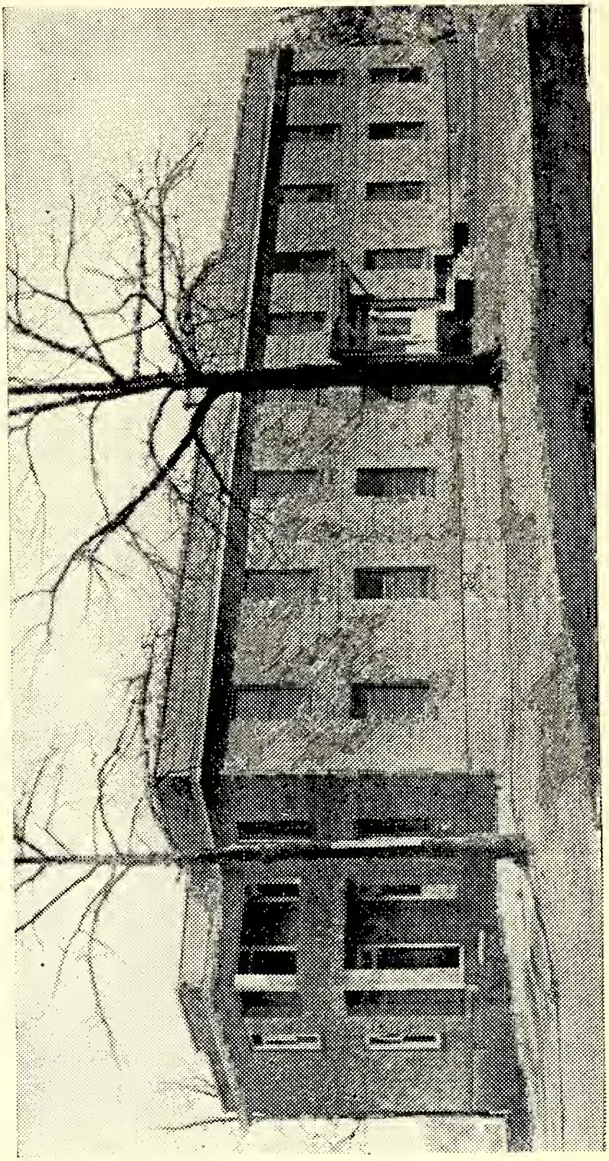
Fourth Year
- English
- Civics
- Physics
- French
- Geometry
- Latin

To receive a certificate of graduation in the agricultural department a pupil may make the following eliminations from the agricultural course outlined above: Geometry, third year algebra, and one year of history.

To receive a certificate of graduation in home economics, one may eliminate the following from the home economics course: Latin, French, geometry, third year algebra.

To receive a certificate of graduation in the academic department, a pupil may substitute a year in music, typewriting, stenography, bookkeeping, or expression, for a year in Latin, mathematics, history, or science.

As all standard colleges now require fifteen units of high school work for entrance, only pupils who do not expect to go to college or who contemplate entering non-standard institutions should take courses leading to certificates of graduation. All are urged to take one of the complete courses leading to diplomas.



Boys' Dormitory

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase).

English Texts—Sentence and Theme (Ward).

English Classics for Study—As You Like It (Shakespeare); *A Christmas Carol* (Dickens); *Treasure Island* (Stevenson).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel,* 1; *The Talisman,* 2 (Scott); *Lays of Ancient Rome,* 2 (Macaulay); *Rebecca of Sunnybrook Farm,* 1 (Wiggin); *The Call of the Wild,* 1 (London); *Robinson Crusoe,* 2 (DeFoe); *Uncle Remus Stories,* 1 (Harris); *Little Men or Little Women,* 2 (Alcott); *The Story of the Other Wise Man,* 2 (Van Dyke); *Kidnapped,* 2 (Stevenson); *The Old Curiosity Shop,* 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart) through chapter VI; *Complete Algebra* (Slaught and Lennes) through chapter XI.

Latin—First Year Latin (Collar and Daniell) through chapter XLIX.

Science—General Science (Caldwell and Eikenberry).

Civics—Community Civics (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

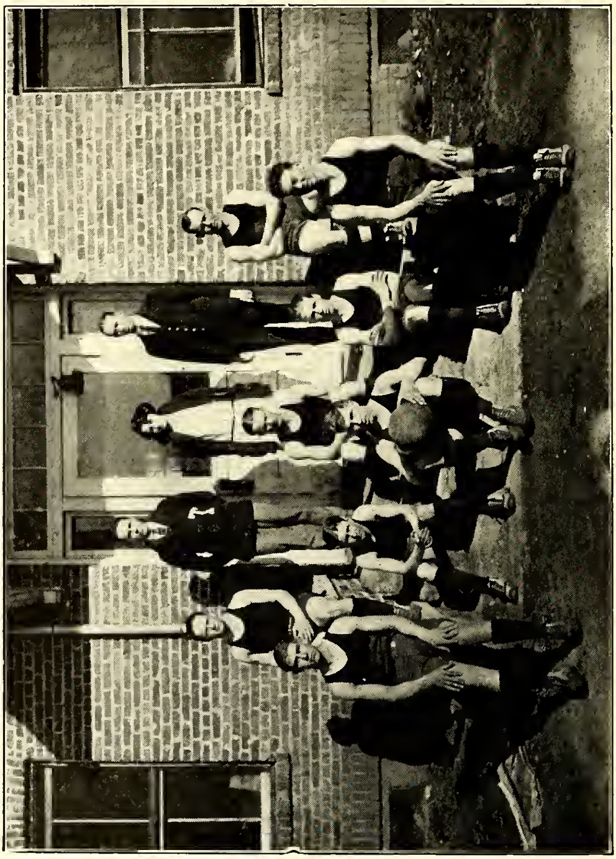
Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase).

English Texts—Practical English (Lewis and Hosic).

English Classics for Study—The Merchant of Venice (Shakespeare); *Ivanhoe* (Scott); *Snowbound and Other Poems* (Whittier).



Boys' Basketball Team

English Classics for Reading—(12 credits required): *The Lady of the Lake,* 2 (Scott); *Herve Reil,* 1 (Browning); *Franklin's Autobiography,* 2; *The Last of the Mohicans,* 2 (Cooper); *Tom Brown's School Days,* 3 (Hughes); *Iliad of Homer,* 3 (Pope); *The Cloister and the Hearth,* 2 (Reade); *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale); *The DeCoverley Papers,* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *The Virginian,* 2 (Wister); *Wild Animals I Have Known,* 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—*New High School Arithmetic* (Wells and Hart) completed; *Complete Algebra* (Slaught and Lennes) through chapter XXII.

Latin—*First Year Latin* (Collar and Daniell) completed; *Cæsar, Book II* (D'Ooge and Eastman).

History—*History of Europe, Ancient and Mediæval* (Robinson and Breasted).

Science—*Civic Biology* (Hunter).

Agriculture—*A Study of Farm Animals* (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—*Dietetics for High School* (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—*High School Word Book* (Sandwick and Bacon).

English Texts—*Written and Spoken English* (Clippinger); *American Literature* (Long).

English Classics for Study—*Julius Cæsar* (Shakespeare); *The Vision of Sir Launfal* (Lowell); *Idylls of the King* (Tennyson). Selections from Poe, Irving, Hawthorne, Emerson, and O. Henry.

English Classics for Reading—(15 credits required): *The Marble Faun,* 3 (Hawthorne); *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2; *Æneid,* 2 (Harrison); *Captains Cour-*

THE BAND

ageous, 2 (Kipling); *Sohrab and Rustum,* 2 (Arnold); *The Oregon Trail,* 2 (Parkman); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Book* or *In Ole Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *Poems and Tales,* 3 (Poe); one Play of Shakespeare not previously read, 2.

Mathematics—Complete Algebra (Slaught and Lennes) completed.

Latin—Cæsar in Gaul (D'Ooge and Eastman), Four Books. *Cicero's Orations* (Gunnison and Harley), *Four orations against Catiline.*

History—Outlines of European History (Robinson and Beard), Part II.

Science—Chemistry of Common Things (Brownlee and others).

French—The New Chardenal French Course (Brooks); *Lectures Faciles* (Bruce); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics.*

FOURTH YEAR

Spelling—High School Word Book (Sandwick and Bacon).

English Texts—Handbook of Composition (Woolley); *English Literature* (Long).

English Classics for Study—Macbeth (Shakespeare); *Essay on Burns* (Carlyle); *Speech on Conciliation* (Burke); Milton's *Minor Poems.*

English Classics for Reading—(20 credits required): *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); Sesame and Lilies, 3 (Ruskin); *The Ancient Mariner,* 2 (Coleridge); *Bunker Hill Oration,* 2 (Webster); *Education and Citizenship,* 2 (Graham); *Lorna Doone,* 2 (Blackmore); *Heart of the West,* 2 (O. Henry); *The Vicar of Wakefield,* 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections

Class in Home Economics

from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—Virgil (Bennett), Four Books.

History—American History (Muzzey).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks); *La France Heroique* (Osgood); *A French Reader* (Aldrich and Foster); *Colomba.*

Agriculture—Farm Management (Warren); *Farm Engineering.* Farm shop work is given throughout the four years to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

EXPENSES

TUITION PER MONTH

Primary Grades	$ 3.00
Grammar Grades	4.00
Freshman and Sophomore Years	5.00
Junior and Senior Years	6.00
Piano	4.00
Piano Practice—an hour daily	1.00
Violin	5.00
Elocution	4.00
Art	4.00
Typewriting	4.00
Stenography and Typewriting	6.00
Bookkeeping	4.00
Band Music	3.00

Girls' Basketball Team

BOARD PER MONTH

Dormitories, all time boarders	15.00
Dormitories, five-day boarders	13.00

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

MINOR DUES PER MONTH

Societies (all)	.25c
Athletics (boys)	.25c
Athletics (girls)	.15c
Medicine Fee (girls in dormitory)	.10c
Current Events (all)	5c

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition determined by the actual cost of instruction per pupil after deducting the county apportionment for six months. This charge, which was made by order of the County Board, applies to all High Schools in the county.

Each pupil in the dormitories should bring the following: Two white counterpanes, four sheets, three pillow cases, two blankets or quilts, one glass, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories must deposit with the Business Manager $1.00 to show good faith.

TEACHER-TRAINING CLASS

This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 1, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

All bills unpaid by June 1, following the close of school, will be placed in the hands of an attorney for collection.

THE BOARDING DEPARTMENT

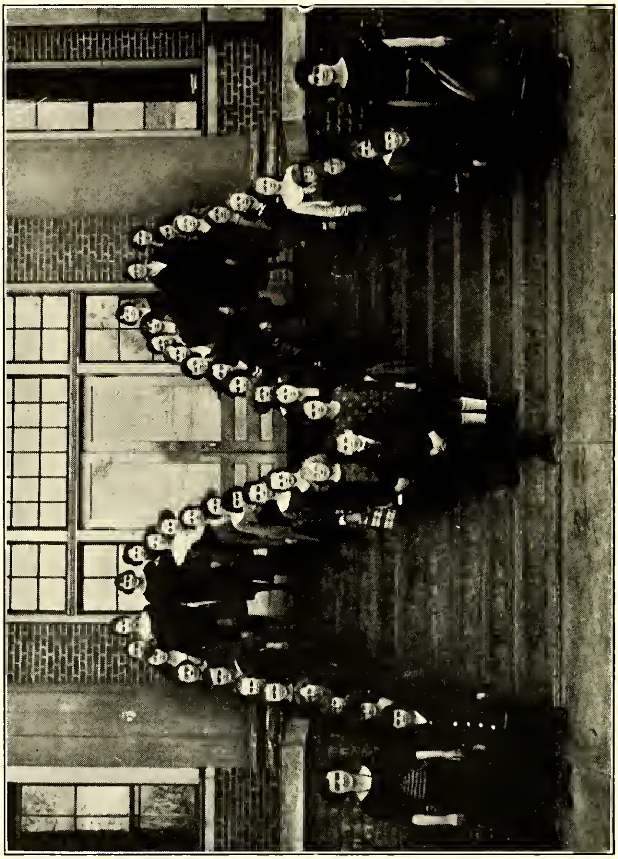
The school is fortunate in having ample boarding facilities for all the boarding pupils and teachers. In the basement of the main building is a large dining hall capable of seating over two hundred people. Here the pupils are seated in groups of eight to a table with a hostess in charge, usually a senior, who sees to it that the rules of table etiquette are observed. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes this to be an important part of an education. Table board is given at actual cost. By buying groceries in large quantities, the price of board has been kept at a very low rate, usually about $15.00 a month.

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department was new last year, having been tried out at Cary and three other places in the State by the Teacher-training Department at Raleigh. The work at Cary was in charge of an outstanding teacher, and so pronounced was its success that it will be continued, occupying comfortable quarters in the new vocational building.

By taking this course, a pupil will get the equivalent of a year of college work toward securing a certificate to teach. A junior who has completed twelve units of academic work in an accredited high school will, upon the completion of the course, secure an elementary certificate Class B. A graduate of an accredited high school, upon completion of the



Class in Piano

course, is granted an elementary certificate Class A. The course covers a period of one school session. Graduates from this department are granted diplomas from the high school as well as the certificate from the State Department at Raleigh and will be admitted to the North Carolina College for Women or the East Carolina Teachers College, if they decide to go to college.

AGRICULTURE AND HOME ECONOMICS

These departments, next session, will occupy spacious quarters in the new vocational building. The entire first floor and one large room in the basement, making in all nine rooms, will be devoted to the work of these departments. These rooms will be furnished with the most modern equipment for teaching agriculture and home economics and will place the school in the forefront of high schools in the South doing this class of work.

For agriculture, there are two large classrooms provided with individual desks, cabinets, lantern, running water, etc. Between these two is a room which will be used as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and will be equipped with cream separators, testers, incubators, etc. Five rooms will be used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room, and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision has been made in the new building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of the new building will be devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing, has been provided.

Class in Agriculture

Three other large rooms on the second floor of this building will be occupied by the teacher-training department, the commercial department, and one of the other special departments of the school.

MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

Violin and band music will be provided for again. The school is fortunate in having a well-organized band with regular instruction given by a recognized band leader.

Teachers have been employed who will give lessons in art and expression to those who desire this sort of instruction.

Public school music has now become an established feature of the school and a trained teacher is employed to give her whole time to it. It is required of all pupils and there is no charge for it.

COMMERCIAL

The work of the Commercial Department has been enlarged so as to include bookkeeping along with typewriting and stenography. A large room in the new building, six Remington typewriters, suitable tables and chairs make up the equipment for this department.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. To be able to use a typewriter or to play in a band is frequently the means of a student's paying his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given toward graduation for work done in these special departments.

ATHLETIC SUPPLY CO.
C

Baseball Team

STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former member of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best debater in the girls' societies on the occasion of Commencement. The boys' societies also give a debaters' medal to the best debater at Commencement. All high school pupils, unless excused by the Superintendent, are required to join one of the societies.

SCHOLARSHIP MEDAL

Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to compete for this medal.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports of every kind. A baseball diamond, basketball courts, for both boys and girls, tennis courts, and playground apparatus, are located on the school campus and are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods. A new athletic field on a neighboring hill has been secured which will be put in shape for football, baseball, basketball and track athletics and will be used exclusively by the high school department.

Tennis Team

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Do not request that books be charged, but furnish pupils with about $6.00 to cover cost of books.

Unless there is objection from parents, boarding pupils must attend Sunday School and church.

Smoking in any of the school buildings or on the school grounds is prohibited.

SPECIAL NOTES

Last session 263 high school pupils were enrolled and 342 in the elementary school, making a total enrollment of 605. There were 179 boarders from 18 counties. The graduating class numbered 46. Twenty-five teachers were employed to do the work of the school.

The dormitory for girls is of brick and is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak washstand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs.

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) A large and substantial main building with 33 rooms. (2) A new vocational building with 18 rooms. (3) All buildings heated by steam. (4) Running water in all the buildings. (5) Bored well on campus. (6) Spacious classrooms lighted on one side and provided with cabinets built into the walls. (7) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (8) An auditorium that will seat eight hundred or more, with a gallery and splendid stage and scenery. (9) Laboratories with individual desks, gas, running water, etc. (10) Dormitories both for boys and girls—both handsome brick structures, with steam heat, baths, etc. (11) A complete playground equipment for the whole school. (12) An unsurpassed domestic science equipment for high school students. (13) An ample force of trained teachers to do the work of the school.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 40c a year or 10c a copy. The title of the paper is *C. H. S. Echoes.* The class also publishes an annual, in book form, which is highly prized by the members.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and the commercial subjects. It contains 18 rooms and cost $45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and will be known officially as the Walter Hines Page Building for Vocational Training.

This building, with the three other brick buildings on the campus, completes the quadrangle as planned for the school by Professor J. P. Pillsbury, of the N. C. State College of Agriculture and Engineering, in 1916.

Other buildings on the campus are the teacherage, the janitor's home, and the shop. The janitor's home is all that is left of the old high school building that stood on the site of the present main building up to 1913. The teacherage has been twice moved and has traveled half way around the campus. The shop was built by the students of the agricultural department in 1921 and is equipped with a forge, work benches and a complete set of tools.

Connected with the school, but not on the campus, are a cottage and a barn on a twenty-one acre farm, which the school owns, a quarter of a mile away.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth $200,000.

Girls' Dormitory

CARY HIGH SCHOOL

FOREWORD

The Cary High School is first and foremost a boarding school. Two-thirds of its high school pupils come from outside the local district, many of them from other counties. A boarding school affords numerous advantages over a school purely local. The students generally are the picked representatives of their communities; the dormitory life and the mingling of pupils and teachers in the dining hall afford a training even more valuable than that obtained from textbooks, while the organized life of the students in the literary societies, Y. M. C. A., Y. W. C. A., Athletic Clubs, Music Clubs, Science Clubs, etc., means vastly more to the pupils than in a purely local school. Then, too, pupils freed from home duties and home distractions have far better opportunities for study; and when they have finished the high school, the transition to college life is less abrupt. Many boys and girls need the discipline of dormitory life, to say nothing of correct table and social etiquette.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done. Blanks for this purpose will be furnished upon application.

CORNER OF DINING HALL

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression, Art, Teacher-training.

To receive a diploma of graduation in the academic department, a pupil must have completed the following work:

ACADEMIC COURSE

First Year
- English
- Arithmetic
- Algebra
- Latin
- Civics
- General Science

Second Year
- English
- Arithmetic
- Algebra
- Latin
- History
- Biology

Third Year
- English
- Algebra
- Latin
- French
- Chemistry

Fourth Year
- English
- Geometry
- History
- Physics
- Civics
- French or Latin

To receive a diploma in Agriculture, a pupil must have completed the following:

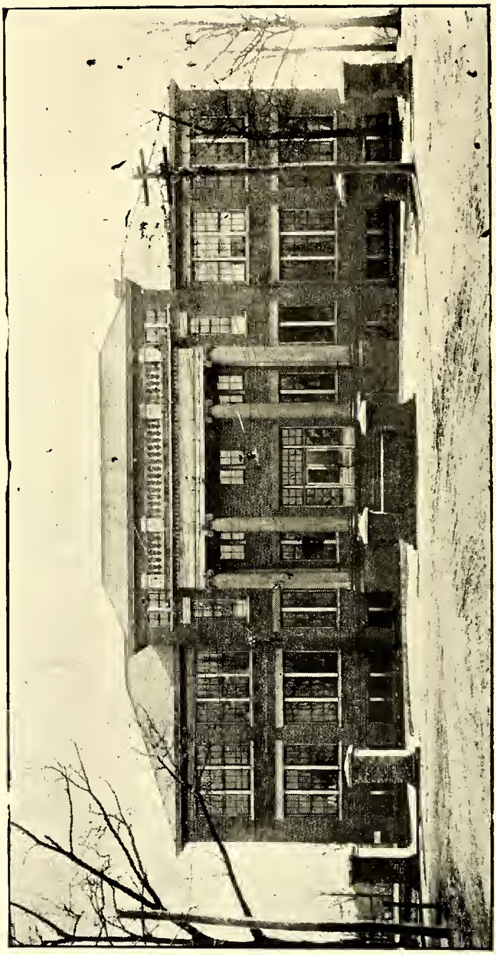
AGRICULTURAL COURSE

First Year
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Crops and Soils

Second Year
- English
- Arithmetic
- Algebra
- Biology
- History
- Animal Husbandry

Third Year
- English
- Chemistry
- Algebra
- Horticulture
- Farm Mechanics

Fourth Year
- English
- Physics
- Geometry
- History
- Civics
- Farm Management
- Farm Engineering



Administration Building

To receive a diploma in Home Economics, one must have completed the following:

HOME ECONOMICS COURSE

First Year
- English
- Arithmetic
- Algebra
- General Science
- Civics
- Home Economics

Second Year
- English
- Arithmetic
- Algebra
- Biology
- History
- Home Economics

Third Year
- English
- Chemistry
- Algebra
- Latin
- French

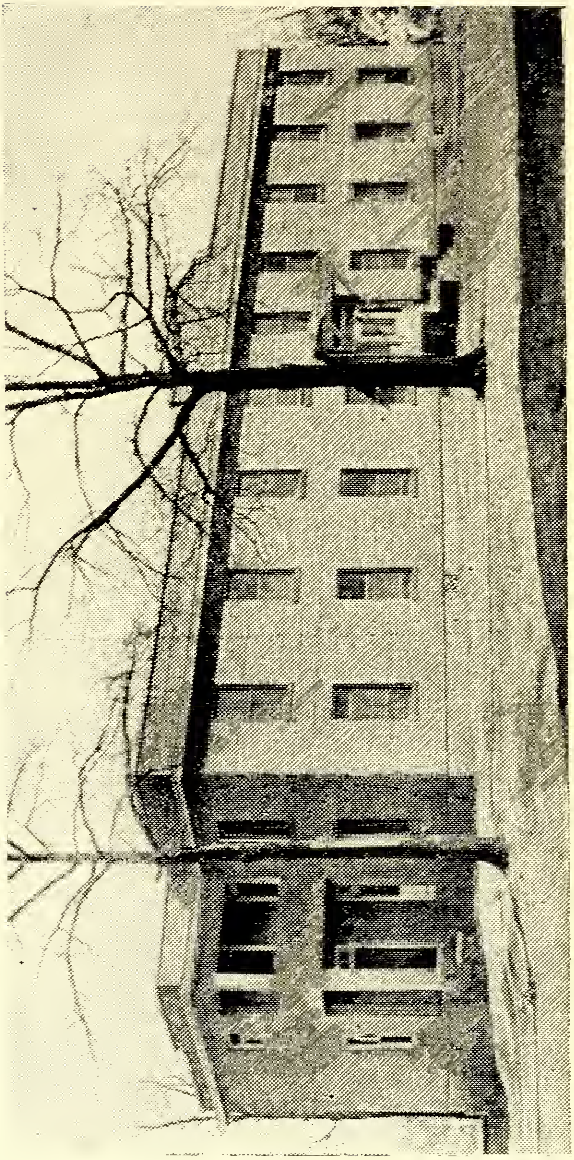
Fourth Year
- English
- Civics
- Physics
- French
- History
- Geometry
- Latin

To receive a certificate of graduation in the agricultural department a pupil may make the following eliminations from the agricultural course outlined above: Geometry, and third year algebra.

To receive a certificate of graduation in home economics, one may eliminate the following from the home economics course: Latin, French, geometry, third year algebra.

Credit will be allowed, in the academic department, for music, typewriting, stenography, bookkeeping, or expression, only when this work is done at Cary.

As all standard colleges now require fifteen units of high school work for entrance, only pupils who do not expect to go to college or who contemplate entering non-standard institutions should take courses leading to certificates of graduation. All are urged to take one of the complete courses leading to diplomas.



Boys' Dormitory

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), through page 36.

English Texts—Sentence and Theme (Ward).

English Classics for Study—Literature and Life, Book I (Greenlaw and others).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel*, 1; *The Talisman*, 2 (Scott); *Lays of Ancient Rome*, 2 (Macaulay); *Rebecca of Sunnybrook Farm*, 1 (Wiggin); *The Call of the Wild*, 1 (London); *Robinson Crusoe*, 2 (DeFoe); *Uncle Remus Stories*, 1 (Harris); *Little Men or Little Women*, 2 (Alcott); *The Story of the Other Wise Man*, 2 (Van Dyke); *Kidnapped*, 2 (Stevenson); *The Old Curiosity Shop*, 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart) through chapter VI; *Complete Algebra* (Slaught and Lennes) through chapter IX.

Latin—First Year Latin (Collar and Daniell) through chapter XLIX.

Science—General Science (Caldwell and Eikenberry).

Civics—Text-book in Citizenship (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

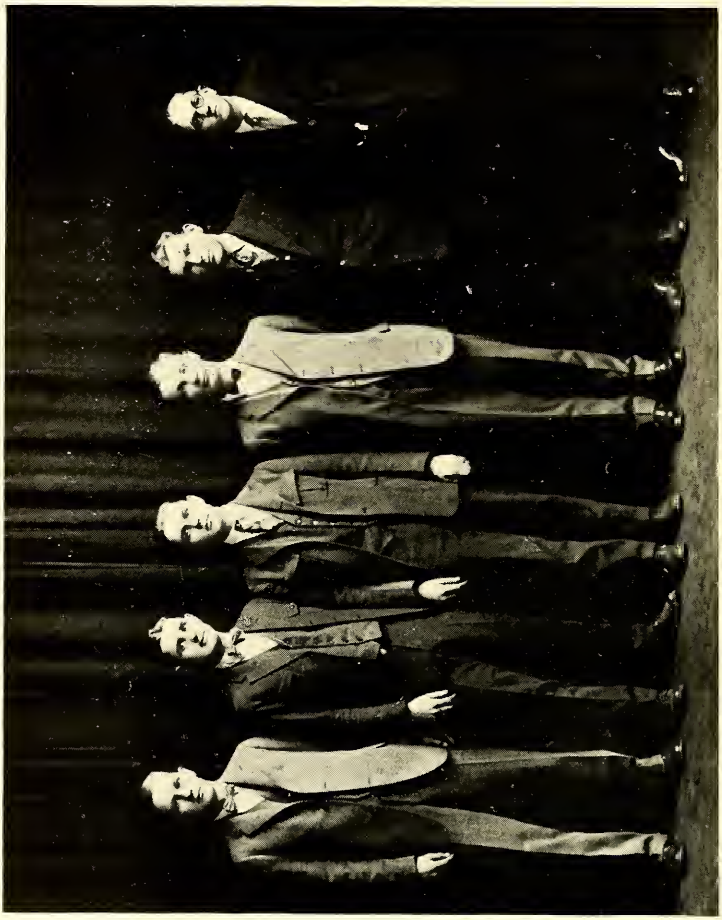
Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), completed.

English Texts—Practical English (Lewis and Hosic).

English Classics for Study—Literature and Life, Book II (Greenlaw & Stratton).



Commencement Debaters

English Classics for Reading—(12 credits required): *The Lady of the Lake,* 2 (Scott); *Herve Reil,* 1 (Browning); *Franklin's Autobiography,* 2; *The Last of the Mohicans,* 2 (Cooper); *Tom Brown's School Days,* 3 (Hughes); *Iliad of Homer,* 3 (Pope); *The Cloister and the Hearth,* 2 (Reade); *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale); *The DeCoverley Papers.* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *The Virginian,* 2 (Wister); *Wild Animals I Have Known,* 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—*New High School Arithmetic* (Wells and Hart) completed; *Complete Algebra* (Slaught and Lennes) through chapter XVI.

Latin—*First Year Latin* (Collar and Daniell) completed; *Cæsar,* Books I and II (D'Ooge and Eastman).

History—*World History* (Webster).

Science—*Biology for High Schools* (Smallwood and others).

Agriculture—*A Study of Farm Animals* (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—*Dietetics for High School* (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—*High School Word Book* (Sandwick and Bacon), Part I.

English Texts—*Written and Spoken English* (Clippinger).

English Classics for Study—*Literature and Life,* Book III (Greenlaw & Miles).

English Classics for Reading—(15 credits required): *The Marble Faun,* 3 (Hawthorne); *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2; *Æneid,* 2 (Harrison); *Captains Cour-*

THE SCIENCE CLUB

GIRLS' BASKETBALL TEAM

Candidates for 1924 Baseball Team

The Hi-Y

ageous, 2 (Kipling); *Sohrab and Rustum,* 2 (Arnold); *The Oregon Trail,* 2 (Parkman); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Book* or *In Ole Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *Poems and Tales,* 3 (Poe); one Play of Shakespeare not previously read, 2.

Mathematics—Complete Algebra (Slaught and Lennes) completed.

Latin—Cæsar in Gaul (D'Ooge and Eastman), Four Books. *Cicero's Orations* (Gunnison and Harley), *Four orations against Catiline; The Manilian Law; The Citizenship of Archias.*

Science—Chemistry of Common Things (Brownlee and others).

French—The Phonetic Chardenal French Course (Brooks); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics.*

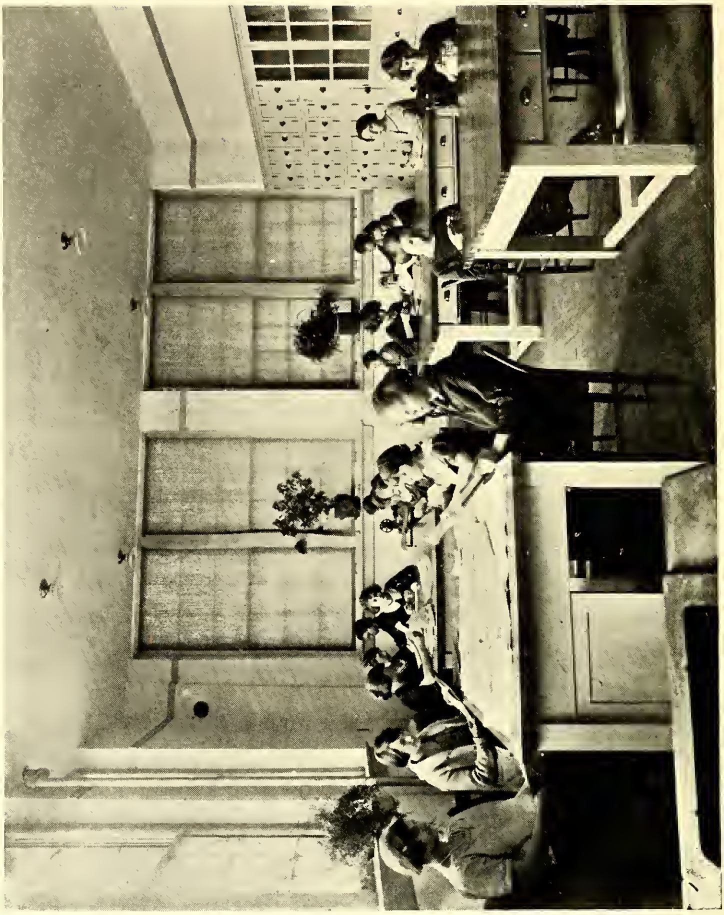
FOURTH YEAR

Spelling—High School Word Book (Sandwick and Bacon), Part II.

English Texts—Century Handbook of Writing (Crever & Jones).

English Classics for Study—Literature and Life, Book IV (Greenlaw and others).

English Classics for Reading—(20 credits required): *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); Sesame and Lilies, 3 (Ruskin); *The Ancient Mariner,* 2 (Coleridge); *Bunker Hill Oration,* 2 (Webster); *Education and Citizenship,* 2 (Graham); *Lorna Doone,* 2 (Blackmore); *Heart of the West,* 2 (O. Henry); *The Vicar of Wakefield,* 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections



A Sewing Class

from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—Virgil (Bennett), Six Books.

History—History of U. S. (Beard & Beard).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks); *Fifteen French Plays* (Francois); *Le Voyage de M. Perrichon* (Labiche & Martin); *Eight French Stories* (Manley).

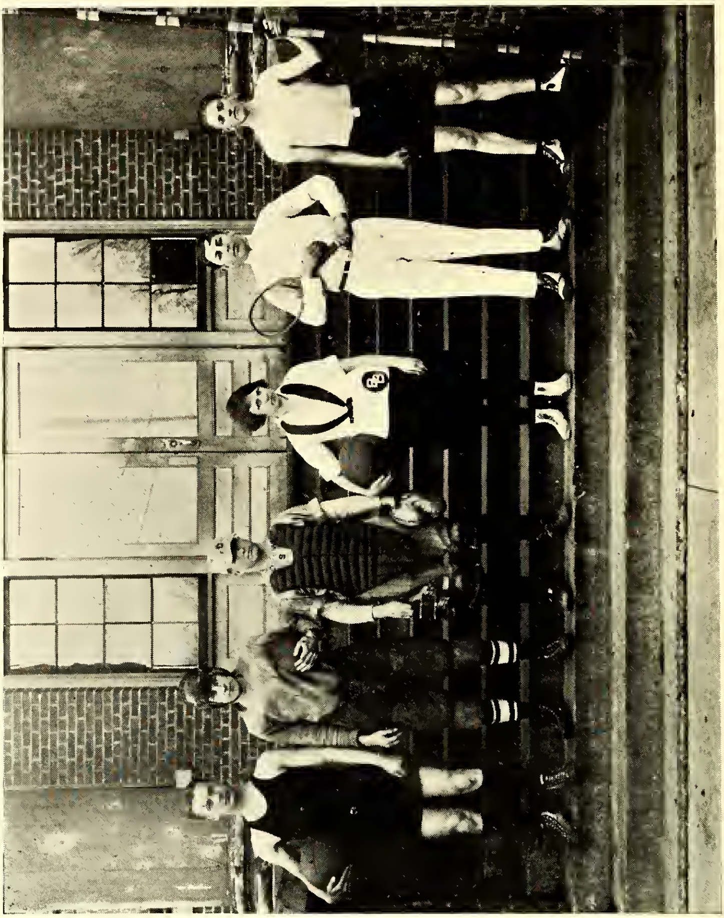
Agriculture—Farm Management (Warren); *Farm Engineering.* Farm shop work is given throughout the four years to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

EXPENSES

TUITION PER MONTH

Primary Grades	$ 3.00
Grammar Grades	4.00
Freshman and Sophomore Years	5.00
Junior and Senior Years	6.00
Piano	4.00
Piano Practice—an hour daily	1.00
Violin	5.00
Elocution	4.00
Art	4.00
Typewriting	4.00
Stenography and Typewriting	6.00
Bookkeeping	4.00
Band Music	3.00



Captains of Athletic Teams

BOARD PER MONTH

Dormitories, all time boarders	15.00
Dormitories, five-day boarders	13.00

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

MINOR DUES PER MONTH

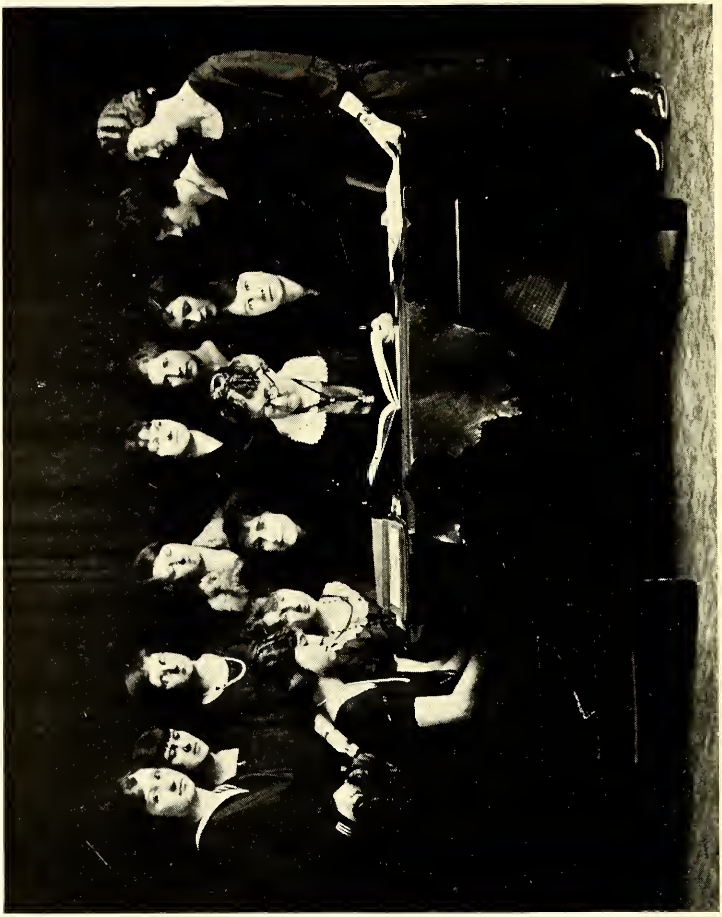
Societies (all)	25c
Athletics (boys)	25c
Athletics (girls)	15c
Medicine Fee (girls in dormitory)	10c
Current Events (all)	5c

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition of $5.00 per month in the high school and $3.00 in the elementary school. This charge, which is made by order of the County Board, applies to all High Schools in the county.

Each pupil in the dormitories should bring the following: Two white counterpanes, four sheets, three pillow cases, two blankets or quilts, one glass, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories must deposit $1.00 to show good faith. This amount will be de



Teacher-Training Class

ducted from the first month's rent. Rooms, however, will not be held longer than September 3, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

THE BOARDING DEPARTMENT

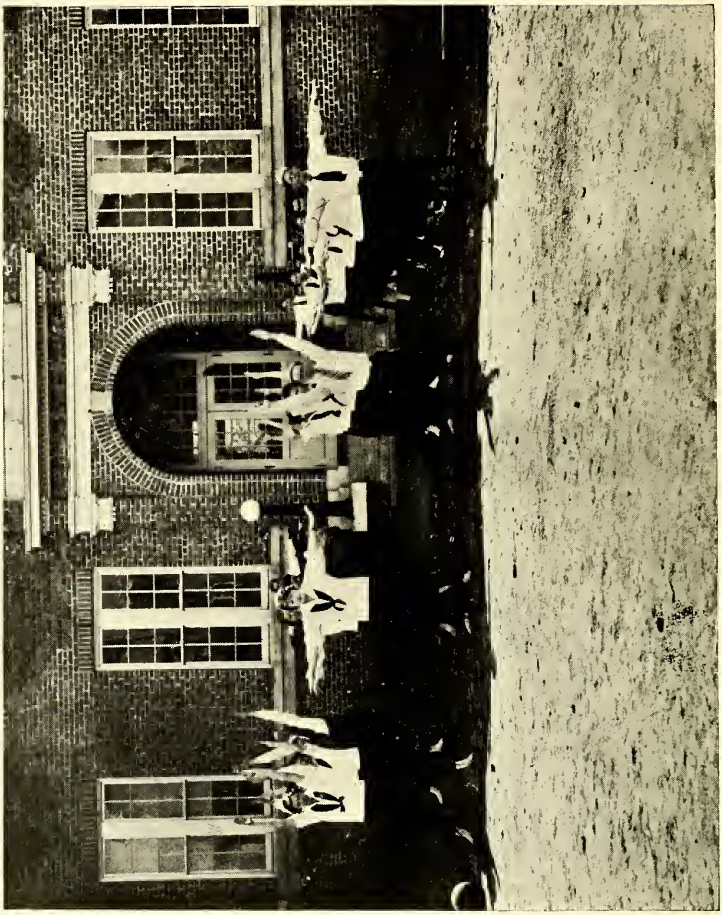
The school has ample boarding facilities for all the boarding pupils and teachers. In the basement of the main building is a large dining hall capable of seating over two hundred people. Here the pupils are seated in groups of eight to a table with a hostess in charge, usually a senior. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes this to be an important part of an education. By buying groceries by wholesale and by economic management, the school has been able to give very substantial board at $15.00 a month.

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department in our school has fully met the expectations of the State Department of Education at Raleigh, which established it two years ago, and will be continued next year. The graduates of this department have been very successful in securing good positions to teach. Wake County has provided a very elaborate equipment for the department in our new Vocational Building, and the State requires an outstanding teacher for the position.

By taking this course, a pupil gets the equivalent of a year of college work toward securing a certificate to teach. A junior who has completed twelve units of academic work in an accredited high school or a graduate of a non-standard high school will, upon the completion of the course, secure an elementary certificate Class B. A graduate of an ac-



A CLASS IN PHYSICAL TRAINING

credited high school, upon completion of the course, is granted an elementary certificate Class A. The course covers a period of nine school months. Graduates from this department are granted diplomas from the high school as well as the certificate from the State Department at Raleigh and will be admitted to the North Carolina College for Women or the East Carolina Teachers College, if they decide to go to college.

AGRICULTURE AND HOME ECONOMICS

These departments occupy spacious quarters in the new vocational building. The entire first floor and one large room in the basement, making in all nine rooms, are devoted to the work of these departments. These rooms are furnished with the most modern equipment for teaching agriculture and home economics and place the school in the forefront of high schools in the South doing this class of work.

For agriculture, there are two large classrooms provided with individual desks, cabinets, lantern, running water, etc. Between these two is a room which is used as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and is equipped with cream separators, testers, incubators, etc. Five rooms will be used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision was made in the new building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of the new building are devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing, has been provided.

CARY HIGH SCHOOL
23-24

Class in Agriculture

Three other large rooms on the second floor of this building are occupied by the teacher-training department and the Seventh Grade.

MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

Band music has been provided for. The school is fortunate in having a well-organized band with regular instruction given by a recognized band leader. Provision will be made for instruction in violin if pupils desire it.

Teachers have been employed who will give lessons in art and expression to those who desire this sort of instruction.

Public school music has now become an established feature of the school and a trained teacher is employed to give her whole time to it. It is required of all pupils and there is no charge for it.

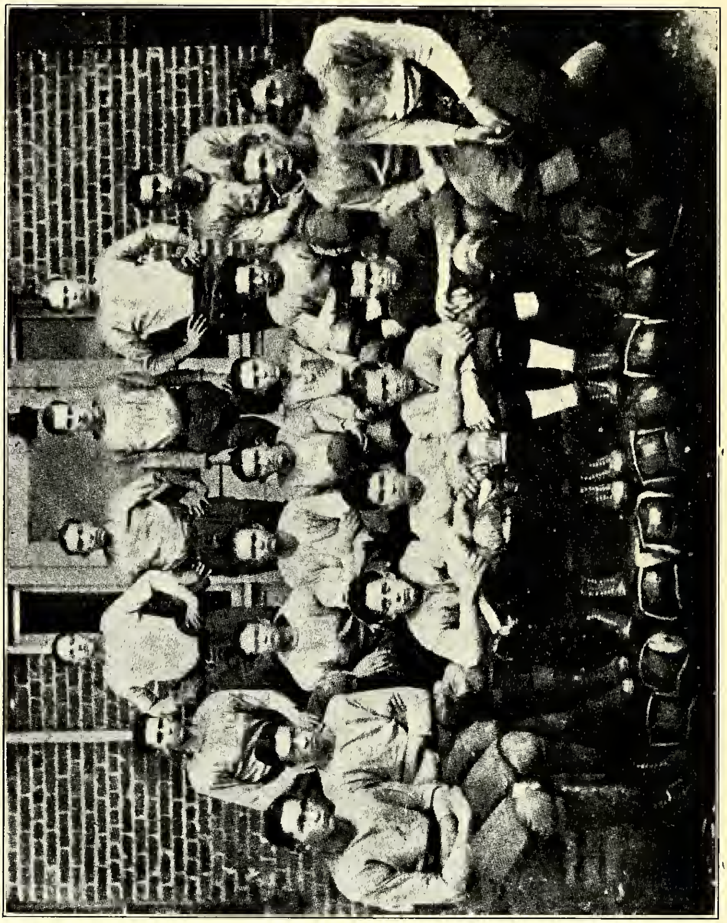
A gold medal is given annually by Rev. C. H. Norris to the pupil doing best work in piano for the year.

COMMERCIAL

The work of the Commercial Department includes bookkeeping, typewriting and stenography. A large room in the new building, six Remington typewriters, suitable tables and chairs make up the equipment for this department.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. To be able to use a typewriter or to play in a band is frequently the means of a student's paying his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given toward graduation for work done in these special departments.



Football Squad

STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former member of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best debater in the girls' societies on the occasion of Commencement. The boys' societies also give a debaters' medal to the best debater at Commencement. The school enters each year the State Triangular Debate, the speakers being chosen in a preliminary debate open to all members of the four societies. All high school pupils, unless excused by the Superintendent, are required to join one of the societies. The membership is determined by lot to avoid overcrowding in any one society.

SCHOLARSHIP MEDAL

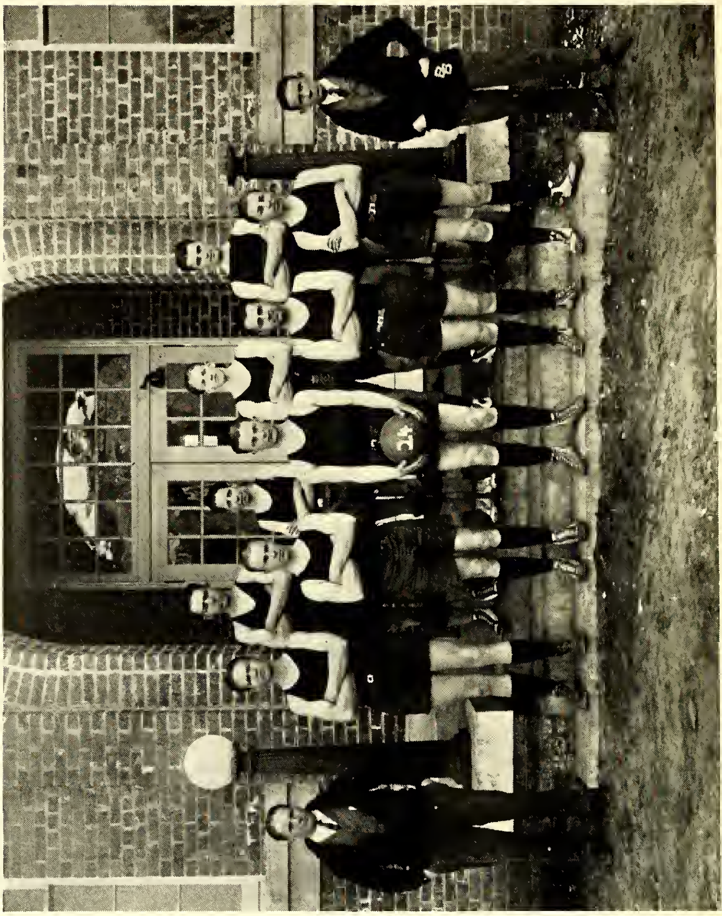
Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to compete for this medal.

SOCIETY TROPHY

The Faculty during the fall of 1923 provided a beautiful trophy cup to be awarded annually in November to the Clay or Calhoun Society winning in a public debate, with the proviso that the cup shall become the permanent possession of the society winning three out of five debates. The Calhouns won the first debate.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful



Boys' Basketball Team

sports of every kind. A baseball diamond on a neighboring hill besides basketball courts, for both boys and girls, tennis courts, and playground apparatus on the school campus are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The new athletic field has been provided with a fence and a grand stand and is used exclusively by the high school for football, baseball, and track.

Letters are awarded by the Athletic Association to the players meeting certain requirements in football, basketball, baseball, tennis, and track.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment, these being the property of the school.

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms.

Do not request that books be charged, but furnish pupils with about $6.00 to cover cost of books.

Unless there is objection from parents, boarding pupils are expected to attend Sunday School and church.

Smoking in any of the school buildings or on the school grounds is prohibited.

The school operates a moving picture machine. The films are furnished by the State Department of Education and are shown each Thursday night. There are no other movies in Cary.

SPECIAL NOTES

Last session 268 high school pupils were enrolled and 358 in the elementary school, making a total enrollment of 626. There were 175 boarders from 20 counties. The graduating class numbered 47. Twenty-four teachers were employed to do the work of the school.

The dormitory for girls is of brick and is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak wash-stand with fixtures, two single beds with felt mattresses, a table with double drawers, and two chairs.

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) A large and substantial main building with 33 rooms. (2) A new vocational building with 18 rooms. (3) All buildings heated by steam. (4) Running water in all the buildings. (5) Bored well on campus. (6) Spacious classrooms lighted on one side. (7) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (8) An auditorium that will seat eight hundred or more, with a gallery and splendid stage and scenery. (9) Laboratories with individual desks, gas, running water, etc. (10) Dormitories both for boys and girls—both large brick structures, with steam heat, baths, etc. (11) A complete playground equipment for the whole school. (12) Splendid domestic science equipment. (13) An ample force of trained teachers to do the work of the school.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is

40c a year or 10c a copy. The title of the paper is *C. H. S. Echoes.* The class also publishes an annual, in book form, which is highly prized by the members.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913, by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory in this State and South Carolina.

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing

$33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and the commercial subjects. It contains 18 rooms and cost $45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and will be known officially as the Walter Hines Page Building for Vocational Training.

This building, with the three other brick buildings on the campus, completes the quadrangle as planned for the school by Professor J. P. Pillsbury, of the N. C. State College of Agriculture and Engineering, in 1916.

Other buildings on the campus are the teacherage, the janitor's home, and the shop. The janitor's home is all that is left of the old high school building that stood on the site of the present main building up to 1913. The teacherage has been twice moved and has traveled half way around the campus. The shop was built by the students of the agricultural department in 1921 and is equipped with a forge, work benches and a complete set of tools.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth $225,000.

OTHER HONORS

Special mention for excellence in Typewriting, James Batts.

Clay Society wins Faculty Cup, December 8.

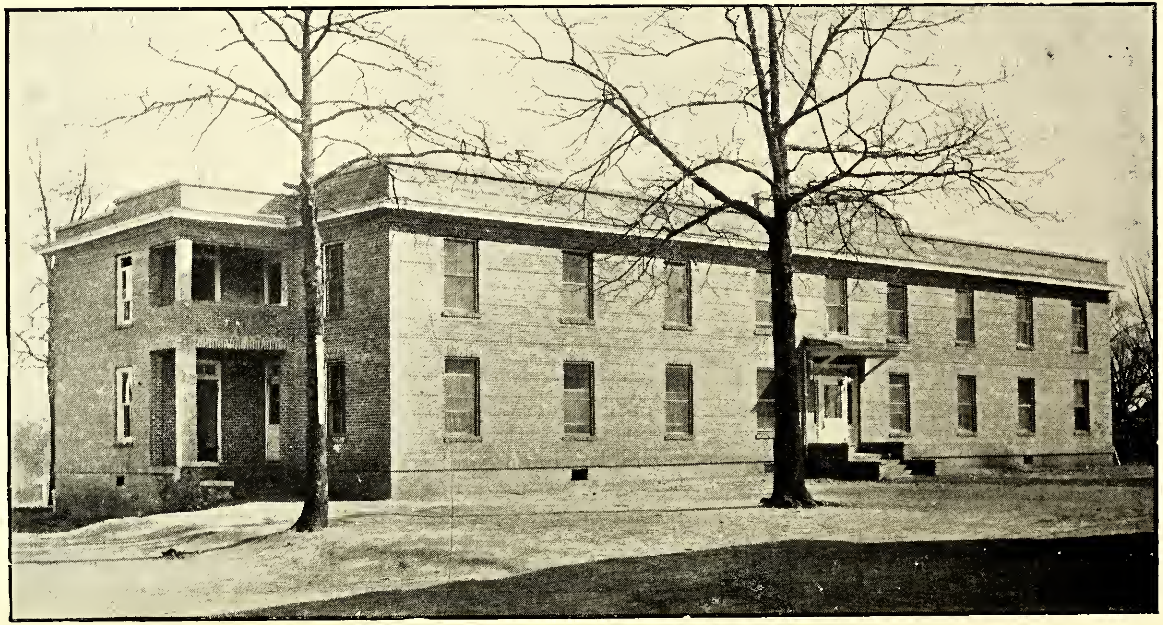
Clay Society wins Commencement Debate, April 22.

Irving Society wins Mid-term Debate, March 3.

Irving Society wins Commencement Debate, April 22.

Cary High School wins first place in County Commencement, April 11.

James Bashaw and Clyde E Franklin win in Triangular Debate, April 3.



Boys' Dormitory

CARY HIGH SCHOOL

FOREWORD

For the twenty-ninth time the Cary High School presents to the friends of education in general and to its patrons in particular this its annual catalogue in the firm belief that the high standard of excellence reached by the school in the past will be maintained during the session of 1925-1926.

Contrary to the expectation of some people, the school has maintained its place as a boarding school. Large numbers of pupils still come from outside the local district and many from other counties and other states. The school is unusually well equipped for caring for nonresident pupils. With two large brick dormitories, a common boarding hall for both teachers and pupils, with an ample teaching force and adequate physical equipment, the school is abundantly able to care for a large boarding patronage.

A boarding school affords numerous advantages over a school purely local. The students generally are the picked representatives of their communities; the dormitory life and the mingling of pupils and teachers in the dining hall afford a training even more valuable than that obtained from textbooks, while the organized life of the students in the literary societies, Y. M. C. A., Y. W. C. A., athletic clubs, music clubs, science clubs, etc., means vastly more to the pupils than in a purely local school. Then, too, pupils freed from home duties and home distractions have better opportunities for study; and when they have finished the high school, the transition to college life is less abrupt. Many boys and girls need the discipline of dormitory life, to say nothing of correct table manners and social etiquette.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done. Blanks for this purpose will be furnished upon application.

Girls' Basketball Team

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression, Voice, Art, Teacher-training, Typewriting.

To receive a diploma of graduation in the academic department, a pupil must have completed the following work:

ACADEMIC COURSE

First Year
- English
- Arithmetic
- Latin
- Civics
- General Science

Second Year
- English
- Algebra
- Latin
- History
- Biology

Third Year
- English
- Algebra
- Latin
- French
- Chemistry

Fourth Year
- English
- Geometry
- History and Civics
- Physics
- French or Latin

To receive a diploma in Agriculture, a pupil must have completed the following:

AGRICULTURAL COURSE

First Year
- English
- Arithmetic
- General Science
- Civics
- Crops and Soils

Second Year
- English
- Algebra
- Biology
- History
- Animal Husbandry

Third Year
- English
- Chemistry
- Algebra
- Horticulture
- Farm Mechanics

Fourth Year
- English
- Physics
- Geometry
- History and Civics
- Farm Management
- Farm Engineering

Administration Building

To receive a diploma in Home Economics, one must have completed the following:

HOME ECONOMICS COURSE

First Year
- English
- Arithmetic
- General Science
- Civics
- Home Economics

Second Year
- English
- Algebra
- Biology
- History
- Home Economics

Third Year
- English
- Chemistry
- Algebra
- Latin
- Lrench

Fourth Year
- English
- Physics
- French
- History and Civics
- Geometry
- Latin

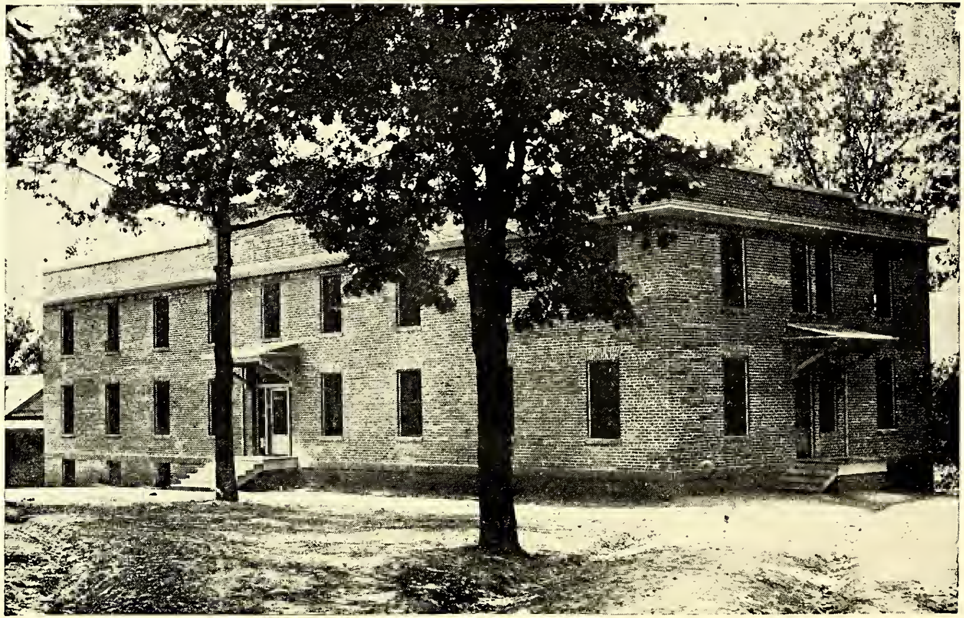
One unit's credit is allowed for a year's work in each subject listed above with the following exceptions: Each year of agriculture counts for one and a half units, while general science and first year civics are valued at one half unit each. American history and civics in the fourth year together make one unit.

To receive a certificate of graduation in the agricultural department a pupil may eliminate geometry and third year mathematics from the agricultural course outlined above.

To receive a certificate of graduation in home economics, one may eliminate the following from the home economics course: Latin, French, geometry, physics and third year mathematics.

A half unit of credit is allowed for a year in music, typewriting, expression, or physical training, when this work is done at Cary.

As all standard colleges now require sixteen units of high school work for entrance, only pupils who do not expect to go to college or who contemplate entering non-standard institutions should take courses leading to certificates of graduation. All are urged to take one of the complete courses leading to diplomas.



Girls' Dormitory

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), through page 36.

English Texts—Sentence and Theme (Ward).

English Classics for Study—Literature and Life, Book I (Greenlaw and others).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel,* 1; *The Talisman,* 2 (Scott); *Lays of Ancient Rome,* 2 (Macaulay); *Rebecca of Sunnybrook Farm,* 1 (Wiggin); *The Call of the Wild,* 1 (London); *Robinson Crusoe,* 2 (DeFoe); *Uncle Remus Stories,* 1 (Harris); *Little Men or Little Women,* 2 (Alcott); *The Story of the Other Wise Man,* 2 (Van Dyke); *Kidnapped,* 2 (Stevenson); *The Old Curiosity Shop,* 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart).

Latin—First Year Latin (Collar and Daniell) through chapter XLIX.

Science—General Science (Caldwell and Eikenberry).

Civics—Text-book in Citizenship (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), completed.

English Texts—Practical English (Lewis and Hosic).

English Classics for Study—Literature and Life, Book II (Greenlaw & Stratton).

English Classics for Reading—(12 credits required): *The Lady of the Lake,* 2 (Scott); *Herve Reil,* 1 (Browning); *Franklin's Autobiography,* 2; *The Last of the Mohicans,* 2 (Cooper); *Tom Brown's School Days,* 3 (Hughes); *Iliad of*

Commencement Debaters

Homer, 3 (Pope); *The Cloister and the Hearth,* 2 (Reade); *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale); *The DeCoverley Papers,* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *The Virginian,* 2 (Wister); *Wild Animals I Have Known,* 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—Complete Algebra (Slaught and Lennes) through chapter XIII.

Latin—First Year Latin (Collar and Daniell) completed; *Cæsar,* Books I and II (D'Ooge and Eastman).

History—World History (Webster).

Science—Biology for High Schools (Smallwood and others).

Agriculture—A Study of Farm Animals (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—Dietetics for High School (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—High School Word Book (Sandwick and Bacon), Part I.

English Texts—Written and Spoken English (Clippinger).

English Classics for Study—Literature and Life, Book III (Greenlaw & Miles).

English Classics for Reading—(15 credits required): *The Marble Faun,* 3 (Hawthorne); *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2; *Æneid,* 2 (Harrison); *Captains Courageous,* 2 (Kipling); *Sohrab and Rustum,* 2 (Arnold); *The Oregon Trail,* 2 (Parkman); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Book* or *In Old Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *Poems and Tales,* 3 (Poe); one Play of Shakespeare not perviously read, 2.

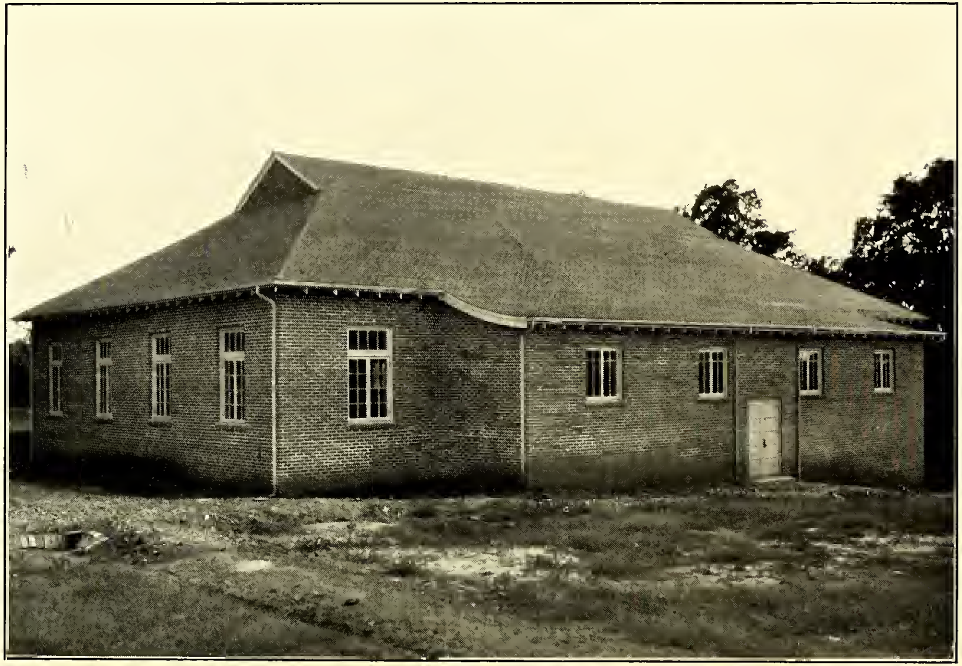
Mathematics—Complete Algebra (Slaught and Lennes) completed.

Class in Agriculture

Triangular Debaters

Teacher-training Class

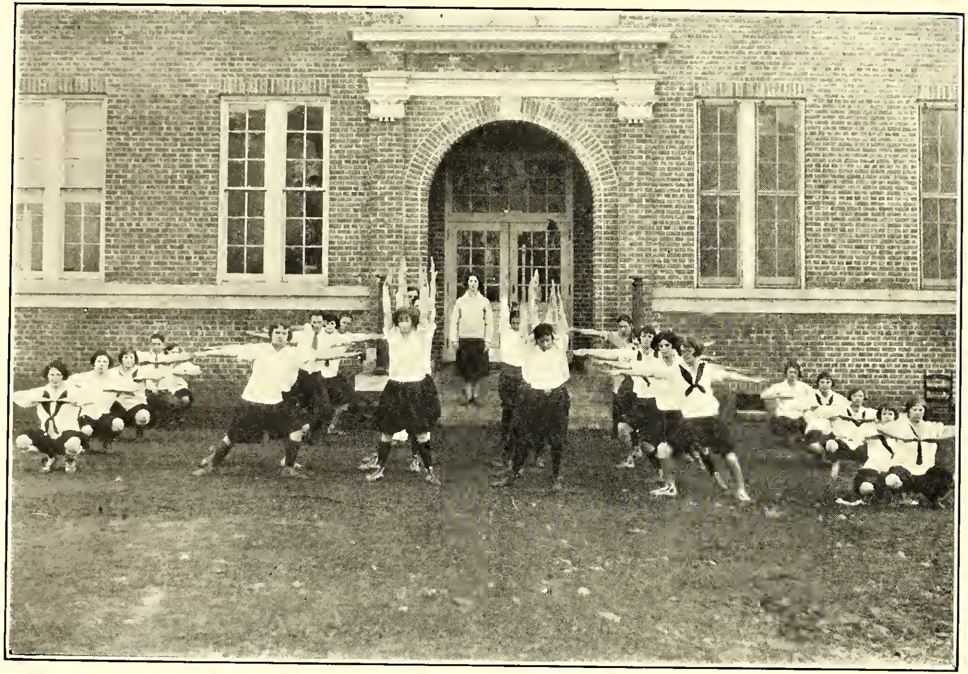
Cooking Laboratory



New Gymnasium

Glee Club

Girls' Reserve



Class in Physical Training

Science Club

Latin—Cæsar in Gaul (D'Ooge and Eastman), Books III and IV. *Cicero's Orations* (Gunnison and Harley), *Four orations against Catiline; The Manilian Law; The Citizenship of Archias.*

Science—Chemistry of Common Things (Brownlee and others).

French—The Phonetic Chardenal French Course (Brooks); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics.*

FOURTH YEAR

Spelling—High School Word Book (Sandwick and Bacon). Part II.

English Texts—Century Handbook of Writing (Crever & Jones).

English Classics for Study—Literature and Life, Book IV (Greenlaw and others).

English Classics for Reading—(20 credits required): *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); *Sesame and Lilies,* 3 (Ruskin); *The Ancient Mariner,* 2 (Coleridge); *Bunker Hill Oration,* 2 (Webster); *Education and Citizenship,* 2 (Graham); *Lorna Doone,* 2 (Blackmore); *Heart of the West,* 2 (O. Henry); *The Vicar of Wakefield,* 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—Virgil (Bennett), Six Books.

History—History of U. S. (Beard & Beard).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

REMINGTON STANDARD TYPEWRITER

Remington

Class in Typewriting

French—The New Chardenal French Course (Brooks); *Fifteen French Plays* (Francois); *Le Voyage de M. Perrichon* (Labiche & Martin); *Eight French Stories* (Manley).

Agriculture—Farm Management (Warren); *Farm Engineering.* Farm shop work is given throughout the four years to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

EXPENSES

TUITION PER MONTH

Primary Grades	$ 3.00
Grammar Grades	4.00
Freshman and Sophomore Years	5.00
Junior and Senior Years	6.00
Piano	4.00
Piano Practice—an hour daily	1.00
Violin	5.00
Elocution	5.00
Art	5.00
Typewriting	4.00
Typewriter Practice	1.00

BOARD PER MONTH

Dormitories, all time boarders	$15.00
Dormitories, five-day boarders	13.00

ROOM RENT PER MONTH

Boys' Dormitory	5.00
Girls' Dormitory, single beds	5.00
Girls' Dormitory, double beds	4.50

Y. M. C. A.

MINOR DUES PER MONTH

Societies (all)	25c
Athletics (boys)	25c
Athletics (girls)	15c
Medicine Fee (girls in dormitory)	10c
Current Events (all)	5c

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition of $5.00 per month in the high school and $3.00 in the elementary school. This charge, which is made by order of the County Board, applies to all High Schools in the county. Pupils in the Teacher-training Department, whether inside or outside the county, are not subject to tuition.

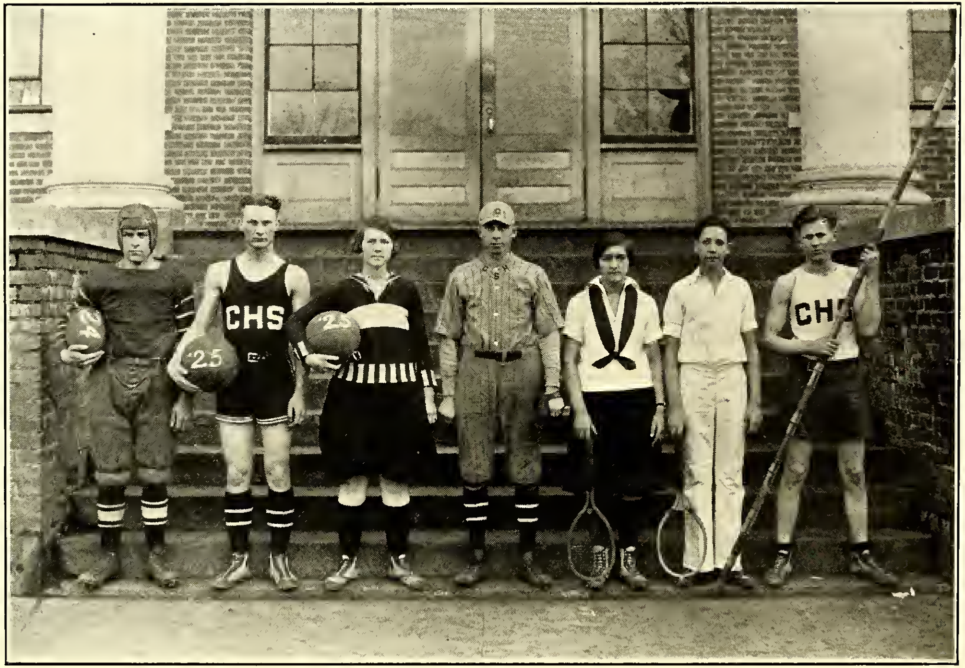
Each pupil in the dormitories should bring the following: Two white counterpanes, four sheets, three pillow cases, two blankets or quilts, one glass, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories must deposit $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 3, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

THE BOARDING DEPARTMENT

The school has ample boarding facilities for all the boarding pupils and teachers. In the basement of the main building is a large dining hall capable of seating over two hundred people. Here the pupils are seated in groups of eight



CHS

'25
'25
CHS
CSH
CH

Team Captains

to a table with a hostess in charge, usually a senior. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes this to be an important part of an education. By buying groceries by wholesale and by economic management, the school has been able to give very substantial board at $15 a month.

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department in our school has fully met the expectations of the State Department of Education at Raleigh, which established it three years ago, and will be continued next year. The graduates of this department have been very successful in securing good positions to teach. Wake County has provided a very elaborate equipment for the department in our new Vocational Building, and the State requires an outstanding teacher for the position.

By taking this course, a pupil gets the equivalent of a year of college work toward securing a certificate to teach. A graduate of an accredited high school, upon completion of the course, is granted an elementary certificate Class A. A graduate of a non-standard high school is granted an elementary B certificate. The course covers a period of nine school months. Graduates from this department are granted diplomas from the high school as well as the certificate from the State Department at Raleigh; and if they wish to continue their education in college, credit is given for the work done in this department.

AGRICULTURE AND HOME ECONOMICS

These departments occupy spacious quarters in the new vocational building. The entire first floor and one large room in the basement, making in all nine rooms, are devoted to the work of these departments. These rooms are furnished with the most modern equipment for teaching agriculture and home economics and place the school in the forefront of high schools in the South doing this class of work.

Football Team

For agriculture, there are two large classrooms provided with individual desks, cabinets, lantern, running water, etc. Between these two is a room which is used as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and is equipped with cream separators, testers, incubators, etc. Five rooms are used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision was made in the new building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of the new building are devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing has been provided.

Three other large rooms on the second floor of this building are occupied by the teacher-training department and two grades of the elementary school.

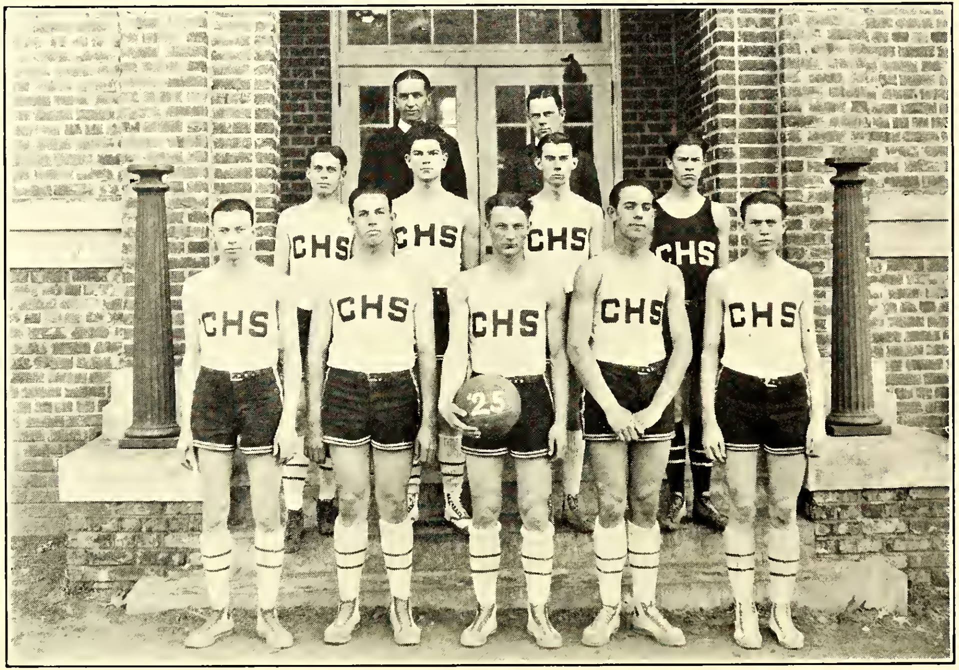
MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

Band music is available to the pupils in the school at small cost. The town of Cary is fortunate in having a well organized band with regular instruction given by a recognized band leader. Provision will be made for instruction in violin if pupils desire it.

Teachers have been employed who will give lessons in art and expression to those who desire instruction in these subjects.

Public school music has now become an established feature of the school and a trained teacher is employed to give her whole time to it. It is required of all pupils and there is no charge for it.



Boys' Basketball

A gold medal is given annually by Rev. C. H. Norris to the pupil doing best work in piano for the year.

COMMERCIAL

The work of the Commercial Department at present includes only typewriting. Six Remington typewriters and suitable tables and chairs make up the equipment for this department. The touch system, now universally recognized as the most efficient method of operating the keyboard, is used exclusively as a basis of work, and the high standards set in the text, "New Rational Typewriting," are carefully observed.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. To be able to use a typewriter or to play in a band is frequently the means of a student's being able to pay his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given toward graduation for work done in these special departments.

STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, a former member of the school, gives annually a medal to the member of the boys' societies delivering the best oration on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives annually a medal for the best debater in the girls' societies on the occasion of Commencement. The boys' societies also give a debaters' medal to the best debater at Commencement. The school enters each year the State Triangular Debate, the speakers being chosen

Baseball Team

in a preliminary debate open to all members of the four societies. All high school pupils, unless excused by the Superintendent, are required to join one of the societies. The membership is determined by lot to avoid overcrowding in any one society.

SCHOLARSHIP MEDAL

Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to compete for this medal.

SOCIETY TROPHY

The Faculty during the fall of 1923 provided a beautiful trophy cup to be awarded annually in November to the Clay or Calhoun Society winning in a public debate, with the proviso that the cup shall become the permanent possession of the society winning three out of five debates. The Calhouns won the debate in 1923; the Clays won in 1924.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports of every kind. A baseball diamond on a neighboring hill besides tennis courts for both boys and girls, and playground apparatus on the school campus are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The new athletic field has been provided with a fence and a grandstand and is used exclusively by the high school for football, baseball, and track.

Letters are awarded by the Athletic Association to the players meeting certain requirements in football, basketball, baseball, tennis, and track.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment.

Track Team

NEW GYMNASIUM

During the spring of 1925, a gymnasium was erected on the southwest corner of the campus at a cost of about $12,000. The building is of brick veneer and has ample floor space for basketball and the physical training work of the school. The building is provided with dressing rooms, shower baths, spectators' seats, and a shop 25 by 50 feet in the basement for the agricultural department of the school. The building has been named in honor of Cary's most distinguished and beloved citizen, Dr. J. M. Templeton, and will be officially known as the Dr. J. M. Templeton Building for Physical Training.

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms. A deposit of $5 is required to cover damage to rooms in the dormitories. This amount is returned to the occupant at the close of the session if the room is left in satisfactory condition.

Do not request that books be charged, but furnish pupils with about $8 to cover cost of books.

Unless there is objection from parents, boarding pupils are expected to attend Sunday school and church.

Smoking in any of the school buildings or on the school grounds is prohibited.

The shool operates a moving picture machine. The films are furnished by the State Department of Education and are shown each Thursday night. There are no other movies in Cary.

SPECIAL NOTES

Last session 236 high school pupils were enrolled and 402 in the elementary school, making a total enrollment of 638. There were 159 boarders from 26 counties and five states. The graduating class numbered 41. Twenty-seven teachers were employed to do the work of the school.

The dormitory for girls is of brick and is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak washstand, two single beds with felt mattresses, a table with double drawers, and two chairs.

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) A large and substantial main building with 33 rooms. (2) A handsome vocational building with 18 rooms and splendid equipment. (3) Two brick dormitories, one for girls and one for boys. (4) New gymnasium building. (5) All buildings heated by steam. (6) Running water in all the buildings. (7) Bored well on campus. (8) Spacious classrooms lighted on one side. (9) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (10) An auditorium that will seat eight hundred or more, with a gallery and splendid stage and scenery. (11) Laboratories with individual desks, gas, running water, etc. (12) A complete playground equipment for the whole school. (13) Splendid domestic science equipment. (14) An ample force of trained teachers to do the work of the school. (15) All the special departments to be found in the large city schools.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 50c a year or 10c a copy. The title of the paper is *C. H. S. Echoes.* The class also publishes an annual, in book form, which is highly prized by the members.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913 by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

The school has lost none of its pestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory.

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and science. It contains 18 rooms and cost $45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and is known officially as the Walter Hines Page Building for Vocational Training.

The most recent building erected on the campus is the gymnasium, which was completed during the spring of 1925 at a cost of about $12,000. For description of this building, see page 41.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth $240,000.

CARY HIGH SCHOOL

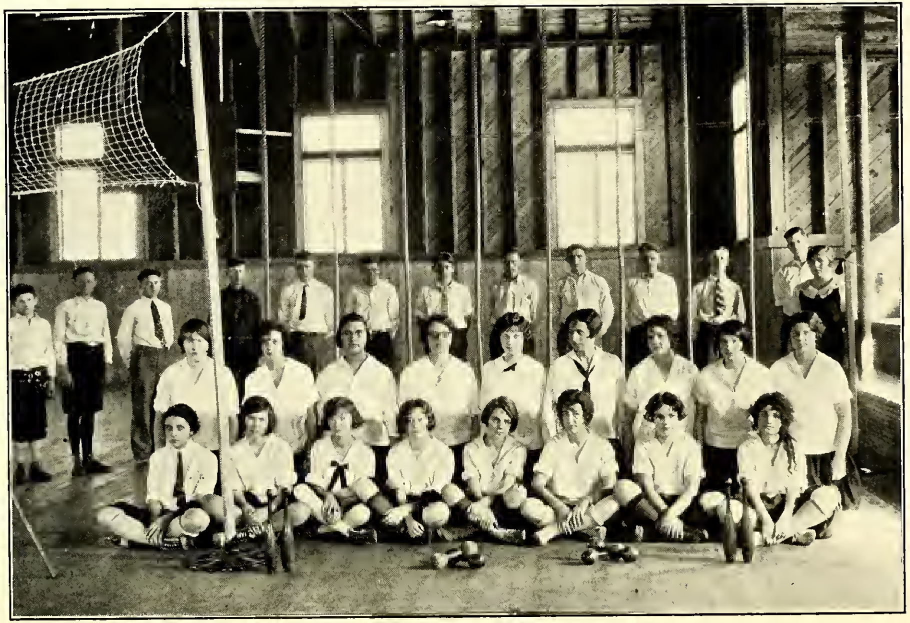
FOREWORD

The Cary High School presents to the public this its thirtieth annual catalogue in the belief that the high standard of excellence reached in the past will be fully maintained during the session of 1926-1927. So far the school has lost none of its prestige as a boarding school, large numbers still coming from outside the local district and many from other counties and states. The school is unusually well equipped for caring for nonresident pupils. With two large brick dormitories, a common boarding hall for both teachers and pupils, with an ample teaching force and adequate physical equipment, the school is abundantly able to care for a large boarding patronage.

A boarding school affords numerous advantages over a school purely local. The boarding students generally are the picked representatives of their communities; the dormitory life and the mingling of pupils and teachers in the dining hall afford a training even more valuable than that obtained from textbooks, while the organized life of the students in the literary societies, Y. M. C. A., Y. W. C. A, athletic clubs, music clubs, science clubs, etc., means vastly more to the pupils than in a purely local school. Then, too, pupils freed from home duties and home distractions have better opportunities for study; and when they have finished the high school, the transition to college life is less abrupt. Many boys and girls need the discipline of dormitory life, to say nothing of correct table manners and social etiquette.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done.



Class in Physical Education

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Music, Expression, Voice, Art, Teacher-training, Typewriting, Physical Training.

To receive a diploma of graduation a pupil must have completed sixteen units of work as outlined below:

First Year
- English
- Arithmetic (First Semester)
- Algebra (Second semester)
- Civics
- Elect one
  - General Science
  - Agriculture
  - Home Economics

Second Year
- English
- Algebra
- Biology
- Elect one
  - World History
  - Agriculture
  - Home Economics

Third Year
- English
- Elect two
  - Plane Geometry
  - Chemistry
  - History
- Elect one
  - Latin
  - French
  - Agriculture

Fourth Year
- English
- American History and American Government
- Physics
- Elect one
  - Latin
  - French
  - Agriculture

In the above all subjects are given five times a week. All sciences have three class periods and two laboratory periods, while agriculture and home economics classes have five laboratory periods per week. All class periods are 45 minutes and all laboratory periods are 90 minutes each. A unit's credit is allowed for a year's work in each subject listed above except that a year in agriculture counts for a unit and a half. A half unit is allowed for a year in music, expression, art, typewriting or physical training.

Cicero and Virgil are offered to those who wish them or need them for college entrance.

Although plane geometry is elective, it must be taken by pupils who expect to enter college. Of the six units of foreign language offered, at least four are needed for college entrance.

Dramatic Club

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), through page 36.

English Texts—Sentence and Theme (Ward).

English Classics for Study—Literature and Life, Book I (Greenlaw and others).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel,* 1; *The Talisman,* 2 (Scott); *Lays of Ancient Rome,* 2 (Macaulay); *Rebecca of Sunnybrook Farm,* 1 (Wiggin); *The Call of the Wild,* 1 (London); *Robinson Crusoe,* 2 (DeFoe); *Uncle Remus Stories,* 1 (Harris); *Little Men or Little Women,* 2 (Alcott); *The Story of the Other Wise Man,* 2 (Van Dyke); *Kidnapped,* 2 (Stevenson); *The Old Curiosity Shop,* 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart.) *First Semester. Complete Algebra* (Slaught and Lennes), through Chapter V. *Second Semester.*

Science—General Science (Caldwell and Eikenberry).

Civics—Text-book in Citizenship (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), completed.

English Texts—Practical English (Lewis and Hosic).

English Classics for Study—Literature and Life, Book II (Greenlaw & Stratton).

English Classics for Reading—(12 credits required): *The Lady of the Lake,* 2 (Scott); *Herve Reil,* 1 (Browning); *Franklin's Autobiography,* 2; *The Last of the Mohicans,* 2 (Cooper); *Tom Brown's School Days,* 3 (Hughes); *Iliad of*

Girls' Glee Club

Homer, 3 (Pope); *The Cloister and the Hearth,* 2 (Reade); *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale); *The DeCoverley Papers,* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *The Virginian,* 2 (Wister); *Wild Animals I Have Known,* 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—Complete Algebra (Slaught and Lennes) through chapter XXI.

History—World History (Webster).

Science—Biology for High Schools (Smallwood and others).

Agriculture—A Study of Farm Animals (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—Dietetics for High School (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—High School Word Book (Sandwick and Bacon), Part I.

English Texts—Written and Spoken English (Clippinger).

English Classics for Study—Literature and Life, Book III (Greenlaw & Miles).

English Classics for Reading—(15 credits required): *The Marble Faun,* 3 (Hawthorne); *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2; *Æneid,* 2 (Harrison); *Captains Courageous,* 2 (Kipling); *Sohrab and Rustum,* 2 (Arnold); *The Oregon Trial,* 2 (Parkman); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Rock* or *In Old Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *Poems and Tales,* 3 (Poe); one Play of Shakespeare not previously read, 2.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—First Year Latin (Collar and Daniell) through Chapter XLIX, or *Cicero's Orations* (Gunnison and Harley), *Four Orations against Catiline; The Manilian Law; The Citizenship of Archias.*

Boys' Glee Club

Science—Chemistry of Common Things (Brownlee and others).

French—The Phonetic Chardenal French Course (Brooks); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics.*

FOURTH YEAR

Spelling—High School Word Book (Sandwick and Bacon). Part II.

English Texts—Century Handbook of Writing (Crever & Jones).

English Classics for Study—Literature and Life, Book IV (Greenlaw and others).

English Classics for Reading—(20 credits required): *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); *Sesame and Lilies,* 3 (Ruskin); *The Ancient Mariner,* 2 (Coleridge); *Bunker Hill Oration,* 2 (Webster); *Education and Citizenship,* 2 (Graham); *Lorna Doone,* 2 (Blackmore); *Heart of the West,* 2 (O. Henry); *The Vicar of Wakefield,* 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class.

Latin—First Year Latin (Collar & Daniell) *Completed; Caesar, Books I-IV* (D'Ooge & Eastman), or *Virgil* (Bennett), Six Books.

History—History of U. S. (Beard & Beard).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—The New Chardenal French Course (Brooks); *Fifteen French Plays* (Francois); *Le Voyage de M. Perrichon* (Labiche & Martin); *Eight French Stories* (Manley).

Agriculture—Farm Management (Warren); *Farm Engineering.* Farm shop work is given throughout the four years

FOOTBALL SQUAD

to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

Boys' Basketball

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition of $5.00 per month in the high school and $3.00 in the elementary school. This charge, which is made by order of the County Board of Education, applies to all High Schools in the county. Pupils in the Teacher-training Department, whether inside or outside the county, are not subject to tuition.

Each pupil in the dormitories should bring the following: Two white counterpanes, four sheets, three pillow cases, two blankets or quilts, one glass, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories must deposit $1.00 to show good faith. This amount will be deducted from the first month's rent. Rooms, however, will not be held longer than September 3, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

Boarding teachers room in the dormitories and pay the same rates as pupils.

THE BOARDING DEPARTMENT

The school has ample boarding facilities for all the boarding pupils and teachers. In the basement of the main building is a large dining hall capable of seating over two hundred people. Here the pupils are seated in groups of eight to a table with a hostess in charge, usually a senior. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes these things to be an important part of an education. By buying groceries by wholesale and by economic management, the school has been able to give very substantial board at $15 a month.

Girls' Basketball

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department in our school has fully met the expectations of the State Department of Education at Raleigh, which established it four years ago, and will be continued next year. The graduates of this department have been very successful in securing good positions to teach. Wake County has provided a very elaborate equipment for the department in our new Vocational Building, and the State requires an outstanding teacher for the position.

By taking this course, a pupil gets the equivalent of a year of college work toward securing a certificate to teach. A graduate of an accredited high school upon completion of the course, is granted an elementary certificate Class A by the State Department of Education. A graduate of a non-standard high school is granted an elementary B certificate. The course covers a period of nine school months. To graduates from this department, credit is given if they wish to continue their education in college.

AGRICULTURE AND HOME ECONOMICS

These departments occupy spacious quarters in the new vocational building. The entire first floor and one large room in the basement, making in all nine rooms, are devoted to the work of these departments. These rooms are furnished with the most modern equipment for teaching agriculture and home economics and place the school in the forefront of high schools in the South doing this class of work.

For agriculture there are two large classrooms provided with individual desks, running water, lantern, etc., with a supply room adjoining each. Between these is a room which serves as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and is equipped with cream separators, testers, etc. Since the last catalogue was issued, a hatchery with a capacity of over 12,000 eggs has been installed in this room

Baseball Squad

and is owned by the Cary Poultry Association, an organization of farmers in the community, and operated by the teachers and students of agriculture in the school.

Five rooms are used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision was made in the new building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of the new building are devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing, has been provided.

Three other large rooms on the second floor of this building are occupied by the teacher-training department and two grades of the elementary school.

MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

Teachers have been employed who will give lessons in art and expression to those who desire instruction in these subjects.

Public school music has now become an established feature of the school for which a trained teacher is employed. There is no extra charge for it.

A gold medal is given annually by Rev. C. H. Norris to the pupil doing best work in piano for the year.

COMMERCIAL

The work of the Commercial Department at present includes only typewriting. Six Remington typewriters and suitable tables and chairs make up the equipment for this department.

Track Candidates

The touch system, now universally recognized as the most efficient method of operating the keyboard, is used exclusively as a basis of work, and the high standards set in the text, "New Rational Typewriting," are carefully observed.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. To be able to use a typewriter is frequently the means of a student's being able to pay his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given for work done in these special departments.

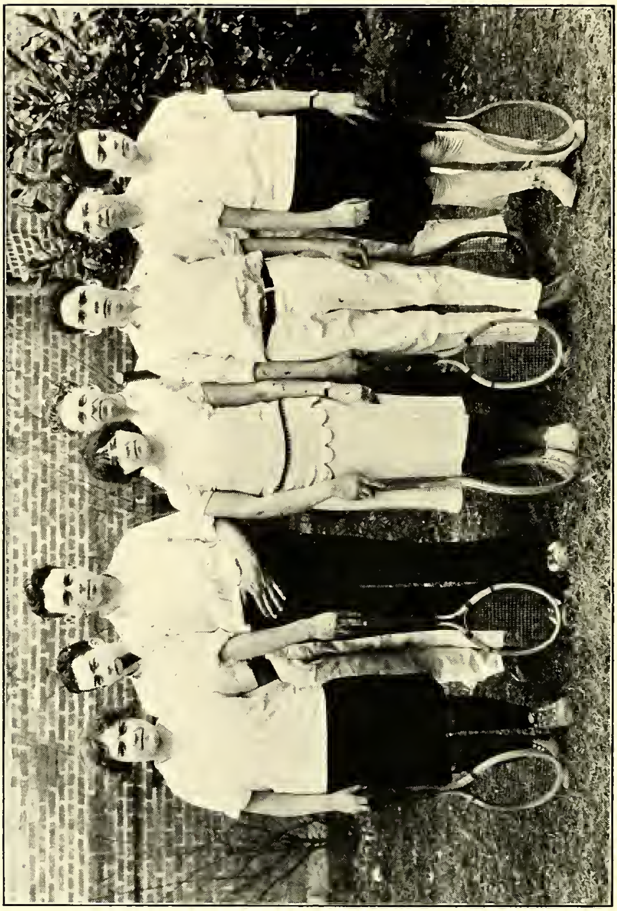
STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, an alumnus of the school, gives annually a medal to the member of the boys' societies making the best speech in debate on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives a similar medal for the best debater in the girls' societies. The school enters each year the State Triangular Debate, the speakers being chosen in a preliminary debate open to all members of the four societies. All high school pupils, unless excused by the Superintendent, are required to join one of the societies. The membership is determined by lot to avoid overcrowding in any one society.

SCHOLARSHIP MEDALS

Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to com-



Tennis Club

pete for this medal. Mr. T. Ivey gives a gold medal for the best work in Latin. The Junior Order of Cary gives a medal for highest grade made during the year in the Seventh Grade.

SOCIETY TROPHIES

The Faculty during the fall of 1923 provided a beautiful trophy cup to be awarded annually in November or December to the Clay or Calhoun Society winning in a public debate, with the proviso that the cup shall become the permanent possession of the society winning three out of five debates. The Calhouns won the cup in 1923, the Clays in 1924, and the Calhouns again in 1925.

During the last session, the Parent-Teachers Association provided in similar cup for the girls of the Lowell and Irving Societies. In the first debate in February, 1926, the Irvings won.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports of every kind. A baseball diamond on a neighboring hill besides tennis courts for both boys and girls, and playground apparatus on the school campus are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

The new athletic field has been provided with a fence and a grand stand and is used exclusively by the high school for football, baseball, and track.

Letters are awarded by the Athletic Association to the players meeting certain requirements in football, basketball, baseball, tennis, and track.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment.

Team Captains

THE GYMNASIUM

During the spring of 1925, a gymnasium was erected on the southwest corner of the campus at a cost of about $12,000. The building is of brick veneer and has ample floor space for basketball and the physical training work of the school. The building is provided with dressing rooms, shower baths, spectators' seats, and a shop 25 by 50 feet in the basement for the agricultural department of the school. The building has been named in honor of Cary's most distinguished and beloved citizen, Dr. J. M. Templeton, and will be officially known as the Dr. J. M. Templeton Building for Physical Training.

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms. A deposit of $5 is required to cover damage to rooms in the dormitories. This amount is returned to the occupant at the close of the session if the room is left in satisfactory condition.

Do not request that books be charged, but furnish pupils with about $8 to cover cost of books.

Boarding pupils are expected to attend Sunday school and church.

Class in Agriculture

Smoking in any of the school buildings or on the school grounds is prohibited.

The school owns a moving picture machine, and occasionally films furnished by the State Department of Education and having an educational value are shown in the school auditorium.

SPECIAL NOTES

Last session 243 high school pupils were enrolled and 470 in the elementary school, making a total of 713. There were 162 boarders from 28 counties and three states. The graduating class numbered 57, including the 11 graduates from the Teacher-training Department. Twenty-nine teachers were employed to do the work of the school.

The dormitory for girls is of brick and is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak washstand, two single beds with felt mattresses, a table with double drawers, and two chairs.

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

Summarizing, we wish to stress the following features of the school, several of which are illustrated by cuts in this catalogue: (1) A large and substantial main building with 33 rooms. (2) A handsome vocational building with 18 rooms and splendid equipment. (3) Two brick dormitories, one for girls and one for boys. (4) New gymnasium building. (5) All buildings heated by steam. (6) Running water in all the buildings. (7) Bored well on campus. (8) Spacious classrooms lighted on one side. (9) Tablet arm chairs for the high school and individual lockers for books, tablets, etc. (10) An auditorium that will seat eight hundred or more, with a gallery and splendid stage and scenery. (11) Laboratories with individual desks, gas, running water, etc. (12) Splendid domestic science equipment. (13) An ample force of trained teachers to do the work of the school. (14) All the special departments to be found in the large city schools.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 50c a year or 10c a copy. The title of the paper is *C. H. S. Echoes.* The class also publishes an annual, in book form, which is highly prized by the members.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913 by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In 1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

The school has lost none of its prestige as a boarding school, for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large and growing territory.

Teacher Training Department

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a modern brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and science. It contains 18 rooms and cost $45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and is known officially as the Walter Hines Page Building for Vocational Training.

The most recent building erected on the campus is the gymnasium, which was completed in the spring of 1925 at a cost of about $12,000. For description of this building, see page 33.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth $240,000.

The town of Cary has recently installed a water and sewerage system at a cost of $150,000, thus materially enhancing the desirability of the town as a place of residence. Electric lights, electric power and telephones have been in use for several years. Recently the Baptist and Methodist denominations of the town have provided themselves with new brick church houses with every modern convenience and fully in keeping with the school buildings described in this catalogue.

GRADUATING CLASS OF 1927

ACADEMIC DIPLOMA

Bessie Allen	Cary, N. C.
Emogene Baucom	Cary, N. C.
W. R. Beach, Jr.	Cary, N. C.
Belvin Blalock	R. 1, McCullers, N. C.
Katie Blanchard	Cary, N. C.
Una Mae Davis	Varina, N. C.
Hallie Dry	Cary, N. C.
Wilson Farrell	Cary, N. C.
Annie Hayes	Cary, N. C.
Alex Houston	1304 Hillsboro St., Raleigh, N. C.
Joyner Jackson	Cary, N. C.
Mildred Jones	Cary, N. C.
Philip Jones	R. 4, Raleigh, N. C.
Addie Mae Kendall	Goldsboro, N. C.
Pansy Moore	Cary, N. C.
William Pleasants	R. 2, Cary, N. C.
Hazel Reams	R. 1, Morrisville, N. C.
Elizabeth Smith	R. 1, McCullers, N. C.
William Smith	Cary, N. C.
Bessie Watson	Aurora, N. C.

HOME ECONOMICS DIPLOMA

Bessie Allen	Cary, N. C.
Hattie Mae Bagwell	R. 4, Raleigh, N. C.
Katie Blanchard	Cary, N. C.
Mildred Jones	Cary, N. C.
Wava Keith	R. 1, Cary, N. C.
Pansy Moore	Cary, N. C.
Clareene Murray	R. 2, Apex, N. C.
Pansy Rogers	Cary, N. C.

AGRICULTURE DIPLOMA

Raymond Bagwell	R. 4, Raleigh, N. C.
Frank Fetner	406 Glenwood Ave., Raleigh, N. C.
Walter Stevens	R. 4, Raleigh, N. C.

HOME ECONOMICS CERTIFICATE

Lois Ellington	Salisbury, N. C.

AGRICULTURE CERTIFICATE

John Lee Hester	R. 2, Neuse, N. C.

ACADEMIC CERTIFICATE

Laverne Ellington	Cary, N. C.

TEACHER TRAINING DIPLOMA

Ina Beach	Cary, N. C.
Pauline Beddingfield	R. 1, Raleigh, N. C.
Alma Brooks	R. 1, Roxboro, N. C.
Leonie Blalock	Varina.., N. C.
Jewell Hinnant	R. 3, Clayton, N. C.
Mildred Hinnant	R. 3, Clayton, N. C.
Alma Partin	R. 5, Raleigh, N. C.
Irene Segroves	R. 2, New Hill, N. C.
Gertrude Straughan	R. 2, Raleigh, N. C.
Leona Todd	Wendell, N. C.
Nell Waldo	Cary, N. C.
Reba Womble	R. 4, Raleigh, N. C.

Note. The following students, by removing certain conditions during the summer in a summer school, are entitled to diplomas:

Carl Bowden	R. 2, Wake Forest, N. C.
Foye Hodge	R. 2, Wake Forest, N. C.
Anton Phillips	630 E. Franklin St., Raleigh, N. C.
Fletcher Turner	Raleigh, N. C.

WINNERS OF MEDALS

Scholarship—High School	Marie Murray
Scholarship—Elementary School	Ernest Northcutt
Boys' Debate	Belvin Blalock
Girls' Debate	Martha Castlebury
Declamation	Carl Bowden
Recitation	Frances Sorrell
Clay Improvement	Wilson Fonville
Calhoun Improvement	Wilson Farrell
Lowell Improvement	Pansy Moore
Irving Improvement	Bessie Watson
Music Medal	Frances Sorrell
Latin Medal	Katie Blanchard

OTHER HONORS

Excellence in Typewriting	Mildred Jones
Winner of Faculty Cup in Debate	Clay Society
Winner of Parent-Teacher Cup in Debate	Irving Society
Winner of Boys' Commencement Debate	Calhoun Society
Winner of Girls' Commencement Debate	Irving Society

Cary High School wins both debates in the State Triangular Debate.

Cary Farm Life Department wins a radio set in a state-wide contest.

GYMNASIUM

CARY HIGH SCHOOL

FOREWORD

The Cary High School presents to the public this its thirty-first annual catalogue in the belief that the high standard of excellence reached in the past will be fully maintained during the session of 1927-1928. So far the school has maintained its prestige as a boarding school, large numbers still coming from outside the local district and many from other counties and states. The school is unusually well equipped for caring for nonresident pupils. With two large brick dormitories, a common boarding hall for both teachers and pupils, with an ample teaching force and adequate physical equipment, the school is abundantly able to care for a large boarding patronage.

A boarding school affords numerous advantages over a school purely local. The boarding students generally are the picked representatives of their communities; the dormitory life and the mingling of pupils and teachers in the dining hall afford a training even more valuable than that obtained from textbooks, while the organized life of the students in the literary societies, athletic clubs, music clubs, science clubs, etc., is of inestimable value. Then, too, pupils freed from home duties and home distractions have better opportunities for study; and when they have finished the high school, the transition to college life is less abrupt. Many boys and girls need the discipline of dormitory life, to say nothing of correct table manners and social etiquette.

ENTRANCE REQUIREMENTS

County seventh grade graduates are admitted to the high school without examinations. All others must bring certificate from former teachers showing work that has been done.

COURSES OF STUDY

Instruction in the High School is offered in the following subjects: English, Mathematics, History, Latin, Science, French, Agriculture, Home Economics, Expression, Piano, Violin, Voice, Teacher-training, Typewriting and Stenography, Physical Education.

To receive a diploma of graduation a pupil must have completed sixteen units of work as outlined below:

First Year
English
Arithmetic (First Semester)
Alegbra (Second Semester)
Civics
Elect one
General Science
Agriculture
Home Economics
Latin

Second Year
English
Algebra
Biology
Elect one
World History
Agriculture
Home Economics
Latin

Third Year
English
Elect two
Plane Geometry
Chemistry
History
Elect one
Latin
French
Agriculture

Fourth Year
English
American History
and
American Government
Physics
Elect one
Latin
French
Agriculture

In the above all subjects are given five times a week. All sciences have three class periods and two laboratory periods, while agriculture and home economics classes have five laboratory periods per week. All class periods are 45 minutes and all laboratory periods are 90 minutes each. A unit's credit is allowed for a year's work in each subject listed above except that a year in agriculture counts for a unit and a half. A half unit is allowed for a year in music, expression, typewriting, stenography, or physical education.

Cicero and Virgil are offered to those who wish them or need them for college entrance.

Although plane geometry is elective, it must be taken by pupils who expect to enter college. Of the six units of foreign language offered, at least four are needed for college entrance.

OUTLINE COURSE OF STUDY

FIRST YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), through page 36.

English Texts—Sentence and Theme (Ward).

English Classics for Study—Literature and Life, Book I (Greenlaw and others).

English Classics for Reading—(10 credits required): *The Lay of the Last Minstrel,* 1; *The Talisman,* 2 (Scott); *Lays of Ancient Rome,* 2 (Macaulay); *Rebecca of Sunnybrook Farm,* 1 (Wiggin); *The Call of the Wild,* 2 (London); *Robinson Crusoe,* 2 (DeFoe); *Uncle Remus Stories,* 1 (Harris); *Little Men or Little Women,* 2 (Alcott); *The Story of the Other Wise Man,* 2 (Van Dyke); *Kidnapped,* 2 (Stevenson); *The Old Curiosity Shop,* 3 (Dickens).

Mathematics—New High School Arithmetic (Wells and Hart.) *First Semester. Complete Algebra* (Slaught and Lennes), through Chapter V. *Second Semester.*

Science—General Science (Caldwell and Eikenberry).

Civics—Text-book in Citizenship (Hughes).

Agriculture—Productive Farm Crops (Montgomery); *Soils and Fertilizers* (Lyon).

Home Economics—School and Home Cooking (Greer); *Textiles and Clothing* (McGowan and Waite).

SECOND YEAR

Spelling—Essentials in Spelling for High Schools (Williams, Griffin and Chase), completed.

English Texts—Practical English (Lewis and Hosic).

English Classics for Study—Literature and Life, Book II (Greenlaw & Stratton).

English Classics for Reading—(12 credits required): *The Lady of the Lake,* 2 (Scott); *Herve Reil,* 1 (Browning); *Franklin's Autobiography,* 2; *The Last of the Mohicans,* 2 (Cooper); *Tom Brown's School Days,* 3 (Hughes); *Iliad of*

Agricultural Department

Homer, 3 (Pope); *The Cloister and the Hearth,* 2 (Reade); *Tom Sawyer* or *Huckleberry Finn,* 2 (Mark Twain); *The Man Without a Country,* 1 (Hale); *The DeCoverley Papers,* 2 (Addison and Steele); *The Purloined Letter,* 1 (Poe); *Old Testament Narratives,* 2 (Rhodes); *The Virginian,* 2 (Wister); *Wild Animals I Have Known,* 2 (Seton-Thompson); One of Shakespeare's Plays not previously read, 2.

Mathematics—Complete Algebra (Slaught and Lennes) through chapter XXI.

History—World History (Webster).

Science—Biology for High Schools (Smallwood and others).

Agriculture—A Study of Farm Animals (Plumb); *Dairy Farming* (Eckles and Warren).

Home Economics—Dietetics for High School (Willard and Gillett); *Textiles and Clothing* (McGowan and Waite).

THIRD YEAR

Spelling—High School Word Book (Sandwick and Bacon), Part I.

English Texts—Written and Spoken English (Clippinger).

English Classics for Study—Literature and Life, Book III (Greenlaw & Miles).

English Classics for Reading—(15 credits required): *The Marble Faun,* 3 (Hawthorne); *A Tale of Two Cities,* 3 (Dickens); *The Sketch Book,* 3 (Irving); *Washington's Farewell Address,* 2; *Æneid,* 2 (Harrison); *Captains Courageous,* 2 (Kipling); *Sohrab and Rustum,* 2 (Arnold); *The Oregon Trial,* 2 (Parkman); *The Four Million* or *The Voice of the City,* 2 (O. Henry); *Red Rock* or *In Old Virginia,* 2 (Page); *The Rise of Silas Lapham,* 2 (Howells); *Poems and Tales,* 3 (Poe); one Play of Shakespeare not previously read, 2.

Mathematics—Plane Geometry (Wentworth-Smith).

Latin—First Year Latin (Collar and Daniell) through Chapter XLIX, or *Cicero's Orations* (Gunnison and Harley), *Four Orations against Catiline; The Manilian Law; The Citizenship of Archias.*

Typewriting Department

Science—Chemistry of Common Things (Brownlee and others).

French—Chardenal's Complete French Course, Phonetic Edition, (Brooks); *La Belle France* (Monvert).

Agriculture—Horticulture (Davis); *Farm Mechanics.*

FOURTH YEAR

Spelling—High School Word Book (Sandwick and Bacon). Part II.

English Texts—Century Handbook of Writing (Crever & Jones).

English Classics for Study—Literature and Life, Book IV (Greenlaw and others).

English Classics for Reading—(20 credits required): *Pilgrim's Progress,* 2 (Bunyan); *Vanity Fair* or *Henry Esmond,* 3 (Thackeray); *Sesame and Lilies,* 3 (Ruskin); *The Ancient Mariner,* 2 (Coleridge); *Bunker Hill Oration,* 2 (Webster); *Education and Citizenship,* 2 (Graham); *Lorna Doone,* 2 (Blackmore); *Heart of the West,* 2 (O. Henry); *The Vicar of Wakefield,* 3 (Goldsmith); one Play of Shakespeare not previously read, 2. Selections from Browning, Shelley, Keats, and Whitman, 1 each. Selections from modern drama, poetry, and essays, 1 each. Term essay, 3.

N. B.—Credit will be given for all reading over and above the minimum in each class; also for approved work in debate, declamation, recitation, C. H. S. Echoes, and the Senior annual.

Latin—First Year Latin (Collar & Daniell) *Completed; Caesar, Books I-IV* (D'Ooge & Eastman), or *Virgil* (Bennett), Six Books.

History—History of U. S. (Beard & Beard).

Civics—American Government (Magruder).

Science—Practical Physics (Millikan and Gale).

French—Chardenal's Complete French Course, Phonetic Edition, (Brooks); *Fifteen French* Plays (Francois); *Le Voyage de M. Perrichon* (Labiche & Martin); *Eight French Stories* (Manley).

Music Department

Agriculture—Farm Management (Warren); *Farm Engineering.* Farm shop work is given throughout the four years to all students taking agriculture. *The Farmer's Shop Book* (Roehl) is used as the basal text.

N. B.—The course of study for the Elementary School is not outlined here, since it is issued by the State Department of Education and can be had in bulletin form.

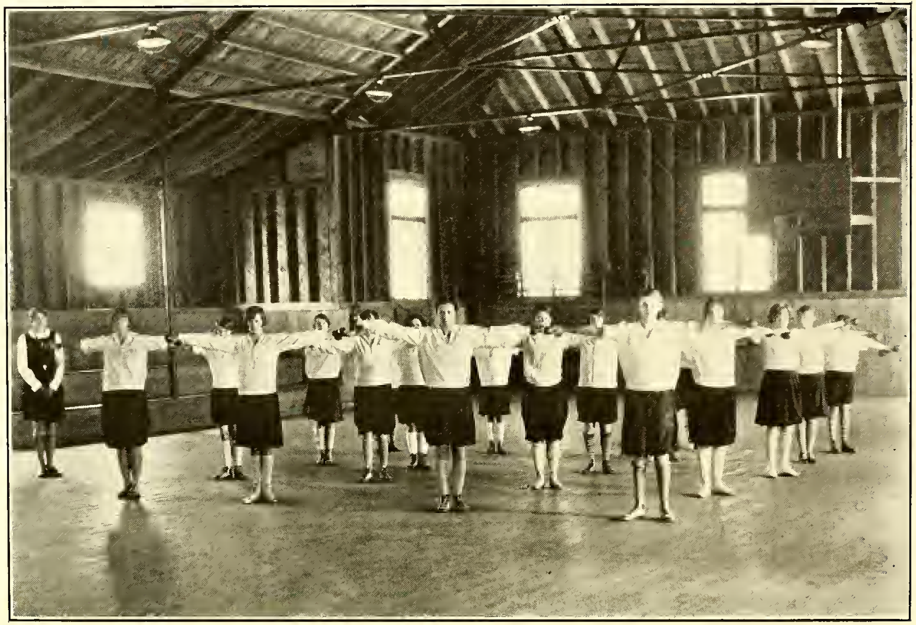
Athletics (girls)	15c
Medicine Fee (girls in dormitory)	10c
Current Events	5c



Physical Education Class

All dues are payable monthly in advance. For absence on account of sickness or other providential cause, deduction is made in tuition and board for a full week of continuous absence. A school month is four weeks or twenty-eight days.

Tuition in the High School Department is free to all pupils living in Wake County, except in special charter districts, for the first six months. For the remainder of the term there will be a charge for tuition of $5.00 per month in the high school and $3.00 in the elementary school. This charge is made by order of the County Board of Education and applies to all High Schools in the county. Students in the Teacher-training Department, whether inside or outside the county, are not subject to tuition.

Each pupil in the dormitories should bring the following: Two white counterpanes, four sheets, three pillow cases, two blankets or quilts, covers for dresser, washstand and table, curtains for window (if desired), towels, comb, brush, soap. Boys will bring pillows also.

Those desiring rooms reserved in the dormitories should notify the superintendent as early as possible. Rooms will not be held longer than September 2, except by request.

All boarding pupils must room in the dormitories unless other arrangements are made satisfactory to the committee.

Boarding teachers room in the dormitories and pay the same rates as pupils.

THE BOARDING DEPARTMENT

The school has ample boarding facilities for all the boarding pupils and teachers. The dining hall is in the basement of the main building and is capable of seating about two hundred people. Here the pupils are seated in groups of eight to a table with a hostess in charge, usually a senior. From time to time the teachers of domestic science give talks and demonstrations on table manners. The management of the school believes these things to be an important part of an education.

Science Class

SPECIAL DEPARTMENTS

TEACHER-TRAINING

This department in our school has fully met the expectations of the State Department of Education at Raleigh, which established it five years ago, and will be continued next year. The graduates of this department have been very successful in securing good positions to teach. Wake County has provided a very elaborate equipment for the department in our Vocational Building, and the State requires an oustanding teacher for the position.

By taking this course, a student gets the equivalent of a year of college work toward securing a certificate to teach. A graduate of an accredited high school upon completion of the course, is granted an elementary certificate Class A by the State Department of Education. A graduate of a non-standard high school is granted an elementary B certificate. The course covers a period of nine school months. To graduates from this department, credit is given if they wish to continue their education in college.

AGRICULTURE AND HOME ECONOMICS

These departments occupy spacious quarters in the Vocational Building. The entire first floor and one large room in the basement, making in all nine rooms, are devoted to the work of these departments. These rooms are furnished with the most modern equipment for teaching agriculture and home economics and place the school in the forefront of high schools in the South doing this class of work.

For agriculture there are two classrooms provided with individual desks, running water, lantern, etc., with a supply room adjoining each. Between these is a room which serves as a combination library, reading room and office. In the basement a large room has been provided for the animal husbandry work and is equipped with cream separators, testers, etc. A hatchery with a capacity of over 12,000 eggs has been installed in this room and is owned by the Cary Poultry Association, an organ-

Elementary School

ization of farmers in the community, and operated by the teachers and students of agriculture in the school. Another hatchery of 9,000 capacity will be installed for next season.

Five rooms are used by the Home Economics Department as follows: Cooking laboratory, dining room, sewing room, fitting room and library. The rooms are provided with running water, cabinets, tables, desks, bookcases, cooking stoves and cooking utensils, china, sewing machines, ironing boards, mirrors, etc.

Science being the basic subject for both agriculture and home economics, ample provision was made in the Vocational Building for teaching it by the laboratory method. In addition to the laboratory and lecture room already in use in the main building, four other rooms on the second floor of this building are devoted exclusively to science, and an elaborate equipment in desks, cabinets, physical, chemical and biological apparatus, etc., with suitable plumbing, has been provided.

The teacher training department is housed in this building on the second floor.

MUSIC

The Piano Department has long been one of the prominent features of the school. Only teachers of recognized musical attainments are employed for this work. A music studio, six practice rooms and seven pianos constitute the equipment.

A teacher has been employed who will give lessons in expression to those who desire instruction in this subject. Also arrangements have been made to have violin taught again next session.

Public school music has now become an established feature of the school for which a trained teacher is employed. There is no extra charge for it.

A gold medal is given annually by Rev. C. H. Norris to the pupil doing best work in piano for the year.

COMMERCIAL

The work of the Commercial Department last year included only typewriting. The school is planning to add stenography and probably bookkeeping next session. Six Remington type-

Boys' Glee Club

writers and suitable tables and chairs make up the equipment for this department.

The average high school pupil can find time, in addition to his regular course, to take at least one of the special subjects outlined above, and a very bright pupil might take more than one. Ability to use a typewriter has frequently been the means by which a student has paid his way through college. Every girl ought to learn to play the piano and to sing, and every boy ought to learn to play some kind of musical instrument as well as to sing.

Credit is given for work done in these special departments.

STUDENT ACTIVITIES

LITERARY SOCIETIES

The school has four literary societies, two for boys and two for girls. The girls meet Thursday afternoons and the boys on Monday nights. Each society gives a medal at Commencement for most improvement during the year. The boys' societies give jointly a medal for the best declamation and the girls' societies one for the best recitation. Mr. H. P. Smith, an alumnus of the school, gives annually a medal to the member of the boys' societies making the best speech in debate on the occasion of Commencement. Miss Lillian Killingsworth, formerly Lady Principal of the school, gives a similar medal for the best debater in the girls' societies. The school enters each year the State Triangular Debate, the speakers being chosen in a preliminary debate open to all members of the four societies. All high school pupils, unless excused by the Superintendent, are required to join one of the societies. The membership is determined by lot to avoid overcrowding in any one society.

SCHOLARSHIP MEDALS

Besides those mentioned above, a medal is given annually by the Superintendent for the highest average grade in scholarship for the year. Any pupil in the high school is eligible to compete for this medal. Mr. T. Ivey gives a gold medal for the best work in Latin. The Junior Order of Cary gives a medal for highest grade made during the year in the Seventh Grade.

Girls' Glee Club

SOCIETY TROPHIES

The Faculty during the fall of 1923 provided a beautiful trophy cup to be awarded annually in November or December to the Clay or Calhoun Society winning in a public debate, with the proviso that the cup shall become the permanent possession of the society winning three out of five debates. The Calhouns won the cup in 1923, the Clays in 1924, the Calhouns in 1925, and the Clays in 1926.

In 1925, the Parent-Teacher Association provided a similar cup for the girls of the Lowell and Irving Societies. In the first debate in February, 1926, the Irvings won. They also won again in 1927.

ATHLETICS

Believing strongly in the proper development of the physical powers of the boy or girl along with the mental and moral, the school has made ample provision for healthful sports of every kind. A baseball diamond, tennis courts and basketball courts for both boys and girls, and playground apparatus on the school campus and in the gymnasium are amply sufficient to keep all the pupils occupied with some sort of healthful exercise at recreation periods.

Letters are awarded by the Athletic Association to the players meeting certain requirements in football, basketball, baseball, tennis, and track.

The school committee gives every encouragement and assistance to the various forms of athletics, providing the teams with uniforms and other equipment.

THE GYMNASIUM

During the spring of 1925, a gymnasium was erected on the southwest corner of the campus at a cost of about $12,000. The building is of brick veneer and has ample floor space for basketball and the physical training work of the school. The building is provided with dressing rooms, shower baths, spectators' seats, and a shop 25 by 50 feet in the basement for the department of agriculture. The building has been named in honor of Cary's most distinguished and beloved citizen, Dr. J. M. Templeton, and is officially known as the Dr. J. M. Templeton Building for Physical Education.

Dramatic Club

EXAMINATIONS AND REPORTS

At the end of each quarter, written examinations are given on all work gone over during the quarter and reports of scholarship, deportment, etc., are mailed to parents or guardians. The pass mark is 75.

MISCELLANEOUS

Parents should see to it that their children are present on the opening day. Late entrance is the cause of much discouragement and many failures.

Boarding pupils are not allowed to leave Cary without the permission of the Principal in charge.

Parents who find their children spending more money at Cary than is necessary should notify the Superintendent.

No form of hazing is allowed.

No unnecessary communication between the boarding girls and the boys of the school or town is permitted.

Pupils in the dormitories are held responsible for all damage to school property in their rooms. A deposit of $5 is required to cover damage to rooms in the dormitories. This amount is returned to the occupant at the close of the session if the room is left in satisfactory condition.

Do not request that books be charged, but furnish pupils with about $8 to cover cost of books.

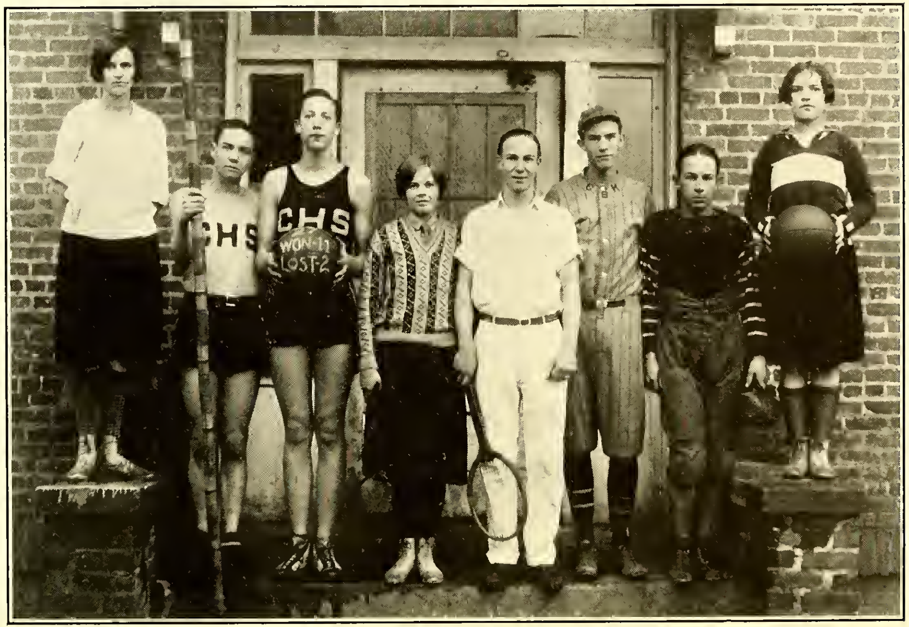
Boarding pupils are expected to attend Sunday school and church.

Smoking in any of the school buildings or on the school grounds is prohibited.

The school owns a moving picture machine, and occasionally films furnished by the State Department of Education and having an educational value are shown in the school auditorium.

THE DORMITORIES

The dormitory for girls is of brick and is furnished with neat and attractive furniture, each room being provided with a closet and containing an oak dresser, an oak washstand, two single beds with felt mattresses, a table with double drawers, and two chairs.



CHS
CHS
WON-11
LOST-2

TEAM CAPTAINS

The brick dormitory for boys has practically the same conveniences as the girls' dormitory. Both dormitories are provided with steam heat, electric lights, running water (hot and cold), baths, etc. The boys' dormitory has shower baths.

C. H. S. ECHOES

The Senior Class publishes monthly during the school year a school paper of interest to the former pupils, and to the patrons and friends of the school. The subscription price is 50c a year or 10c a copy. The title of the paper is *C. H. S. Echoes.* The class also publishes an annual, in book form, which is highly prized by the members.

A few copies of the 1927 Annual are still on hand and can be had at the regular subscription price of $2.25.

HISTORY

The Cary High School had its origin back in the last century and was owned and controlled by a stock company. In 1907, the owners of the property sold their stock to the county, and the school was converted into a State high school, the first to be established under the high school law of 1907. The official name was changed from the Cary High School to the Cary Public High School. In 1913 by special act of the legislature, providing for farm-life instruction in Wake County, there were added to the school the departments of agriculture and domestic science, the name of the school being changed from the Cary Public High School to the Cary Public High School and the E. L. Middleton Farm-Life School.

The old Cary High School ranked as one of the leading high schools of the State in its day. With a large two-story wooden building, with good boarding facilities in dormitories and in the homes of the citizens of Cary, the school drew patronage from a large section of the State.

Among the first teachers of the school were A. H. Merritt, Rev. Solomon Pool, W. L. Crocker, Rev. Jesse Page, and the Misses Jones. For twelve years from 1896 to 1908, the school was under the management of E. L. Middleton. In

Football

1908, Mr. Middleton resigned to enter a different field of work, and the present Superintendent was elected as his successor.

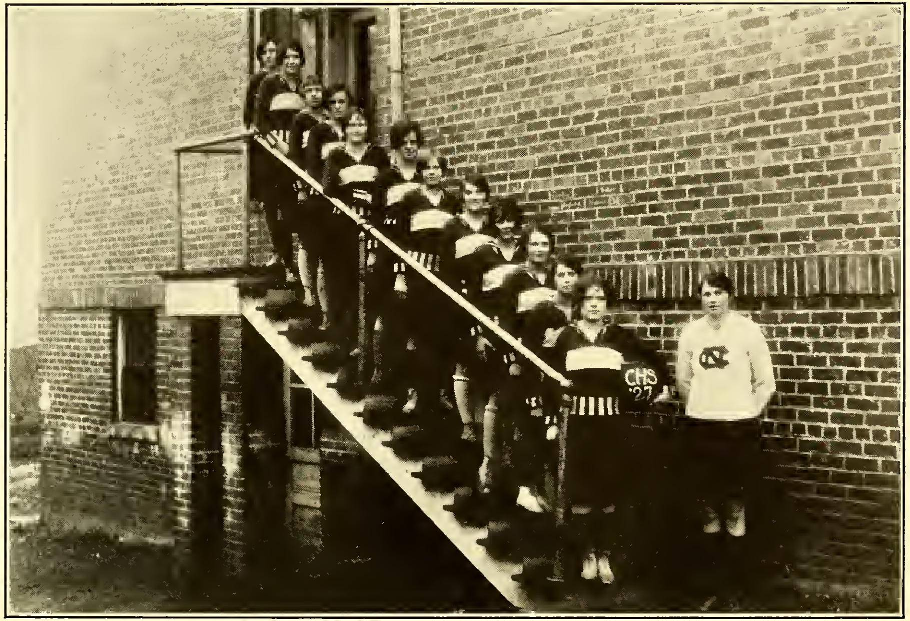
The school has maintained its prestige as a boarding school for with new buildings, new and up-to-date equipment, with dormitories both for boys and girls, with new departments constantly being added, and with a corps of specially trained and experienced teachers, the school still draws patronage from a large territory.

The old two-story wooden building which the school had outgrown was replaced in 1913-14 by a new and thoroughly modern brick structure with thirty-three rooms, costing $33,000. The old dormitory building for boys which was burned in the spring of 1916, was replaced that year by a brick structure at a cost of about $13,000. The building contains 34 rooms, being provided with steam heat, electric lights, baths, lavatories, etc., and is now occupied by the girls under the care of the Lady Principal. The old privately owned girls' dormitory, which had been occupied by the boys since 1916, was burned in the fall of 1918. In 1919-20 there was erected on the campus a brick dormitory for the boys, practically a duplicate of the girls' dormitory, at a cost of about $28,000. This building contains 33 rooms and is provided with steam heat, electric lights, single beds, shower baths, etc.

In the summer of 1923, another two-story brick building was erected to provide rooms for the departments of agriculture, home economics, teacher-training and science. It contains 18 rooms and cost $45,000. This building has been named in honor of Cary's most illustrious citizen, the late Walter Hines Page, and is known officially as the Walter Hines Page Building for Vocational Training.

In the spring of 1925 a gymnasium was erected on the campus at a cost of about $12,000. For description of this building, see page 31.

In March, 1927, the school took another forward step by voting consolidation with several districts lying along the Seaboard Air Line and Southern Railway and extending from Raleigh to the Durham County line. Another brick building, the sixth since 1913, is now under construction and will be



Girls' Basketball

ready for use in the fall of this year. This building will contain twelve rooms and will be used exclusively by the elementary school. The building will cost something over $31,000.

The school campus contains four acres and, according to the last geological survey, is the highest ground in Wake County.

The entire school plant at the present time is estimated to be worth $275,000.

The town of Cary in 1926 installed a water and sewerage system at a cost of $150,000, thus materially enhancing the desirability of the town as a place of residence. Electric lights, electric power and telephones have been in use for several years. Recently the Baptist and Methodist denominations of the town have provided themselves with new brick church houses with every modern convenience and fully in keeping with the school buildings described in this catalogue.

NOTE. Cary High School is accredited by the State Department of Education, and the elementary department has been standardized in accordance with the requirements of the State Department of Elementary Supervision.
